SAE INDIA UVPCE COLLEGIATE CLUB (SAE BAJA)

Society for Automotive Engineers, India (SAE-INDIA) is an affiliate society of **SAE International** registered in India as an Indian nonprofit engineering and scientific society dedicated to the advancement of mobility industry in India. SAE INDIA organizes many events and one of them is BAJA. The objective of the **BAJA SAE** is to provide its SAE student members with a challenging project that involves design, engineering, planning, manufacturing and marketing the tasks found when introducing a new product to the consumer industrial market. The teams have to design an **All-Terrain Vehicle (ATV)** and compete against one another to have their design accepted for manufacture by a fictitious firm. In this competition, Mechanical and Mechatronics Engineering Department of U.V.Patel College of Engineering's "**Team SHATASHVA**" has been participating since 2013.

Team SHATASHVA 2014-15

BAJA SAE INDIA has launched the eBAJA (electric Baja) competition this year by initiative of our ex-President **Dr. A. P. J. ABDUL KALAM**; this event is aiming towards the research and development in non-conventional transport technology by young engineers for betterment of society. **BAJA SAE INDIA** has rolled out **eBAJA** series for the first time, to leverage the onset of **Electrical Mobility** in India. The **e-Baja** vehicles will run on electricity and may be recharged by solar power. They will be propelled by an electric motor powered by rechargeable battery packs. There were 118 teams selected for Main event (IC Engine and Electric Motor) among 323 teams allover India.13 teams were in eBAJA and Team SHATSHVA is one of them, performed best at the event. Team came up with overall Ranked **1st** in India in eBAJA event and received the **"BEST eBAJA TEAM AWARD"** with a Prize money of **Rs - 1,00,000/-**

Team SHATASHVA 2013-14

Team gave a good performance at L.D. College of Engineering, Ahmedabad and came runner up (Secured 2nd position) in **ATV Championship** and was awarded with a prize money of **Rs.15, 000/-.**

Team SHATASHVA 2012-13

The theme for Baja SAEINDIA 2013 was **Zero Tolerance**. The main event was held at NATRAX, Pithampur, Indore on 14th to 19th February 2013, it was awarded **1st Static Cost Winner** and received a prize money of Rs**. 60,000/- As a new team, Ranked 2nd in India and 1st in Gujarat.** Overall Ranked 17th in India and 2nd in Gujarat among 276 teams.

CONVERGENCE

Convergence is one of the flagship annual events at Ganpat University. It is a National Level Technical Festival for Engineering students for Two days, being organized by Faculty of Engineering & Technology since 2002. Convergence is one of the most awaited events of the year, making campus vibrant with full of energy, excitement and youthfulness. 4000 prospective engineers from various part of India, meet on common platform, interact and share ideas – it is a really an event with full of opportunities and possibilities. Convergence provides platform for showcasing technical skills of students, learning about latest technological developments, besides opportunities for enhancement of creativity & innovativeness, leadership skills and spirit of teamwork. There are more than 60 different events are planned which includes workshops, expert lectures, E-auction, paper-poster presentations, quizzes, robotic competition, digital branding, model making competition, programming contest, business idea competition, youth parliament, art gallery, airshow, etc. Participation in the event is on constant rise, starting from about 900 in 1st Convergence to about 4000 in 2015. One of the important facts of the event is that there is active involvement of Industries and experts from field. From the feedback received from majority of Alumni, experience of attending 4 convergence events, was very useful experience and helping a lot in their professional career.

AEROMODELING CLUB

Aeromodeling club was established in July 2013, under the mentorship of Prof. P. C. Patel and Prof. N. A. Modi. Aim of aeromodeling club is to satisfy fascination and excitement of youth towards flying and thereby make them interested in technical aspects of flying and different types of aero-models. Every year one batch of about 30 students are trained for fundamentals, design, fabrication and flying of different aero-models. Experts from Indian Air Force and visits Airports are also arranged during training. Every year, our Aeromodeling club organizes AIRSHOW, one of the flagship event during technical festival, convergence. Airshow is arranged on sports ground which is being witnessed by more than 5000 students, including students from surrounding schools. In Airshow, students are performing activities such as flying of RC engine powered model aircrafts, flower dropping by quadcopter, banner flying with aircraft, chocolate dropping, parachute dropping, aerial photography, kite flying, etc. Airshow usually gets wide media attention. Every year, students of Aeromodeling club participates in technical festivals organized by different IITs/NITs and normally win prizes.

DOCTORAL COLLOQUIUM

With the objectives of networking researchers, sharing knowledge and learning from each other as also to explore emerging areas of research in various disciplines, the Faculty of Management Studies at Ganpat University organised a first Doctoral Colloquium on February 06-07, 2015. 2. Executive Summary

Ganpat University is a well reputed State Private University established in 2005 through the State Legislative act no 19 of 2005, Government of Gujarat and recognized by the UGC under the section 2(f) of the UGC Act, 1956 having campus spread over more than 300 acres of land with world class infrastructure and more than 10,000 students on campus. The University offers Diplomas, Under Graduate, Post – Graduate and Research Programs under the Faculties of Engineering and Technology, Pharmacy, Management, Computer Applications, Sciences, Humanities and Social Science, Architecture, Design & Planning and Skill Development. We have complied with another mandatory provision made by the UGC to introduce an entrance test for admission to our PhD programmes from the academic year 2010-11 and mandatory coursework put in place for those admitted and both these have brought a qualitative change vis àvis these programmes. The University offers the programs and courses, which designed with well-defined objectives and Outcomes.

The education required was of the kind that would help shape character and conduct by empowering learners from rural areas to be self-reliant and capable of self-employment rather than employment-seeking citizens. Our effort has constantly been to ensure awakening and enlightenment in the process of teaching learning exchange both on the part of the teacher and the taught. We tend to perceive the process as an evolution of the whole from the whole, and have strived hard to trigger this further into lifelong learning. Ganpat University promotes excellent academic, teaching and research environment. The University has well defined recruitment rules for minimum qualification required to recruit faculty in line with UGC, AICTE, PCI, COA norms etc.

The research policy of the University has been very strong and has created a very conducive environment for research at departmental, faculty, research student and student levels, besides encouragement for pursuing research through intra-institutional and inter-institutional levels. The University has extended support for availing funding resources from national agencies, governmental, corporate and industrial sectors, besides its own funding support for research. University promotes research activities by providing financial assistance to carry out minor research projects, to attend national and international conferences/ seminars/ workshops, to organize short term training programs and workshops on theoretical and practical aspects, for publication of research outcomes in good quality research journals.

The overall development of the University related to Implementation and Continuous Improvement are discussed and appropriate decisions are taken at the meetings of the respective Statutory Bodies. All statutory bodies have autonomy to implement developmental initiatives in the line of vision and mission of the university.

The university has initiated best practices to fulfill the societal benefit. Some are listed as below.

- Ganpat VolunTeacher Movement is a student movement to extend the educational services to under privileged children of villages by the students on every Sunday in villages adopted by Ganpat University.

- Maruti-Suzuki has set up first Japan-India Institute for Manufacturing (JIM) at Ganpat University to create a pool of skilled manpower.

I. CURRICULAR ASPECTS

Ganpat University is a multi-disciplinary University offering varied courses in emerging areas. Ganpat University has distinguished itself by starting many courses those are innovative and first of their kind in Gujarat. The University has taken all measures to effectively address its goals and objectives by providing excellent education to its students for social upliftment. The university has with the passage of time, brought in changes both in the content delivered and the tools used for delivery of the content. The introduction of the Choice Based Credit System (CBCS) as well as Semester is at ion with effect from 2010-11 offered us an opportunity to take a re-look at the structure of course offerings we had. Our academic programmes are mainly in four categories: Degree, Diploma, Postgraduate Diploma and Certificate programmes. Our effort has been to use the core courses for imparting training to students in a broad area of the subject-discipline focusing on its essential core, offering basic professional knowledge, skills etc to develop a scholastic overview of the subject.

We have complied with another mandatory provision made by the UGC to introduce an entrance test for admission to our PhD programmes from the academic year 2010-11 and mandatory coursework put in place for those admitted and both these have brought a qualitative change vis àvis these programmes. Thus, we are able to give our learners the benefit of the new developments in specific subject-discipline. The syllabi and

related activities are recommended by representative Board of Studies to the higher academic bodies of the university such as Faculty, Academic Council, and the Board of Governors.

The University offers the programs and courses, which designed with well-defined objectives and Outcomes. The curriculum reviewed at every year by Board of Studies and Faculty Committee considering feedbacks from various stakeholders to meet the global trends. The university is providing academic flexibility by offering Core / Elective subjects, enrichment courses, Credit accumulation/transfer facility, Lateral and vertical mobility within and across programmes and courses.

The University offers audit courses as value-added courses to enhance the creativity and nurture innovativeness among students of all UG and PG Programs. These courses aimed at Integral Human Development and Vocational/ Soft Skill Enhancement. The university is also offering unique and industry-linked programmmes such as B.Tech. in Marine Engineering, M. Tech in VLSI & Embedded Systems, BBA in Financial Management in collaboration with NSE, India, MBA (Banking & Finance) with GUCBF, Gujarat, B. Tech.in CSE (BDA, MA and CBA) with IBM.

II. TEACHING-LEARNING AND EVALUATION

Our mandate at the time of establishment of this university was 'upliftment of the society through education'. The education required was of the kind that would help shape character and conduct by empowering learners from rural areas to be self-reliant and capable of self-employment rather than employment-seeking citizens. Embedded in the mandate was a refined mixture of the traditional and the modern: a cross between the traditions of teaching-learning in our ancient seats of learning Nalanda and Takshashila and the western model of Oxford and Cambridge. Prof. P. I. Patel, our founder Vice Chancellor, was intent in translating this understanding of his vision into action.

Our effort has constantly been to ensure awakening and enlightenment in the process of teaching learning exchange both on the part of the teacher and the taught. We tend to perceive the process as an evolution of the whole from the whole, and have strived hard to trigger this further into lifelong learning. The result has been the creation of a transparent and accountable system of evaluation involving blind assessment using non-transparent flapping of their seat numbers by the examinees at the end of an examination; secure centralised process of evaluation and compilation of results; speedy and confidential reassessment by external examiners outside this university; stricter penalties for unethical methods used by the students or evaluators after a free and fair hearing by the Unfair Means Committee appointed by the Director; creation of grievance redressal committee etc voluntarily and as mandated by the UGC or the Education Department of the Government of Gujarat. All this has led to stress-free examinations and timely declaration of results.

Ganpat University promotes excellent academic, teaching and research environment. The University has well defined recruitment rules for minimum qualification required to recruit faculty in line with UGC, AICTE, PCI, COA norms etc. The University has framed the policy such as Carrier Advancement Scheme to retain the experience faculties. The university has framed various incentive policies for financial assistance to attend the National and International Conference/Seminar in India and Abroad to promote the professional development.

The faculty organizes conferences, workshops and training programs on regular bases. The university also encourages the faculty members for faculty exchange programme and carryout postdoctoral research works at foreign universities. The University provides financial assistance for Major and Minor research projects to inculcate the research environment among the faculty.

III. RESEARCH, CONSULTANCY AND EXTENSION

Research has been a way of life in the academic arena of Ganpat University. The research policy of the University has been very strong and has created a very conducive environment for research at departmental, faculty, research student and student levels, besides encouragement for pursuing research through intra-institutional and inter-institutional levels. The University has extended support for availing funding resources from national agencies, governmental, corporate and industrial sectors, besides its own funding support for research. The research out-put in terms of publications has been very impressive.

Centre for Advanced Research Studies (CARS) is a multidisciplinary research centre set up for the promotion of excellence in research to pursue and promote world-class research and training at the frontiers of various area i.e. material sciences, pharmaceuticals, biomedical, computer engineering, human resource management, cultural science, etc.

