I. CURRICULAR ASPECTS

Ganpat University is a multi-disciplinary University offering varied courses in emerging areas. Ganpat University has distinguished itself by starting many courses those are innovative and first of their kind in Gujarat. The University has taken all measures to effectively address its goals and objectives by providing excellent education to its students for social upliftment. The university has with the passage of time, brought in changes both in the content delivered and the tools used for delivery of the content. The introduction of the Choice Based Credit System (CBCS) as well as Semester is at ion with effect from 2010-11 offered us an opportunity to take a re-look at the structure of course offerings we had. Our academic programmes are mainly in four categories: Degree, Diploma, Postgraduate Diploma and Certificate programmes. Our effort has been to use the core courses for imparting training to students in a broad area of the subject-discipline focusing on its essential core, offering basic professional knowledge, skills etc to develop a scholastic overview of the subject.

We have complied with another mandatory provision made by the UGC to introduce an entrance test for admission to our PhD programmes from the academic year 2010-11 and mandatory coursework put in place for those admitted and both these have brought a qualitative change vis à vis these programmes. Thus, we are able to give our learners the benefit of the new developments in specific subject-discipline. The syllabi and related activities are recommended by representative Board of Studies to the higher academic bodies of the university such as Faculty, Academic Council, and the Board of Governors.

II. TEACHING-LEARNING AND EVALUATION

Our mandate at the time of establishment of this university was ‘upliftment of the society through education’. The education required was of the kind that would help shape character and conduct by empowering learners from rural areas to be self-reliant and capable of self-employment rather than employment-seeking citizens. Embedded in the mandate was a refined mixture of the traditional and the modern: a cross between the traditions of teaching-learning in our ancient seats of learning Nalanda and Takshashila and the western model of Oxford and Cambridge. Prof. P. I. Patel, our founder Vice Chancellor, was intent in translating this understanding of his vision into action.

Our effort has constantly been to ensure awakening and enlightenment in the process of teaching learning exchange both on the part of the teacher and the taught. We tend to perceive the process as an evolution of the whole from the whole, and have strived hard to trigger this further into lifelong learning. The result has been the creation of a transparent and accountable system of evaluation involving blind assessment using non-transparent flapping of their seat numbers by the examinees at the end of an examination; secure centralised process of evaluation and compilation of results; speedy and confidential reassessment by external examiners outside this university; stricter penalties for unethical methods used by the students or evaluators after a free and fair hearing by the Unfair Means Committee appointed by the Director; creation of grievance redressal committee etc voluntarily and as mandated by the UGC or the Education Department of the Government of Gujarat. All this has led to stress-free examinations and timely declaration of results.