University promotes research activities by providing financial assistance to carry out minor research projects, to attend national and international conferences/ seminars/ workshops, to organize short term training programs and workshops on theoretical and practical aspects, for publication of research outcomes in good quality research journals. University encourages the interdisciplinary curriculum design and research due to the changing atmosphere in the academics of higher education system. The University Departments have also followed the interdisciplinary approach by sharing the expertise of other departments across the faculties to understand the mechanism of processes.

The University hosts renowned Adjunct Professors at the national and international levels to visit the University, extends local hospitality for such visitors. This has created awareness among the faculty to understand the advances research in their respective areas of interest. The University also hosts Adjunct Professors to deliver lectures and to interact with young researchers. The University has earmarked considerable percentage of budget for research and ensures that the allocation is released on time to promote research. Apart from that, funds are also generated from Government funding agencies and other agencies through research projects and consultancy work.

V. STUDENT SUPPORT AND PROGRESSION

A mentoring system is adopted across the University with slight modifications to suit the needs of the constituent institutes. Faculty Mentor is assigned to all the students. The mentor during the periodic review meeting counsels the students and also attends to the academic matters of mentees dealing with previous academic performance, internal assessment marks, semester results and career coaching. Support Services for students of special categories are provided. University has Incubation Centre which motivates the students for entrepreneurship through seminar and workshops. The University has an institutionalized mechanism for students' placement through the Career Development and Placement Cell. Each institute/department also has similar cells to coordinate the activities of Career Development and Placement Cell.

To promote the student for entrepreneurship, GNU has taken initiate and established incubation centre under which many start-ups being incubated. The Ganpat University Incubation Centre has been authorized as nodal institute for Startup/ Innovation scheme of Industry Commissionaire, Govt. of Gujarat. Moreover, GNU Centre has been approved by SSIP scheme of Higher Education Department of Govt. of Gujarat for student start up and innovation policy.

The Ganpat University has also tie-up with Amazon for the cloud-base services and more advancement are in planning phase. Overall GNU has constant endeavor to develop student to get success for industrial opportunities through special key skills of entrepreneurship.

The University believes in the holistic integral development of the students and provides ample opportunity for the students to participate in extra-curricular and co-curricular events organized in-house or outside the University. University provides platform at Campus for various games like lawn tennis, cricket, volleyball, chess, hand ball, football etc. Students have excelled in a variety of events and competitions both on campus and off-campus.

The University has provided opportunity to students and they have developed successful groups like, ROBOCON club, SAE BAJA Club, Innov8 Club, Code seekers, GVM and VSTAR. Each group has its success in their field. Publication of University Student Magazine - 'EACHO' is managed by the students. Students are given the financial and technical support for participating in activities outside the campus as well. Also the efforts of students are appreciated by presenting them with appreciation awards and certificates during Annual day celebrations.

VI. GOVERNANCE, LEADERSHIP AND MANAGEMENT

The university has a long-standing tradition of leadership in all walks of academic as well as administrative life. The university has been fortunate to have the tall academic leaders in the form of Vice Chancellors and these include Prof. P. I. Patel. Dr. L. N. Patel and Dr. M. S. Sharma who, in addition to their constitutional functions, have also motivated teachers aim and achieve developing higher standards. The Registrars of this university and the distinct culture of this geographical area reflect leadership in a very different way. This university is a unitary Campus University encompassing a small geographical region. It caters to the needs of approximately 10,000 to 15,000 students distributed in 07 faculties in 22 constituent colleges/centers/institutions/department. The university is aware about its goal reflecting quality inclusion of all the aspects of higher education right from its inception. The official interactions between the administrative and academic units are bilaterally gainful for making the functioning more effective and efficient both ways in quite an amicable manner. Administrative sections and their intersectional communications make the whole system goal-oriented.

The University has its well-defined vision and mission, which carry the distinct objectives of catering to the society, students and all stakeholders. The overall development of the University related to Implementation and Continuous Improvement are discussed and appropriate decisions are taken at the meetings of the respective Statutory Bodies. All statutory bodies have autonomy to implement developmental initiatives in the line of vision and mission of the university. The statutory bodies are constituted having distinctive members from Industry, Academic, Legal and Finance background. The Board of Governors (BOG) is the apex body, which takes active interest in understanding the developmental strategies of the university and offers its inputs on all broad areas of development and internal quality enhancement. The Director General who is executive officer of the University ensures the smooth functioning of the university in the development of management system, implementation of policies framed and for continuous improvement.

VII. INNOVATIONS AND BEST PRACTICES

GNU has always encouraged innovations in teaching and developmental activities; and has boldly allowed the practice of innovative ideas. Research projects at UG and PG levels, offering variety of enrichment and elective courses, Summer Research Fellowship Program, Emphasis on applied research and industry projects

by faculty, Establishment of Human Resource Development Centre, Mentoring of young faculty by experienced super-annulated faculties from other institutes/ Universities and organizations, Regular Industry Academia Meet, Students' involvement in administrative bodies of the University, Poster preparation and evaluation during dissertation at PG, establishment of Research facility are some of the innovations designed, implemented and practiced by GNU.

ICT → Institute of Computer Technology (College Name) , CSE → Computer Science and Engineering (Department), ICT → Information and Communication Technology(Department), CBA→ Cloud Based Applications, BDA→ Big Data Analytics CS→ Cyber Security]

Institute of Computer Technology(ICT) has been established in 2017 with an aim toward imparting the most recent technical knowledge parallel to the updated industry trends, to make the students as "ready to absorb" in the industries and to serve the society.

The rise in 'real-world' research and 'learning by doing' education has generated exciting opportunities with the potential to shift higher education culture at ICT under the Faculty of Engineering & Technology, Ganpat University. ICT's provision for world class teaching and research is bolstered by an active engagement of industry experts. The Industry-Institute-Integration has resulted in 'industry collaborated/sponsored courses' and setting up a number of sponsored labs.

In a fast changing world, technology is changing faster than our lives. Latest technologies are being adopted as an integral part of the world; determining greater employability of young engineers. As a continued effort to offer the Programs-of-Future, Ganpat University provides an exclusive opportunity to the engineering aspirants to join Bachelor of Technology (B.Tech.) - CSE (Computer Science and Engineering) in association with IBM.

The Information and Communication Technology industry is one of the fastest growing and changing fields. Technology is developing rapidly and new devices and systems are constantly being created to provide faster and more efficient methods for information and communication technology. Careers in the Information and Communication Technology Field are in high demand and the industry is expected to grow.

Programs offered:

Bachelor of Technology in
1. Computer Science and Engineering with specialization in Cloud Based Applications,
2. Computer Science and Engineering with specialization in Cyber Security,
3. Computer Science and Engineering with specialization in Big Data Analytics,
4. Information and Communication Technology

Key Achievements :

    1. **PLACEMENT --->**

ICT clearly differentiated between students seeking placements and other groups seeking internship / training. ICT stresses on the fact that Placements must be offered to seriously interested masses and they must get an appropriate opportunity. Wherein, internships / training are for those who are either willing for higher education or family business or willing to be entrepreneurs. Following are the statistics for interested in Placements and Internships 2021:

2. **SPOKEN TUTORIAL :**

Our University has partnered with IIT Bombay, known as SPOKEN TUTORIAL, which is an NMEICT, Govt. of India initiative to enhance the skill set of students both UG and PG for promoting its mission of providing resources to its students to make them industry ready. Spoken Tutorial Project is an award winning MOOCs (from Google), running a successful IT training program in India since the past 5 years.

Training is offered on Free and Open Source Software (FOSS). Exotic and lucrative courses like Python, Perl, BASH, GIMP, Blender for multimedia, can be learned effectively through Spoken Tutorials.

The courses are useful for both jobs (Skill focus courses) and academics (Syllabus focus courses). The program is funded by MHRD, Govt. of India. The training is on campus.

The tutorial is an asset to the students since learning becomes more effective when animation and narration are presented simultaneously. Audio-video demonstrations can illustrate features with maximum clarity.

Participation by students is mandatory and the appointed faculty Prof. Kunal Garud will batch the students and update on the same.

The Ganpat University- Centre for Entrepreneurship is established in 2019 with aim to ignite the spirit of entrepreneurship across the rural and urban areas of the state and to offer an intimate support system for entrepreneurs at EDC. Our mission is to advance knowledge and educate students in innovation-driven entrepreneurship. Its key objectives include To act as an institutional mechanism for providing various services including information on all aspect of enterprise building to budding S&T entrepreneurs, To create Entrepreneurial culture among Institutions of GUNI and other institutions in the region, including programmes related to women and weaker sections of the society, To foster better linkages between the University, Industries and R&D institutions in the region and other related organisations engaged in promoting Small & Medium Enterprises (SMEs) and Non-Government Organisations (NGOs), To catalyse and promote development of S&T knowledge-based enterprises and promote employment opportunities in the innovative areas and to provide S & T entrepreneurs with the three critical enablers Capability, Capital and Community to fast-track their journey from ideas into viable businesses creating positive sustainable impact.

Programs offered:

Centre for Entrepreneurship is responsible for 2 Academic Programs
Under CMSR: MBA Startup & Entrepreneurship, MBA Innovation Entrepreneurship & Venture Development
Under VMPIM: MBA with concentration in Entrepreneurship

Key Achievements

Within small period of Commencement, the Centre has conducted many Entrepreneurship Development Programs with the Apex Government Organization CED, Gog. It has initiated Series of Workshop under the Flagship Program of Entrepreneurship 101 Series which is in association with SSIP, Gog & GUNI Incubation Centre. The World of Entrepreneurship is another such initiative which consists of series of Webinars, uncovering the Journeys, challenges & success stories of Entrepreneurs. This webinar series engaged Founders, CEO's, Management leaders from Domains including Reals Estate, Chemicals, Food & Food Products, Technology, Renewable Energy, AI, ML and more than 1000+ students across India and abroad have participated till now.

Shree S.K. Patel College of Pharmaceutical Education and Research was established in 1996 as the first self-financed pharmacy college in North Gujarat Region imparting degree pharmacy course with a mission to meet the educational needs of the youth in the area of professional studies and provide state-of-the-art learning opportunities along with inculcation of values of professional commitment and uprightness. The college is approved by AICTE and PCI and it has achieved the distinction of being the First Accredited College in the Gujarat state by NBA-AICTE for its B.Pharm Programme in 2003. It is the only college in Gujarat state and second in India who has embarked FDCA approved Drug manufacturing facility in which industry scale manufacturing of Dosage forms taking place and students are getting real time exposure of Pharmaceutical industry.

Programs offered:

Bachelor of Pharmacy (B.Pharm.), Master of Pharmacy (M.Pharm.) in Specialization of Pharmaceutics, Pharmaceutical Quality Assurance, Pharmacology and Doctor of Philosophy (Ph.D.)

Key Achievements

International Collaboration:

MOU :

The institute has made active MoUs with many Pharmaceutical Industries and Research Centres in order to facilitate the students for effective training and collaborative research. Institute is also permanent member of ISTE. The institute is frequently organizing seminars and symposia by inviting experts from industry and academia. The institute is undertaking collaborative research projects and consultancy with many industries and carry out sponsored research projects from various government agencies like AICTE, DST, DBT, ICMR and GUJCOST.

Mehsana Urban Institute of Sciences was founded in 2006 with a view to meeting the educational needs of the youth to prepare them for their professional studies in numerous areas of pure and applied sciences by providing them with ample sophisticated learning opportunities. The institute is constituent college of Ganpat University and approved by Department of Higher Education, Government of Gujarat and University Grants Commission, New Delhi. The Institute has adopted Choice Based Credit System (C.B.C.S) and curriculum is designed as per UGC guidelines.

Programs offered:

Bachelor of Science (Biotechnology, Chemistry, Mathematics, Physics, Microbiology), Master of Science (Biotechnology, Chemistry, Mathematics, Physics, Microbiology, Botany, Biochemistry, Industrial Chemistry), PGDMLT and Doctor of Philosophy (Ph.D.)

Key Achievements

Mehsana Urban Institute of Sciences, Ganpat University got the national level recognition in the form of Flagship Award – The Most Upcoming Institute. This award has been given by Confederation Education Excellence (CEE) during the 5th Conclave on Excellence in Education with the theme "Education 2025: Students First", New Delhi on 22nd April 2017.
The Institute is also approved as a Nodel centre for BTCBC (Biotechnology capacity building cell) by GSBTM-Gujarat State Biotechnology Mission, Gujarat.

Acharya Motibhai Patel Institute of Computer Studiesis the first college of North Gujarat region offering highly reputed computer application course B.C.A.& M.C.A. was established in August 1999. This institute started with the help of the donation of Rs. One Crore from Acharya Motibhai Patel with a view to impart quality computer education and training. In course of time, however, there was a need to educate and train computer professionals to meet the changing manpower requirements of the IT industry.

The dynamic era of computer technology created a rising demand for young professionally trained persons to occupy positions in the IT industry. The institute, therefore, took up the challenge to meet the call of the time and contribute its mite to the cause of computer education and training. Accordingly, the institute offers three year BCA programs which provides opportunities to youngsters to acquire knowledge, skill and essential attitudes for assuming a position in the computer profession.

Programs offered:

1. Ph.D.

2. Master of Computer Application(MCA)

3. Bachelor of Computer Application(BCA)

Interaction/Collaboration:

Industry-Department-Linkages Activities of current collaboration, Curriculum Development, Course Project Work, Seminar/Symposia Sponsorship, Communication Skills Development Scheme, Teaching/Training (Visiting Guest Faculty), Viva-Voce and Evaluation of B.C.A., M.C.A , Ph. D. Dissertation Work, Case Writing/Case Study Preparation, Students' Industrial Visits and Practical Software Training and Development.

MOU :

1. An MOU signed between Acharya Motibhai Patel Institute of Computer Studies and Multidots Solutions Pvt. Ltd. during January, 2019 for the establishing and industry – Institute linkage. The MOU is designed to encourage collaborative activities on academics, training and research.
2. This memorandum of understanding (MoU) was made and entered into on 12th October, 2018 by and between Acharya Motibhai Patel institute of Computer Studies, Ganpat Vidyanagar and MetR Technology, - Ahmedabad in order to promote industry - institute linkage.
3. This memorandum of understanding (MoU) was made and entered into on 13thOctober, 2018 by and between Acharya Motibhai Pate! Institute of Computer Studies, Ganpat Vidyanagar and Billing36O.in - Ahmedabad in order to promote industry - institute linkage.

4. The memorandum of understanding (MoU) was made and entered into on 1stNovember 2018 by and between Acharya Motibhai Patel institute of Computer Studies, Ganpat University and Odoo India (Tiny ERP Pvt Ltd;) - Gandhinagar in order to promote industry - institute linkage.
5. This memorandum of understanding (MoU) was made and entered into on 1st December 2018 by and between Acharya Motibhai Patel institute of Computer Studies, Ganpat University and Overseas IT Solution - Ahmedabad in order to promote industry - institute linkage.

These MoU are designed to encourage the collaborative activities on academics, training and research as following:

- Faculty training and students training in the industry.
- Provision of Experts lecture of mutual interest.
- Research collaboration cum projects on the topics of mutual interest to be undertaken at the research center of this college as well as industry by students and faculty.
- Exchange of information and technical literature related to teaching and research.
- Involvement in organization of conferences/workshops/seminars on the topics of mutual interest.
- Exchange visits of collaborating partners to promote the objectives of this MoU.
- Probable placement of the students at the industry on merit basis.
- To establish a Research and Development center for tool designing at the institute campus.

Established in the year 2008 with a view to provide a quality education in the areas of computer applications, DCS has now become the most popular destination for the IT Aspirants Students.

A Cursory Look

- Beautiful Campus and Excellent Infrastructure
- IT Industry Oriented Advanced Syllabus
- Excellent incorporation of curricular , co-curricular and extracurricular activities
- Technical events, Quiz competitions, Industrial Tour, Workshops, Seminars & Expert Lectures
- Training for Aptitude tests, IELTS, Soft skills, Presentation skill, GD and Personal Interview
- Well qualified and experienced faculty members & Best teaching pedagogy
- Interface with IT Industry
- Outstanding Placement Ratio

Programs offered:

1. Bachelor of Science in Computer Application and Information Technology
2. Bachelor of Science in Information Technology
3. Bachelor of Science in Information Technology (Cyber Security)
4. Bachelor of Science in Information Technology (Infrastructure Management Services)
5. Master of Science in Computer Application and Information Technology
6. Master of Science in Information Technology
7. Master of Science in Information Technology (Cyber Security)
8. Master of Science in Information Technology (Infrastructure Management Services)
9. Master of Science in Information Technology (Artificial Intelligence & Machine Learning)

1.1.2 Details of courses having focus on employability/ entrepreneurship/ skill development in the Year 2019- 2020

Constituent Institute	Name of Programme / Branch	Name of Courses with Code	Activities with direct bearing on Employability/ Entrepreneurship/ Skill development
UVPCE	B.Tech.-BME	2BM3101: Linear Electronics. - (LE)	Laboratory Practicals, Components Testing in Lab, Bread boarding, soldering,
UVPCE	B.Tech.-BME	2BM3102: Biomedical Transducers & Biosensors - (BTBS)	Identify the different sensors surrounding us. Activity of temperature measurement using heater , water and sensor.
UVPCE	B.Tech.-BME	2BM3103: Medical System Actuators - (MSA)	Find out the different type of actuator in household application Industrial visit Find out use of actuators in vehicles, metro train etc
UVPCE	B.Tech.-BME	2BM3104: Human Anatomy & Physiology - II - (HAP II)	Identify structures and organs Acknowledging associated diseases and biomedical instruments Able to draw and label detailed structure of human body system's anatomy.
UVPCE	B.Tech.-BME	2BM3105: Simulation Laboratory-I - (SL - I)	Activity of signal analysis MATLAB programming Mathematical Operation performing Simulink for signal processing
UVPCE	B.Tech.-BME	2BM4101: Analog Integrated Electronics - (AIE)	Laboratory Practicals, Components Testing in Lab, Bread boarding, soldering,
UVPCE	B.Tech.-BME	2BM4102: Control System Engineering. - (CSE)	Laboratory Practicals Programming in MATLAB for system design Simulation tool of system Control System Tools for system analysis and design
UVPCE	B.Tech.-BME	2BM4103: Digital Logic Circuits - (DLC)	Circuit designing & bread boarding, Component selection & Testing Chart preparation
UVPCE	B.Tech.-BME	2BM4104: Electronics Measurement and Instrumentation	Acquiring skills of bread-boarding, Circuit designing, able to suitably use various electronic instruments
UVPCE	B.Tech.-BME	2BM4105: Biomaterials & Implants - (BM & I)	Investigate the impact of corrosion on material Industrial visit Chart and Model making Find out the classmates & family members having any implant material
UVPCE	B.Tech.-BME	2BM4106: Simulation Laboratory-II - (SL - II)	Identify the graphical programming environment Identify the voltage and current limitation of DAQ card

UVPCE	B.Tech.-BME	2BM5101: Physiological Control Systems & Modeling	Heart rate measurement activity in rest and after exercise Breathing / Respiration Measurement Physical model making using bottle, pen and balloon
UVPCE	B.Tech.-BME	2BM5102: Neural Networks and Fuzzy Logic	Selection of the type of neural network Activity of different amount of water in 5 glasses Application development using fuzzy set theory
UVPCE	B.Tech.-BME	2BM5103: Microprocessor Architecture & Interfacing	Selection of appropriate controller according to application Interfacing of stepper motor, display, relay etc
UVPCE	B.Tech.-BME	2BM5104: Biological Digital Signal Processing	Understand the basic concept of signal and system Designing and implementation of digital filters Signal compression programming Conduct the ECG signal analysis using MATLAB and Lab VIEW.
UVPCE	B.Tech.-BME	2BM5105: Cardiovascular System and Dynamics	Live demonstration of all types of fluid flow and 3D visualization of cardiovascular system and types of fluids, Modelling and Dynamics, Hospital Visit and Industrial Visits
UVPCE	B.Tech.-BME	2BM1506: Analytical Instrumentation	Laboratory instruments such as centrifuge, autoclave, analytical balance, pH meters etc. and Clinical laboratory visit
UVPCE	B.Tech.-BME	2HS5101: Aptitude Skill Building I - (ASB i)	Mock Interview, Aptitude written test, Logical reasoning, Problems solving & Critical thinking
UVPCE	B.Tech.-BME	2BM6101: Ultrasonic Imaging and Radiology	Identify x-ray system parts Able to use appropriate ultrasound modes for specific application Check radioactivity in permitted amount in Lab
UVPCE	B.Tech.-BME	2BM6102: Bio-Potential & Recorders	model and chart making Identification of different types of electrodes
UVPCE	B.Tech.-BME	2BM6103:Diagnostic Techniques & Instrumentation	Hands on various transducers and sensors Designing of amplifier, filters to get physiological signal Visit Hospital & Industry Perform Instruments calibration and testing. Aware the students for latest technology
UVPCE	B.Tech.-BME	2BM6104:Microcontroller Applications	Preparing application based project in a group 8051 Programming practice, Interfacing with peripheral devices,
UVPCE	B.Tech.-BME	2BM6105: Bioinformatics	Acquire skills to use techniques for sequence analysis of biological data Able to develop Perl Programming skills for bioinformatics
UVPCE	B.Tech.-BME	2BM6106: Hospital Management & Information System	Understand the role of biomedical engineer in hospitals Promote the development of high quality of hospital care in the community,

UVPCE	B.Tech.-BME		Develop skills enabling biomedical engineers to serve in hospitals, National and international industries and government agencies Communicate effectively and develop their leadership and teambuilding abilities understand the role and designing of critical care departments of hospital like ICCU, ICU etc Maintain various medical records and waste management. Hospital Visits and vocational trainings
UVPCE	B.Tech.-BME	2HS6101: Aptitude Skill Building II (ASB-II)	Mock Interview, Aptitude written test, Logical reasoning, Problems solving & Critical thinking
UVPCE	B.Tech.-BME	2BM701: Advanced Medical Imaging Techniques - (AMIT)	Visit of Radiologist Identification of different images Analysis using bulb and object's shadow
UVPCE	B.Tech.-BME	2BM702: Biomechanics & Design Ergonomics - (BDE)	Live demonstration of Sports Biomechanics at sports ground and Gym, Training and Workshops, Industrial Visits, Communication skills Training, Projects demonstration
UVPCE	B.Tech.-BME	2BM703: Therapeutic Techniques & Instrumentation - (TT&I)	Hands on various therapeutic instruments Presentation on latest medical instruments Hospital & Industrial Visit Open Assignment Apply the procedure in various therapeutic instruments Instruments setup
UVPCE	B.Tech.-BME	2BM704 : Advanced Bio-Material and Tissue Engineering - (ABMT)	Identify components and importance of used materials in tissue engineering and its applications, Acquire knowledge of used instruments Understand importance of storing cells in stem cell bank.
UVPCE	B.Tech.-BME	2BM705 : Embedded System Design - (ESD)	Interfacing practice projects' given in group water level using controller propeller led display stepper motor interfacing with controller
UVPCE	B.Tech.-BME	2BM706: Clinical Engineering & Patient Safety - (CEPS)	Hospital & Industrial Training Expert Session
UVPCE	B.Tech.-BME	2BM706: Medical Devices Standards and Regulations - (MDSR)	Industrial visit Expert Session
UVPCE	B.Tech.-BME	2BM707: Project I	How to write Problem definition, Review of papers/journals, Abstract preparation, long term and short terms goal of project.
UVPCE	B.Tech.-BME	2BM801: Biological Digital Image Processing - (BDIP)	Apply the concept of mathematics for image manipulation Acquire the knowledge of various class and types of images Implement the DFT and IDFT for frequency domain image processing

			MATLAB programming of real time image analysis like Hb estimation, Blood cell counting, Medical Image Registration and Segmentation
UVPCE	B.Tech.-BME	2BM802: Prosthetics & Orthotics - (P & O)	Industrial Visit, CAD CAM Designing Workshop, 3 D Printing Training and workshops, Plastics and material identification training, Communication skills training, Project
UVPCE	B.Tech.-BME	2BM803: Transportation Phenomena in Living Systems - (TPLS)	Utilization of different types of clothes according to season Chart and model making
UVPCE	B.Tech.-BME	2BM804 : Lasers & Optics in Medicine - (LOM) (Open Elective)	Visualize the difference between laser light and normal light Industrial visit Identify different types of LASER used for Ophthalmic and Surgery application
UVPCE	B.Tech.-BME	2BM804 : Neural Networks and Fuzzy Logic - (NNFL) (Open Elective)	Selection of the type of neural network Activity of different amount of water in 5 glasses Application development using fuzzy set theory
UVPCE	B.Tech.-BME	2BM805: Project - II - (P - II)	Implementation of real time hardware and software of project on various topics of Biomedical Engineering Report preparation Presentation Paper writing
UVPCE	M.Tech.-BME	3BM101:Quantitative Physiology for Engineer	Able to do Quantitative analysis obtain model of major systems of human body
UVPCE	M.Tech.-BME	3BM102: Medical Image Processing & Analysis	LabVIEW and MATLAB programming of advance image processing algorithm
UVPCE	M.Tech.-BME	3BM103:Advanced Rehabilitation Engineering	Industrial Visit, CAD CAM Designing Workshop, 3 D Printing Training and workshops, Plastics and material identification training, Communication skills training, Project , Live demonstration of Sports Biomechanics at sports ground and Gym, Training and Workshops
	M.Tech.-BME	3BM104:Advanced Bio-instrumentation & Radiation	Hospital Visit to learn Real time working of instrumentation, Laboratory practical
UVPCE	M.Tech.-BME	3BM105: Virtual Instrumentation	Virtual instrumentation Laboratory practice and simulation software are used.
UVPCE	M.Tech.-BME	3BM1PE01: Medical Microsystems (Elective –I)	Designing small project and implement
UVPCE	M.Tech.-BME	3BM1PE02:Biomedical waste Management	Visit of Biomedical waste management industries, Chart Making of different color codes,
UVPCE	M.Tech.-BME	3BM201:Bioethics,	Copyrights, patents, trademarks, and trade secrets.

		Standards & IPR Issues	
UVPCE	M.Tech.-BME	3BM202: Statistical Methods for Bio-Engineering	Statistical Analysis of real time medical science problems
	M.Tech.-BME	3BM203:Advanced Digital Signal Processing	Laboratory Practice, real time processing on data
UVPCE	M.Tech.-BME	3BM204:Artificial Intelligence	Programing practice for artificial intelligence
UVPCE	M.Tech.-BME	3BM205 : Research Methodology	Teach them various software for formatting, organizing research methodology workshop Encourage students to participate in Research methodology workshop
UVPCE	M.Tech.-BME	3BM2PE01:Advanced Biomaterials & Surface Engineering.	Able to understand various advanced materials and surface engineering techniques. Acquire Knowledge of which can be applied in suitable research interest topic.
UVPCE	M.Tech.-BME	3BM2PE02: Robotics in Medical Applications (Elective-II)	Workshop of robotics and project work and programming work
UVPCE	M.Tech.-BME	3BM301: Seminar	Students have to prepare brief report on topics on related to advance Technology in Biomedical Engineering. They have to present their presentation in front of students, guide teacher and external examiners.
UVPCE	M.Tech.-BME	3BM302:Dissertation Part-I	Students will carry out a research project in any area of his/her interest with concern of faculty member (Guide) throughout the semester.
UVPCE	M.Tech.-BME	3BM401: Dissertation Part-II	Students will carry out a research project in any area of his/her interest with concern of faculty member (Guide) throughout the semester.
UVPCE	B.Tech.-Civil	2ES106: ELEMENTS OF CIVIL ENGINEERING	Fundamental of civil engineering through theory class and laboratory sessions.
UVPCE	B.Tech.-Civil	2ES107:ENGINEERING MECHANICS	Fundamentals of static and dynamic loading condition through practical and by giving real time examples to them.
UVPCE	B.Tech.-Civil	2CI3102: MECHANICS OF STRUCTURE	Basic mechanics for analysis of structure by conducting practicals in laboratory.
UVPCE	B.Tech.-Civil	2CI3103: CONSTRUCTION MATERIALS AND ENGINEERING GEOLOGY	Students will get the knowledge of construction material and rocks through Industrial Visit and lab session.
UVPCE	B.Tech.-Civil	2CI3104: BUILDING PLANNING DESIGN	Aspects and prospects of planning and design via drawing and software.
UVPCE	B.Tech.-Civil	2CI3105:FLUID	Basic aspects of fluids in static by theory sessions and practical exposures.

		MECHANICS 1	
UVPCE	B.Tech.-Civil	2CI3106:NUMERICAL ANALYSIS AND COMPUTER PROGRAMMING	Programing to solve the mathematical problems in computer laboratory.
UVPCE	B.Tech.-Civil	2CI4101:STRUCTURAL ANALYSIS 1	Basic methods of analysis of structure by theory as well as conducting experiments in lab.
UVPCE	B.Tech.-Civil	2CI4102:SURVEYING	Basic concepts of surveying and levelling involving in construction through field practicals and theory sessions.
UVPCE	B.Tech.-Civil	2CI4103:BUILDING CONSTRUCTION	Different design of various elements of buildings through models.
UVPCE	B.Tech.-Civil	2CI4104:BASIC TRANSPORTATION SYSTEM	Basic concepts of modes of transportation via theory sessions.
UVPCE	B.Tech.-Civil	2CI4105:FLUID MECHANICS 2	conducting experiments on the fluid on the laboratory so that can measure all the parameters regarding mechanics for kinematics and dynamics of fluids
UVPCE	B.Tech.-Civil	2CI4106: CONCRETE TECHNOLOGY	Basics of concrete, mix design and tests of concrete through Power point presentation, theory sessions and Practicals in the lab.
UVPCE	B.Tech.-Civil	2CI5101:STRUCTURAL ANALYSIS 2	Methods of analysis of indeterminate structure by software and manually in the class and lab.
UVPCE	B.Tech.-Civil	2CI5102:HYDROLOGY AND WATER RESOURCES ENGINEERING	Water availability, measurements and usage by conducting dam visits, audio visual presentation and lectures.
UVPCE	B.Tech.-Civil	2CI5103:GEOTECHNICAL ENGINEERING	Basic fundamentals of Soil mechanics and index properties of soil in the lab as well in the class and also by visiting professional
UVPCE	B.Tech.-Civil	2CI5104:ELEMENTS OF STRUCTURAL DESIGN	Design basic structural elements by giving real time structural problems in the class.
UVPCE	B.Tech.-Civil	2CI51PE1:BASIC ENVIRONMENTAL ENGINEERING	Water treatment and its processes by presentation, visiting nearby water treatment plants and lab practicals.
UVPCE	B.Tech.-Civil	2CI51OE1:ICT FOR DEVELOPMENT	Role ICT in sustainable development, Various tools and application of ICT
UVPCE	B.Tech.-Civil	2CI6101:DESIGN OF STEEL STRUCTURE	Design various connections for steel structure by giving problems group wise and also through practicals and theory sessions.
UVPCE	B.Tech.-Civil	2CI6102:ADVANCED	Advanced techniques of surveying by modern tools of surveying by hands

		SURVEYING	on practice on the field and audio video presentation.
UVPCE	B.Tech.-Civil	2CI6103:FOUNDATON ENGINEERING	Advanced soil mechanics: Bearing capacity of soil by solving the examples for various type of soil stratum condition.
UVPCE	B.Tech.-Civil	2CI6104:ESTIMATING AND COSTING	Estimate the structure before the commencement of construction by giving the problem of physical structure. (e.g. own residential bungalow)
UVPCE	B.Tech.-Civil	2CI61PEA:ENVIRONM ENTAL ANALYSIS & DESIGNING	Design of water treatment and waste water treatment through theory and practicals.
UVPCE	B.Tech.-Civil	2CI61OE1:METRO SYSTEM AND ENGINEERING	Need of metro system, Metro operation and Management.
UVPCE	B.Tech.-Civil	2CI7101:DESIGN OF CONCRETE STRUCTURES	Design advanced design of concrete structures through various software and doing manual design in the lab sessions also.
UVPCE	B.Tech.-Civil	2CI7102:PROFESSION AL PRACTICE AND VALUATION	Calculation of the value of existing property by assigning them different civil engineering structures. Knowledge of whole process of tender through studio based.
UVPCE	B.Tech.-Civil	2CI7103:HIGHWAY AND TRAFFIC ENGINEERING	Concepts of highway and traffic engineering via visiting the different highways and junctions, also by conducting the traffic survey on junctions.
UVPCE	B.Tech.-Civil	2CI7104:IRRIGATION ENGINEERING	Planning, Design and application of water for agricultural purposes via presentations, lectures and visiting regional water resource department.
UVPCE	B.Tech.-Civil	2CI7105:CIVIL ENGINEERING PROJECT I	Particular practical knowledge through the project.
UVPCE	B.Tech.-Civil	2CI71PE1: EARTHQUAKE ENGINEERING	Understanding the behavior of structure under earthquake load by conducting various experiments on different types of model in the laboratory.
UVPCE	B.Tech.-Civil	2CI71PE2: TRANSPORTATION AND AIRPORT ENGINEERING	To learn the basic concepts in the field of transportation and traffic engineering with some planning concepts by conducting survey of real traffic at various junctions of highly populated area.
UVPCE	B.Tech.-Civil	2CI8101:ADVANCED STRUCTURAL DESIGN	Design of multistory building by giving the students manual as well as software design practice.
UVPCE	B.Tech.-Civil	2CI8102:CONSTRUCTI ON MANAGEMENT	Development of multidisciplinary roles by construction management forum by theory lectures and also by arranging the visit of Project Management Consultancy.
UVPCE	B.Tech.-Civil	2CI8103:URBAN	It involves planning of city, street via urban planning concepts through the

UVPCE	B.Tech.-Civil	2CI8104:ADVANCD CONSTRUCTION TECHNIQUES	Students are able to learn newly developed construction techniques, machineries and methods by presentation and theory lectures.
		PLANNING	design of well-planned cities and also by giving them task of design in groups.
UVPCE	B.Tech.-Civil	2CI8105:CIVIL ENGINEERING PROJECT II	Particular practical knowledge through the project.
UVPCE	B.Tech.-Civil	2CI8106:INDUSTRIAL TRAINING SEMINAR	Understanding the practical things on site as well as in office through the industrial training.
UVPCE	B.Tech.-Civil	2CI811:DESIGN OF BRIDGE STRUCTURES	Concept of design of bridge through design codes criteria and giving them problems of various bridge structures to solve.
UVPCE	B.Tech.-Civil	2CI81PE1: ADVANCED EARTHQUAKE ENGINEERING	Understanding the behavior of structure under earthquake load by conducting various experiments on different types of model in the laboratory.
UVPCE	B.Tech.(Civil)	2CI81PE2: URBAN AND HARBOUR TRANSPORTATION SYSTEM	Conducting survey of real traffic at various junctions of highly populated area so that they can design/modify the intersection of highly traffic density area.
UVPCE	M.Tech -Civil – Structural Engineering	3SE101Advance Structural Analysis	It helps to understand the behavior of structural member under various loading condition.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	As per Indian standard codal provision, students are able to design a structural member and its elements.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	Concepts of soil mechanics & foundation engineering will learn for various structures
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	Construction materials properties helps to create various mix design as per site requirements.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	In laboratory session, various software related to structural engineering field students can learn and verify it with manual calculation.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	Communication skill helps to develop confidents and language proficiency.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	As per Indian standard codal provision, students are able to design a structural member and its elements.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	Students can get the idea of stress by dividing member in different pattern and understand its behavior.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	General fundamental of EQ engineering and to prevent it the techniques are required can learn.
UVPCE	M.Tech -Civil – Structural	M.Tech -Civil – Structural	In laboratory session, various software related to structural engineering

	Engineering	Engineering	field students can learn and verify it with manual calculation.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	Students can develop their skill in respective area of their choice and start their research work.
UVPCE	M.Tech -Civil – Structural Engineering	M.Tech -Civil – Structural Engineering	Students can learn the advance techniques of construction for special structures.
UVPCE	M.Tech -Civil – Structural Engineering	3SE301 Repair and Rehabilitation of Structures	Concepts of repairs techniques can learn with various methods.
UVPCE	M.Tech -Civil – Structural Engineering	3SE302 Dissertation Phase - I	Students can develop their research domain and work to strengthen their skill by research in it.
UVPCE	M.Tech -Civil – Structural Engineering	3SE303 Industrial Training - I	Practical concepts of field they will learn by join various industry for it.
UVPCE	M.Tech -Civil – Structural Engineering	3SE311 Design of Bridges	Concepts of girders, various types of bridges and moving loads should learn.
UVPCE	M.Tech -Civil – Structural Engineering	3SE401 Dissertation Phase-II	Students can develop their research domain and work to strengthen their skill by research in it.
UVPCE	M.Tech -Civil – Structural Engineering	3SE402 Industrial Training - II	Practical concepts of field they will learn by join various industry for it.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM101 Construction Management	Students can develop the skills of Entrepreneurship to start their own consultancies.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM102 Advance Construction Techniques	By doing the assignments and learning these subject they will apply this skills to the construction site to complete the project with best quality and on time.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM103 Construction Finance and Accounting	They will learn about the finance and accounting of various construction projects.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM104 Human Resource Management	Students are able to develop the best HR strategies and can apply the same to various industries.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM105 Software Tools I	Students can develop various models and template of various projects and can apply the same to various projects.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM106 Communication Skills	Better communication is important to stand in these competitive world, so by this skills they can work easily in various companies.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM201 Construction Contracts Management	By learning this subjects students will achieve both employability and entrepreneurship skills.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM202Resource Management	Students will develop the skills of equipment and material management on sites.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM203 Value Engineering	Entrepreneurial skills will be develop by creating and development of ideas with the concept of out of box thinking.

UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM204 Management Information Systems	Management Information models will be developed of their own.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM205 Software Tools II	Students can develop various models and template of various projects and can apply the same to various projects.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM206 Seminar I	This subject will help them in their dissertation.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM301 Mechanical Electrical Plumbing	Various MEPF skills will develop and will be used in their construction sites.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM302 Advance Quantity Survey	This subject will help them to develop construction related documents and how to manage the resources on site.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM303 Statistical Techniques & Analysis in Construction	Various statistical methods will be used in research as well as in their social life.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM304 Strategic Management	Various strategies and vision-mission statements will be learn from this subjects.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM 305 Seminar II	This subject will help them in their dissertation.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM306 Operational Research in Construction	Entrepreneurial skills will be develop by applying the concept in their business.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM307 Construction Site Training# (After IInd sem)	Employability skill will develop.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM401 Dissertation	Students can develop their research domain and work to strengthen their skill by research in it.
UVPCE	M.Tech -Civil - Construction Engineering & Management	3CEM402 Construction Management Training# (After IIIrd Sem)	Employability skill will develop.
UVPCE	M.Tech -Civil - Transportation Engineering	3TE301 Dissertation Phase-I	Students can develop their research domain and work to strengthen their skills by researching in it.
UVPCE	B.Tech - CE	2ES109:BASICS OF WEB TECHNOLOGY	Designing of static and Dynamic Webpages using html, css, JavaScript.
UVPCE	B.Tech - CE	2ES110:IT PERIPHERALS & TOOLS	Troubleshooting & fault diagnosis in computer hardware and software
UVPCE	B.Tech - CE	2HS102:SEMINAR	Communication Skill, Presentation skills, public speaking
UVPCE	B.Tech - CE	2ES104:PROGRAMMING FOR PROBLEM SOLVING	problem solving using C, debugging, flowchart, lateral thinking

UVPCE	B.Tech - CE	2ES111:IT WORKSHOP	programming, web pages field validation, lateral thinking
UVPCE	B.Tech - CE	2CEIT301:Digital Electronics	Designing of various Digital circuit diagram, Design Digital devices.
UVPCE	B.Tech - CE	2CEIT302:Object Oriented Programming	Programming using object oriented concepts, problem solving
UVPCE	B.Tech - CE	2CEIT303:Database Management System	Designing and building a simple database system, Writing queries, extracting data from databases, optimization in design
UVPCE	B.Tech - CE	2CEIT304:Data Structures	Implementation of basic data structures like stack, queue, tree, graph for the solution to the real time problems in software
UVPCE	B.Tech - CE	2CEIT401:Operating Systems	programming concept of- process, thread, memory, file system and understanding design of os
UVPCE	B.Tech - CE	2CEIT402:Design and Analysis of Algorithms	Analysing the efficiency of various algorithms, finding the optimal algorithm for the given problem
UVPCE	B.Tech - CE	2CEIT403:Application Development Tools	Implementation of desktop and web application using .Net framework
UVPCE	B.Tech - CE	2CEIT404:Programming with Python	Implementation of Console application,web application and game developing
UVPCE	B.Tech - CE	2CEIT405:NoSQL Database Systems	Analyzing, Creating and managing different types of NoSQL-DB database, with implemtation of various concepts like indexing, sharding, replication.
UVPCE	B.Tech – CE (AI)	2CEIT501:Computer Architecture & Organization	Case studies of various technologies and its usage in real life problem solving, Design thinking fundamental
UVPCE	B.Tech – CE (AI)	2CEIT502:Software Engineering	Fundamental of data science(Analytics) statistical concept implementation using R and Python Programming for advance model deploment
UVPCE	B.Tech - CE	2CEIT503:Computer Networks	practical knowledge on electrical circuit connection, Demonstrate on GATE logic, Multiplexer, Counter, Memory Management.
UVPCE	B.Tech - CE	2CEIT504:Capstone Project-I	Understanding & Implementing Software Life Cycle; Case Studies, system analysis
UVPCE	B.Tech - CE	2CEIT5PE1:Advanced Java	Designing simple networks, simulation, Analysing performance of communication systems
UVPCE	B.Tech - CE	2CEIT5PE2:Computer Graphics & Visualization	Apply theoretical and practical tools/techniques to solve real life problems related to industry, academic institutions and research laboratories
UVPCE	B.Tech - CE	2CEIT5PE3:Quantum Computing	Practical demonstration about the advanced concept of programming languages, framework
UVPCE	B.Tech - CE	2CEIT5PE4:Software Packages	Creating Various 2D shapes and perform various operation like scaling, translating, rotating on 2D shapes, 3D Model creation and Rendering
UVPCE	B.Tech - CE	2CEIT5PE5:Mobile Application Development	Quantum Algorithms,Quantum Programming,OSS Toolkits for implementing Quantum program: IBM quantum experience, Microsoft Q, Rigetti PyQuil

			(QPU/QVM).
UVPCE	B.Tech - CE	2CEIT5PE6:Human Computer Interaction	To develop web applications-single page application, real time applications and back-end API services with great speed and performance.
UVPCE	B.Tech - CE	2CEIT5PE7:Innovation & Entrepreneurship	Creating mobile application using android concepts to solve real-world problems, interacting with Database, Google map, Menus etc.
UVPCE	B.Tech - CE	2CEIT5PE8:Advanced programming with .NET	Designing of various software interfaces for ease of use by end user, Evaluate existing user interface
UVPCE	B.Tech - CE	2HS501:Aptitude Skill Building-I	Understanding the parameters to assess opportunities and constraints for new business ideas in IT field and systematic process to turn an idea into business
UVPCE	B.Tech - CE	2CEIT601:Theory of Computation	To develop the websites and applications using the MVC model of ASP.NET, Razor views & signalR, AJAX, JQuery
UVPCE	B.Tech - CE	2CEIT602:Artificial Intelligence	calculation, problem solving, time management, lateral thinking
UVPCE	B.Tech - CE	2CEIT603:Cloud Computing	Analysing & Co-relating different phases of compilers, Quiz, Analysing Regular Expression
UVPCE	B.Tech - CE	2CEIT604:User Experience Design	Problem Solving Algorithms, Data Analytic skills, neural network problems and their solutions
UVPCE	B.Tech - CE	2CEIT605:Capstone Project-II	Designing and implementing virtualized data center, resource optimization
UVPCE	B.Tech - CE	2CEIT6PE1:Web Technology	Prepare Wireframes, mockups and Prototype for any mobile or web application in any UI/UX designing tools
UVPCE	B.Tech - CE	2CEIT6PE2:Software Validation & Testing	Apply theoretical and practical tools/techniques to solve real life problems related to industry, academic institutions and research laboratories
UVPCE	B.Tech - CE	2CEIT6PE3:Cryptography and Network Security	web designing, development, deployment
UVPCE	B.Tech - CE	2CEIT6PE4:Data Sciences and Machine Learning	Understand, apply and test the software using different testing methods and strategies to achieve the best quality software
UVPCE	B.Tech - CE	2CEIT6PE5:Game Design & Development	Implementation of Cryptographic algorithms, Ciphertext Analysis, Analyse System Security-(Confidentiality, Integrity, Availability)
UVPCE	B.Tech - CE	2CEIT6PE6:Robotics	MDT
UVPCE	B.Tech - CE	2CEIT6PE7:Ethical Hacking	Understanding & Implementation of 2D & 3D game by learning story design, character design, etc.
UVPCE	B.Tech - CE	2CEIT6PE8:IT Infrastructure & Management	Understanding the concept of automation, Robotics technical skills eg robotic arm design, line follower techical useful in employbility in Robotics
UVPCE	B.Tech - CE	2CEIT6PE9:Internet of	Applying various tools/techniques to do vulnerability Assessment and Penetration Testing and analysis of collected information to protect the system from various

UVPCE	B.Tech - CE	Things	attacks.
UVPCE	B.Tech - CE	2HS6101:Aptitude Skill Building–II	To introduce basic postulates of IT Infrastructure Management and shows the correlation between system and service management process.
UVPCE	B.Tech - CE	2IT701:COMPILER DESIGN	IoT systems and application design, circuit design and implementation, programming
UVPCE	B.Tech - CE	2IT702:ARTIFICIAL INTELLIGENCE	Solving logical reasoning and quantitative aptitude, lateral thinking
UVPCE	B.Tech - CE	2IT703:MINOR PROJECT	Analysing & Co-relating different phases of compilers
UVPCE	B.Tech - CE	2IT704:FUNDAMENTALS OF IMAGE PROCESSING (ELECTIVE-IV)	Problem Solving Algorithms, Data Analytic skills, neural network problems and their solutions
UVPCE	B.Tech - CE	2IT705:INTERNET OF THINGS (ELECTIVE-IV)	Implementation of software projects/applications in different technologies like java, .net, android, python
UVPCE	B.Tech - CE	2IT706:MOBILE COMPUTING (ELECTIVE-IV)	Analysing various filters & Enhancing the images
UVPCE	B.Tech - CE	2IT707:MACHINE LEARNING (ELECTIVE-IV)	IoT systems and application design, circuit design and implementation, programming
UVPCE	B.Tech - CE	2IT708:PARALLEL PROCESSING & ARCHITECTURE (ELECTIVE-V)	Simulation of mobile adhoc network, wireless network and cellular network
UVPCE	B.Tech - CE	2IT709:BIG DATA ANALYTICS (ELECTIVE-V)	Programming, analysis, comparison of algorithms, performance evaluation, lateral thinking
UVPCE	B.Tech - CE	2IT710:PUBLIC KEY INFRASTRUCTURE (ELECTIVE-V)	Implementation of multithreading processes
UVPCE	B.Tech - CE	2IT711:DATA MINING AND DATA WAREHOUSING (ELECTIVE-V)	Setup and implementation the Big Data Storage handling and analyzing tool.
UVPCE	B.Tech - CE	2IT712:SOFT SKILLS	Implementation of various security protocols and configuration of public key infrastructure lab

UVPCE	B.Tech - CE	2IT801:MAJOR PROJECT	Understand and implement classical models and algorithms in data warehouses and data mining
UVPCE	B.Tech - CE	3CEIT101:Computational Intelligence	Interpersonal skills, presentation skills, group discussion, mock interviews
UVPCE	B.Tech - CE	3CEIT102:Computer Algorithms	Solving real time problems, programming, analysis, report writing, presentation, professional communication
UVPCE	M.Tech - CE	3CEIT103:Cryptography and Network Security	Problem Solving Algorithms, Data Analytic skills, neural network problems and their solutions
UVPCE	M.Tech - CE	3CEIT104:Research Orientation	Analysing the efficiency of various algorithms and optimal algorithms for the given problem
UVPCE	M.Tech - CE	3CEIT105:Wireless Networks	Cryptographic problem solving algorithms, Ciphertext Analysis, Analyse System Security-(Confidentiality, Integrity, Availability)
UVPCE	M.Tech - CE	3CEIT106:Advanced Topics in Networks	Effective use of reference management tools, thesis and conference/journal papers writing skills
UVPCE	M.Tech - CE	3CEIT107:Internet Technologies	Simulation programming and Analysis
UVPCE	M.Tech - CE	3CEIT108:Network Programming and Management	Opportunistic networks programming and analysis
UVPCE	M.Tech - CE	3CEIT109:High Performance Computing	Analyzes various internet protocols
UVPCE	M.Tech - CE	3CEIT110:Distributed Computing	Problem Solving Network Algorithms and networking protocols
UVPCE	M.Tech - CE	3CEIT111:Service Oriented Computing	Simulation and analysis of various hardware and the software high performance techniques
UVPCE	M.Tech - CE	3CEIT112:Advance Software Engineering	Problem solving of various distributed algorithms
UVPCE	M.Tech - CE	3CEIT113:Real Time Systems	Web services analysis and configuration, approaches for the description, discovery, and composition of Web services
UVPCE	M.Tech - CE	3CEIT201:Digital Image Processing	Case Studies Analysis, software process management tools
UVPCE	M.Tech - CE	3CEIT202:Data Mining and Data Warehousing	Analyze the situation of fault occurrence and solve scheduling problems
UVPCE	M.Tech - CE	3CEIT203:Cloud Computing	Analysing various filters & Enhancing the images
UVPCE	M.Tech - CE	3CEIT204:Advanced Operating System	Classical models and algorithms in data warehouses and data mining analysis, problem solving algorithms
UVPCE	M.Tech - CE	3CEIT205:Advanced	Designing and implementing virtualized data center, resource optimization

		Computer Architecture	
UVPCE	M.Tech - CE	3CEIT206:Software Architecture and Design Pattern	Associating memory management , system (software/hardware) management, kernel management techniques while developing, deploying, managing any hardware or software program.
UVPCE	M.Tech - CE	3CEIT207:Public Key Infrastructure	Practical knowledge on electrical circuit connection, Demonstrate on GATE logic, Multiplexer, Counter, Memory Management.
UVPCE	M.Tech - CE	3CEIT208:Satellite Networks	Analysis and creation of software architecture, design creational and structural patterns
UVPCE	M.Tech - CE	3CEIT209:Essential Mathematics	Analyze various security protocols and configure the public key infrastructure with various tools
UVPCE	M.Tech - CE	3CEIT210:Modeling and Simulation	Simulation programming and Analysis
UVPCE	M.Tech - CE	3CEIT211:Advanced Database Management System	Application of statistics and probability for data analysis and inference making
UVPCE	M.Tech - CE	3CEIT301:MAJOR PROJECT PART - I	Designing and implementing a performance evaluation study of a fairly complicated networked computer system architecture using modern software tools
UVPCE	M.Tech - CE	3CEIT302:SEMINAR	Assess and apply database functions and packages suitable for enterprise database development and database management
UVPCE	M.Tech - CE	3CEIT303:SEMANTIC WEB AND SOCIAL NETWORKS	Understand and find the research gaps in the area of interest and Students can have the exposures of solving the real time problems
UVPCE	M.Tech - CE	3CEIT304:DATA COMPRESSION	Communication Skill, Presentation skills, public speaking
UVPCE	M.Tech - CE	3CEIT305:INTERNET OF THINGS	Semantic Web Applications and web services analyze and simulation
UVPCE	M.Tech - CE	3CEIT306:BIG DATA ANALYTICS	Problem solving of various compression algorithms
UVPCE	M.Tech - CE	3CEIT307:NATURAL LANGUAGE PROCESSING	IoT systems and application design, circuit design and implementation, programming
UVPCE	M.Tech - CE	3CEIT308:COMPILER DESIGN	Setup and implementation the Big Data Storage handling and analyzing tool.
UVPCE	M.Tech - CE	3CEIT309:DEEP LEARNING	Speech processing analysis and simulation
UVPCE	M.Tech - CE	3CEIT310:CYBER SECURITY	Analysing & Co-relating different phases of compilers
UVPCE	M.Tech - CE	3CEIT401:MAJOR	Different techniques used to various engineering and social applications

UVPCE			PROJECT PART - II	
UVPCE	M.Tech - CE	3CEIT310	To design systems for securing applications, networks, & device.
UVPCE	M.Tech - CE	3CEIT401	The dissertation demonstrates the ability of the student to carry out an independent original research project of high quality. It reflects a level of attainment in research, not the fulfilment of a list of requirements.
UVPCE	B.Tech - IT	2ES109:BASICS OF WEB TECHNOLOGY	Designing of static and Dynamic Webpages using html, css, JavaScript.
UVPCE	B.Tech - IT	2ES110:IT PERIPHERALS & TOOLS	Troubleshooting & fault diagnosis in computer hardware and software
UVPCE	B.Tech - IT	2HS102:SEMINAR	Communication Skill, Presentation skills, public speaking
UVPCE	B.Tech - IT	2ES104:PROGRAMMING FOR PROBLEM SOLVING	problem solving using C, debugging, flowchart, lateral thinking
UVPCE	B.Tech - IT	2ES111:IT WORKSHOP	programming, web pages field validation, lateral thinking
UVPCE	B.Tech - IT	2CEIT301:Digital Electronics	Designing of various Digital circuit diagram, Design Digital devices.
UVPCE	B.Tech - IT	2CEIT302:Object Oriented Programming	Programming using object oriented concepts, problem solving
UVPCE	B.Tech - IT	2CEIT303:Database Management System	Designing and building a simple database system, Writing queries, extracting data from databases, optimization in design
UVPCE	B.Tech - IT	2CEIT304:Data Structures	Implementation of basic data structures like stack, queue, tree, graph for the solution to the real time problems in software
UVPCE	B.Tech - IT	2CEIT401:Operating Systems	programming concept of- process, thread, memory, file system and understanding design of os
UVPCE	B.Tech - IT	2CEIT402:Design and Analysis of Algorithms	Analysing the efficiency of various algorithms, finding the optimal algorithm for the given problem
UVPCE	B.Tech - IT	2CEIT403:Application Development Tools	Implementation of desktop and web application using .Net framework
UVPCE	B.Tech - IT	2CEIT404:Programming with Python	Implementation of Console application,web application and game developing
UVPCE	B.Tech - IT	2CEIT405:NoSQL Database Systems	Analyzing, Creating and managing different types of NoSQL-DB database, with implemtation of various concepts like indexing, sharding, replication.
UVPCE	B.Tech - IT	2CEIT501:Computer Architecture & Organization	practical knowledge on electrical circuit connection, Demonstrate on GATE logic, Multiplexer, Counter, Memory Management.

UVPCE	B.Tech - IT	2CEIT502:Software Engineering	Understanding & Implementing Software Life Cycle; Case Studies, system analysis
UVPCE	B.Tech - IT	2CEIT503:Computer Networks	Designing simple networks, simulation, Analysing performance of communication systems
UVPCE	B.Tech - IT	2CEIT504:Capstone Project-I	Apply theoretical and practical tools/techniques to solve real life problems related to industry, academic institutions and research laboratories
UVPCE	B.Tech - IT	2CEIT5PE1:Advanced Java	Practical demonstration about the advanced concept of programming languages, framework
UVPCE	B.Tech - IT	2CEIT5PE2:Computer Graphics & Visualization	Creating Various 2D shapes and perform various operation like scaling, translating, rotating on 2D shapes, 3D Model creation and Rendering
UVPCE	B.Tech - IT	2CEIT5PE3:Quantum Computing	Quantum Algorithms,Quantum Programming,OSS Toolkits for implementing Quantum program: IBM quantum experience, Microsoft Q, Rigetti PyQuil (QPU/QVM).
UVPCE	B.Tech - IT	2CEIT5PE4:Software Packages	To develop web applications-single page application, real time applications and back-end API services with great speed and performance.
UVPCE	B.Tech - IT	2CEIT5PE5:Mobile Application Development	Creating mobile application using android concepts to solve real-world problems, interacting with Database, Google map, Menus etc.
UVPCE	B.Tech - IT	2CEIT5PE6:Human Computer Interaction	Designing of various software interfaces for ease of use by end user, Evaluate existing user interface
UVPCE	B.Tech - IT	2CEIT5PE7:Innovation & Entrepreneurship	Understanding the parameters to assess opportunities and constraints for new business ideas in IT field and systematic process to turn an idea into business
UVPCE	B.Tech - IT	2CEIT5PE8:Advanced programming with .NET	To develop the websites and applications using the MVC model of ASP.NET, Razor views & signalR, AJAX, JQuery
UVPCE	B.Tech - IT	2HS501:Aptitude Skill Building-I	calculation, problem solving, time management, lateral thinking
UVPCE	B.Tech - IT	2CEIT601:Theory of Computation	Analysing & Co-relating different phases of compilers, Quiz, Analysing Regular Expression
UVPCE	B.Tech - IT	2CEIT602:Artificial Intelligence	Problem Solving Algorithms, Data Analytic skills, neural network problems and their solutions
UVPCE	B.Tech - IT	2CEIT603:Cloud Computing	Designing and implementing virtualized data center, resource optimization
UVPCE	B.Tech - IT	2CEIT604:User Experience Design	Prepare Wireframes, mockups and Prototype for any mobile or web application in any UI/UX designing tools
UVPCE	B.Tech - IT	2CEIT605:Capstone Project-II	Apply theoretical and practical tools/techniques to solve real life problems related to industry, academic institutions and research laboratories
UVPCE	B.Tech - IT	2CEIT6PE1:Web Technology	web designing, development, deployment

UVPCE	B.Tech - IT	2CEIT6PE2:Software Validation & Testing	Understand, apply and test the software using different testing methods and strategies to achieve the best quality software
UVPCE	B.Tech - IT	2CEIT6PE3:Cryptography and Network Security	Implementation of Cryptographic algorithms, Ciphertext Analysis, Analyse System Security-(Confidentiality, Integrity, Availability)
UVPCE	B.Tech - IT	2CEIT6PE4:Data Sciences and Machine Learning	Data Scraping, model building for prediction purpose, model deployment for solving real world problem
UVPCE	B.Tech - IT	2CEIT6PE5:Game Design & Development	Understanding & Implementation of 2D & 3D game by learning story design, character design, etc.
UVPCE	B.Tech - IT	2CEIT6PE6:Robotics	Understanding the concept of automation, Robotics technical skills eg robotic arm design, line follower techical useful in employbility in Robotics
UVPCE	B.Tech - IT	2CEIT6PE7:Ethical Hacking	Applying various tools/techniques to do vulnerability Assessment and Penetration Testing and analysis of collected information to protect the system from various attacks.
UVPCE	B.Tech - IT	2CEIT6PE8:IT Infrastructure & Management	To introduce basic postulates of IT Infrastructure Management and shows the correlation between system and service management process.
UVPCE	B.Tech - IT	2CEIT6PE9:Internet of Things	IoT systems and application design, circuit design and implementation, programming
UVPCE	B.Tech - IT	2HS6101:Aptitude Skill Building–II	Solving logical reasoning and quantitative aptitude, lateral thinking
UVPCE	B.Tech - IT	2IT701:COMPILER DESIGN	Analysing & Co-relating different phases of compilers
UVPCE	B.Tech - IT	2IT702:ARTIFICIAL INTELLIGENCE	Problem Solving Algorithms, Data Analytic skills, neural network problems and their solutions
UVPCE	B.Tech - IT	2IT703:MINOR PROJECT	Implementation of software projects/applications in different technologies like java, .net, android, python
UVPCE	B.Tech - IT	2IT704:FUNDAMENTALS OF IMAGE PROCESSING (ELECTIVE-IV)	Analysing various filters & Enhancing the images
UVPCE	B.Tech - IT	2IT705:INTERNET OF THINGS (ELECTIVE-IV)	IoT systems and application design, circuit design and implementation, programming
UVPCE	B.Tech - IT	2IT706:MOBILE COMPUTING (ELECTIVE-IV)	Simulation of mobile adhoc network, wireless network and cellular network
UVPCE	B.Tech - IT	2IT707:MACHINE	Programming, analysis, comparison of algorithms, performance evaluation, lateral

			thinking
UVPCE	B.Tech - IT	2IT708:PARALLEL PROCESSING & ARCHITECTURE (ELECTIVE-V)	Implementation of multithreading processes
UVPCE	B.Tech - IT	2IT709:BIG DATA ANALYTICS (ELECTIVE-V)	Setup and implementation the Big Data Storage handling and analyzing tool.
UVPCE	B.Tech - IT	2IT710:PUBLIC KEY INFRASTRUCTURE (ELECTIVE-V)	Implementation of various security protocols and configuration of public key infrastructure lab
UVPCE	B.Tech - IT	2IT711:DATA MINING AND DATA WAREHOUSING (ELECTIVE-V)	Understand and implement classical models and algorithms in data warehouses and data mining
UVPCE	B.Tech - IT	2IT712:SOFT SKILLS	Interpersonal skills, presentation skills, group discussion, mock interviews
UVPCE	B.Tech - IT	2IT801:MAJOR PROJECT	Solving real time problems, programming, analysis, report writing, presentation, professional communication
UVPCE	M.Tech - IT	3CEIT101:Computational Intelligence	Problem Solving Algorithms, Data Analytic skills, neural network problems and their solutions
UVPCE	M.Tech - IT	3CEIT102:Computer Algorithms	Analysing the efficiency of various algorithms and optimal algorithms for the given problem
UVPCE	M.Tech - IT	3CEIT103:Cryptography and Network Security	Cryptographic problem solving algorithms, Ciphertext Analysis, Analyse System Security-(Confidentiality, Integrity, Availability)
UVPCE	M.Tech - IT	3CEIT104:Research Orientation	Effective use of reference management tools, thesis and conference/journal papers writing skills
UVPCE	M.Tech - IT	3CEIT105:Wireless Networks	Simulation programming and Analysis
UVPCE	M.Tech - IT	3CEIT106:Advanced Topics in Networks	Opportunistic networks programming and analysis
UVPCE	M.Tech - IT	3CEIT107:Internet Technologies	Analyzes various internet protocols
UVPCE	M.Tech - IT	3CEIT108:Network Programming and Management	Problem Solving Network Algorithms and networking protocols
UVPCE	M.Tech - IT	3CEIT109:High	Simulation and analysis of various hardware and the software high performance techniques

		Performance Computing	
UVPCE	M.Tech - IT	3CEIT110:Distributed Computing	Problem solving of various distributed algorithms
UVPCE	M.Tech - IT	3CEIT111:Service Oriented Computing	Web services analysis and configuration, approaches for the description, discovery, and composition of Web services
UVPCE	M.Tech - IT	3CEIT112:Advance Software Engineering	Case Studies Analysis, software process management tools
UVPCE	M.Tech - IT	3CEIT113:Real Time Systems	Analyze the situation of fault occurrence and solve scheduling problems
UVPCE	M.Tech - IT	3CEIT201:Digital Image Processing	Analysing various filters & Enhancing the images
UVPCE	M.Tech - IT	3CEIT202:Data Mining and Data Warehousing	Classical models and algorithms in data warehouses and data mining analysis, problem solving algorithms
UVPCE	M.Tech - IT	3CEIT203:Cloud Computing	Designing and implementing virtualized data center, resource optimization
UVPCE	M.Tech - IT	3CEIT204:Advanced Operating System	Associating memory management , system (software/hardware) management, kernel management techniques while developing, deploying, managing any hardware or software program.
UVPCE	M.Tech - IT	3CEIT205:Advanced Computer Architecture	Practical knowledge on electrical circuit connection, Demonstrate on GATE logic, Multiplexer, Counter, Memory Management.

UVPCE	M.Tech - IT	3CEIT310:CYBER SECURITY	To design systems for securing applications, networks, & device.
UVPCE	M.Tech - IT	3CEIT401:MAJOR PROJECT PART - II	The dissertation demonstrates the ability of the student to carry out an independent original research project of high quality. It reflects a level of attainment in research, not the fulfilment of a list of requirements.
UVPCE	B.Tech.- EE	2ES103 Basic Electrical Engineering	Able to implement electrical circuit fundamentals and solve problem related to basic AC and DC circuits.
UVPCE	B.Tech.- EE	2ES102 Workshop Manufacturing Practice	Practices the basics of electrical instruments and experiences of electrical wirings, installations. Also practice basic workshop processes also facilitate a sound foundation for further advanced engineering studies.
UVPCE	B.Tech.- EE	2ES108 Computer Aided Drawing	Apply auto-cad software and develop two and three dimensional problem drawing.
UVPCE	B.Tech.- EE	2ES112 Basic Electronics	Able to learn about the basic concept related to electronics and application of basic electronic components
UVPCE	B.Tech.- EE	2EE3101 Circuit Analysis	Able to solve different complicated electrical circuits and analyses linear, bilateral circuits.
UVPCE	B.Tech.- EE	2EE3102 Electrical Power System- I	Able to realize main components of power system and develop transmission line model to calculate voltage regulation of power system.

UVPCE	B.Tech.- EE	2ES3101 Thermal and Hydraulic Prime Movers	Familiarize the different types of turbines used for thermal and hydro plants.
UVPCE	B.Tech.- EE	2BS3101 Mathematics for Electrical Engineering	Familiarize important concepts and fundamentals of mathematics .
UVPCE	B.Tech.- EE	2EE3103 Analog Electronics	Extensive hands-on practice using different electronic devices for various practical applications.
UVPCE	B.Tech.- EE	2BS4101 Applied Mathematics for Electrical Engineering	Apply fundamentals of mathematics to solve different electrical system by developing mathematic modelling
UVPCE	B.Tech.- EE	2EE4102 Signals and Systems	Able to learn about basics of different types of signals and analyses different system.
UVPCE	B.Tech.- EE	2EE4103 Digital Electronics	Apply digital electronics components for the electrical appliances and electrical system.
UVPCE	B.Tech.- EE	2EE4101 Electrical Measurement and Instrumentation	Able to identify appropriate measuring instrument and its proper range to measure different quantities.
UVPCE	B.Tech.- EE	2EE4105 Electrical Machines-I	Familiarize the constructional details, the principle of operation, prediction of performance, the methods of testing DC machines and transformer.
UVPCE	B.Tech.- EE	2EE4104 Power Electronics	Understand power converter topology and the different types of converter used in real-time applications.
UVPCE	B.Tech.- EE	2EE5101 Control Systems	Execution of automatic control theory to design systems with desired behaviors in control environments and effect of each parameter of control system on real time implementation.
UVPCE	B.Tech.- EE	2EE5103 Electrical Power System - II	knowledge about Different components of power system and analysis of different status of the system.
UVPCE	B.Tech.- EE	2EE5105 Mini Project	Able to develop a prototype model from the theoretical knowledge.
UVPCE	B.Tech.- EE	2EE51PE1 Elements of	Explore the basics of electrical equipment design.

		Electrical Design	
UVPCE	B.Tech.- EE	2EE51PE2 Industrial Automation	Instrumentation and automation schemes that are used for monitoring and controlling power system.
UVPCE	B.Tech.- EE	2EE51PE3 Advanced Power Electronics	Able to select advance electrical motor for special application in robotics, space craft and maximum power point tracking.
UVPCE	B.Tech.- EE	2HS5101 Aptitude Skill Building I	Improves Problem solving skill that is required for cracking interview.
UVPCE	B.Tech.- EE	2EE6101 Microprocessor & Microcontroller	Application of processor for the electrical applications like Stepper motor control, SCR firing circuit, DC motor interfacing and PWM
UVPCE	B.Tech.- EE	2EE6102 Power System Operation & Control	Solve power flow problem of any system and to control the reactive and active power of the system.
UVPCE	B.Tech.- EE	2EE6103 Electrical Drives	Proficiency on operation and selection of appropriate industrial drives.
UVPCE	B.Tech.- EE	2EE6104 Seminar	Masters Presentation skill and get rid of stage fear by preparation specific topic seminar.
UVPCE	B.Tech.- EE	2EE61PE1 Artificial Intelligence	Learn different Applications of AI in Electrical field to achieve optimal and commercial benefits .
UVPCE	B.Tech.- EE	2EE61PE2 Electrical Energy Conservation and Auditing	Familiar for proper utilization of electrical power for power consumption devices.

UVPCE	B.Tech.- EE	2EE61PE3 Electrical Power Utilization and Traction	Acquaintance with process of illumination, heating ,welding and traction appliances by consumation electrical power.
UVPCE	B.Tech.- EE	2EE61PE4 Dynamics & Modelling of Electrical Machines	Able to use different types of reference frame for the ac and dc machines.
UVPCE	B.Tech.- EE	2EE61PE5 Power System Practice & Design	Able to design the various electrical power generating equipment for fulfillment of requirement.
UVPCE	B.Tech.- EE	2EE61PE6 Special Electrical Machines	Able to select advance electrical motor for special application in robotics, space craft and maximum power point tracking.
UVPCE	B.Tech.- EE	2EE61OE1 Digital Control System	Execution of automatic control theory to design systems with desired behaviors in control environments and effect of each parameter of control system on real time implementation.
UVPCE	B.Tech.- EE	2EE61OE2 Cyber Security	Understand various types of cybercrimes and hackers
UVPCE	B.Tech.- EE	2EE61OE3 Digital Signal Processing	Basics of DSP and its application in electrical field.
UVPCE	B.Tech.- EE	2HS6101 Aptitude Skill Building – II	Improves Problem solving skill that is required for cracking interview.
UVPCE	B.Tech.- EE	2EE 701 Commissioning, Testing &Maintenance of Electrical Equipment	To learn about electrical equipment installation and commissioning practices and testing techniques to check performance of equipment or system.
UVPCE	B.Tech.- EE	2EE702 Power system protection & switchgear	Able to select proper switchgear & protection scheme for particular system

UVPCE	B.Tech.- EE	2EE703 Power System Operation & Control	Solve power flow problem of any system and to control the reactive and active power of the system.
UVPCE	B.Tech.- EE	2EE704 Industrial Training	Familiarize with industry environment and industry processes for 3 week before final velarize
UVPCE	B.Tech.- EE	2EE705:-Advanced Power Electronics	Able to select advance electrical motor for special application in robotics, space craft and maximum power point tracking.
UVPCE	B.Tech.- EE	2EE706:-Advanced Microcontroller	Learn basic concepts of newly developed high speed processors for different applications.
UVPCE	B.Tech.- EE	2EE707:-Special Electrical Machines	Able to select advance electrical motor for special application in robotics, space craft and maximum power point tracking.
UVPCE	B.Tech.- EE	2EE708:-Dynamics &Modelling of Electrical Machines	Able to study dynamic behavior of different types of ac and dc machines using various reference frame.
UVPCE	B.Tech.- EE	2EE709:-Electrical Machine Design	explore the knowledge for design of electrical machines.
UVPCE	B.Tech.- EE	2EE710:-Power System Practice & Design	Able to design the various electrical power generating equipment's for fulfillment of requirement.
UVPCE	B.Tech.- EE	2EE711:-HVDC & FACTS	HVDC system and problems, remedies for improve quality of power flow.
UVPCE	B.Tech.- EE	2EE712:- Energy Conservation, Audit & Management	familiar for proper utilization of electrical power for power consumption devices.
UVPCE	B.Tech.- EE	2EE714:-Digital Signal Processing	Basics of DSP and its application in electrical field.
UVPCE	B.Tech.- EE	2EE801 Major Project	Familiar with industry issues and working environment.
UVPCE	M.Tech.-EE	3EE101 Numerical Techniques	Select prpoer numerical techniques to solve different power system problems.
UVPCE	M.Tech.-EE	3EE102 Computer Methods in Power System Analysis	Grasp the recent techniques and computer application for modeling of large interconnected power system networks using programming languages.
UVPCE	M.Tech.-EE	3EE103 Advanced Control Systems	Implementation of control of advanced topology for different appliocations.
UVPCE	M.Tech.-EE	3EE104 Advanced Electrical Machines	Features of recently used machines for better performance in industries

UVPCE	M.Tech.-EE	3EE106 Flexible AC Transmission Systems	Familirize with FACTS devices and able to selctes proper device & optimum location for system improvement.
UVPCE	M.Tech.-EE	3EE201 Applications of AI in Electrical Engineering	Applications of AI ifor power system and electrical machine fields.
UVPCE	M.Tech.-EE	3EE202 Power System Dynamics & Control	Model various electrical components and analysis system outputs
UVPCE	M.Tech.-EE	3EE203 Modern Power System Protection	Select aprropriate rating of switch gear and decide advanced relay settings for different protection schemes .
UVPCE	M.Tech.-EE	3EE204 Electrical Drives	Proficiency on operation and selection of appropriate industrial drives.
UVPCE	M.Tech.-EE	3EE205 Seminar	Acquire skills of using computer packages like PSCAD, PSIM and MATLAB coding and SIMULINK in Electrical engineering.
UVPCE	M.Tech.-EE	3EE207 Power Quality & Energy Management	Power quality improvement using advanced devices.
UVPCE	M.Tech.-EE	3EE208 Power System Restructuring	Familirize about restructuring and able to calculate marginal cost of different markets considering different anciliary services..
UVPCE	M.Tech.-EE	3EE206 English Language & Communication Skills	Improve verbal and writing communication skills for technical and managerial fields.
UVPCE	M.Tech.-EE	3EE302-Dissertation I	Revie literature review and identify research gap and Implement knowledge on field research problem.
UVPCE	M.Tech.-EE	3EE401 Dissertation II	Enhance the knowledge on field research area and select and implement advanced techniques to solve research problem.
UVPCE	B.Tech.-ICT	2HS101-CALCULUS	To make the students aware of calculus fundamentals.
UVPCE	B.Tech.-ICT	2ICT101-Web Development	To build programming skill in the students in the domain of Web Design and development Technology
UVPCE	B.Tech.-ICT	2ICT102-Computer Programming	Building logic and skill through concepts & Terminology
UVPCE	B.Tech.-ICT	2ICT103-Elements of Electrical Engineering	Solving circuit problems and perform power calculation
UVPCE	B.Tech.-ICT	2ICT104-Basic Electronics	Apply the knowledge of basic semi-conductor devices to realize the working of basic electronic circuits.
UVPCE	B.Tech.-ICT	2HA102-LINEAR ALGEBRA	To make the students aware of linear algebra fundamentals.

UVPCE	B.Tech.-ICT	2ICT201-Object Oriented Programming	Core concepts of OOP with advance topics threading, servelet & JSP
UVPCE	B.Tech.-ICT	2ICT202-Basics of Operating System and Scripting	To prepare students in System , server and Network Administration using Open Source Technology like Redhat, Ubuntu and Fedora
UVPCE	B.Tech.-ICT	2ICT203-Aptitude Skill Building	To prepare students for competitive examinations
UVPCE	B.Tech.-ICT	2ICT204-Basics of communication Systems	To prepare students for basics of communications systems like modulation, data transfer etc.
UVPCE	B.Tech.-ICT	2ICT205-Digital Electronics	To make students aware of digital electronics fundamentals like number systems, logic gates, sequential and combinational circuits etc.
UVPCE	B.Tech.-ICT	2ICT206-Data Structures	Practical aspects of various data structure with real time application & implementation
UVPCE	B.Tech.-ICT	2ICT301-Signals & systems	To make students able to get basics of various signals and various operations on signals.
UVPCE	B.Tech.-ICT	2ICT302-Essential of software Foundation & Programming	Practical aspects of software tools like python, PHP etc.
UVPCE	B.Tech.-ICT	2ICT303-Computer Organization	To prepare the students about organization of computer system.
UVPCE	B.Tech.-ICT	2ICT305-Discrete Mathematics	To use formal methods for constructing mathematical proofs
UVPCE	B.Tech.-ICT	2ICT401-Operating Systems	To prepare students with knowledge of process management, memory management etc.
UVPCE	B.Tech.-ICT	2ICT402-Electromagnetic Theory	To apply concepts of Electric and Magnetic laws to solve examples.
UVPCE	B.Tech.-ICT	2ICT403-Probability, Statistics and Information Theory	Understand the concepts of probability and statistics and apply the knowledge of random variable and random process to the information theory concepts.
UVPCE	B.Tech.-ICT	2ICT404-Microprocessors and Microcontrollers	Building the programming skill with Microprocessors and Microcontrollers.
UVPCE	B.Tech.-ICT	2ICT405-Application Development	Preparation of students to develop application.
UVPCE	B.Tech.-ICT	2ICT501-Analog & Digital Communication	To prepare students for Analog & Digital Communication Techniques.
UVPCE	B.Tech.-ICT	2ICT502-Database Management Systems	Design and build a simple database system.

UVPCE	B.Tech.-ICT	2ICT503-Computer Networks	Students' awareness about different protocols and computer network design fundamentals.
UVPCE	B.Tech.-ICT	2ICT504-Digital Design using HDL	Design, simulates, and synthesizes computer hardware using the Verilog Hardware Description Language.
UVPCE	B.Tech.-ICT	2ICT506-Embedded System Design	To prepare students with concepts of architecture and code for embedded systems.
UVPCE	B.Tech.-ICT	2ICT506-Software Engineering	To prepare students for software project management.
UVPCE	B.Tech.-ICT	2ICT601-Digital Signal Processing	students will be able to design FIR and IIR filters, understand the use of efficient algorithms for computation of frequency response, understand the concept of DFT and FFT implementation, understand the realization of filter structure.
UVPCE	B.Tech.-ICT	2ICT602-Theory of Computation	Students should be able to understand the basic concepts and application of Theory of Computation
UVPCE	B.Tech.-ICT	2ICT603-Information Security	To prepare students with Information Security concept to maintain confidentiality in message.
UVPCE	B.Tech.-ICT	2ICT604-Artificial Intelligence	To prepare students with programming skills of Artificial Intelligence algorithms.
UVPCE	B.Tech.-ICT	2ICT605-Application Development II	Preparation of students to develop application.
UVPCE	B.Tech.-ICT	2ICT60E1-Advanced JAVA	Student will be able to understand the Client-Server architecture for Web Application Development, which core Java doesn't support.
UVPCE	B.Tech.-ICT	2ICT60E2-Digital Image Processing	Student will be able to demonstrate knowledge of a broad range of fundamental image processing and image analysis techniques and concepts (linear and non-linear filtering, denoising, deblurring, edge detection, line finding, detection etc.)
UVPCE	B.Tech.-ICT	2ICT60E3-VLSI System Design	Students will be able to know the history of VLSI and fabrication of chips, understand the concepts and characteristics of MOS and MOS based Inverters
UVPCE	B.Tech.-ICT	2ICT701- Wireless Communication	Students will be able to know functioning of wireless communication system, compare recent technologies used for wireless communication and explain multiple access techniques for Wireless Communication.
UVPCE	B.Tech.-ICT	2ICT702- Sensors and Internet of Things	student will be able to use devices, Gateways and Data Management in IoT and know Applications of IoT in Industrial Automation and Real World.
UVPCE	B.Tech.-ICT	2ICT703- Machine Learning	student will be able to understand the fundamental issues, strengths and weaknesses, challenges, basic concepts and techniques of machine learning.

UVPCE	B.Tech.-ICT	2ICT704- Cloud Computing	student will be able to understand the hardware, software concepts and architecture of cloud computing as well as they will realize the importance of Cloud Virtualization, Abstractions and Enabling Technologies and will be able to explore the Programming for Applications on Cloud.
UVPCE	B.Tech.-ICT	2ICT70E1- Advanced DSP	students will be able to understand the multi rate signal processing, adaptive signal processing, Learn the concepts of speech generation and Design a small scale DSP based system.
UVPCE	B.Tech.-ICT	2ICT70E2- Data Compression	students will be able to perform image and video compression and decompression
UVPCE	B.Tech.-ICT	2ICT70E3- RTOS, Kernels and Device Drivers	Students will be able to learn about different types of operating systems, understanding of kernel level programming of Linux operating system and Know about the development of device drivers.
UVPCE	B.Tech.-ICT	2ICT70E21- Analog Mixed Signal VLSI Design	students will be able to understand and Design different Analog circuits, Mixed circuits and operational amplifier circuits for various applications as per the user specifications.
UVPCE	B.Tech.-ICT	2ICT70E22- Optical Communication & Networks	Students will be able to recognize and classify structures of Optical fibers, understand channel impairments like losses and dispersion as well as analyze and design long distance optical communication link for high speed optical network.
UVPCE	B.Tech.-ICT	2ICT70E23- Compiler Design	Student should be able to perform lexical analysis and various parsing techniques as well as Construct compiler
UVPCE	B.Tech.-ICT	2ICT801- Major Project	students will be able to get the exposure of real time environment of the industry as well as Understand and full fill the requirements of industry.
UVPCE	B. Tech.- ME	Engineering Graphics 2ES101	Activity: Hands on practice on Auto-CAD and also the manual drafting Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering drawing standards as per industries requirements.
UVPCE	B. Tech.- ME	Workshop Manufacturing Practice2ES102	Activity:hands on practice to gives the basic working knowledge required for the production of various engineering products. It explains the construction, function, use and application of different working tools, equipment, machines as well as the technique of

			manufacturing a product from its raw material. Skill: Developed the skill of how to used the basic tools.
UVPCE	B. Tech.- ME	Elements of Mechanical Engineering2ES105	Activity:practical performed and demonstrations of various models to understand the concepts and basic of elements of mechanical engineering Skill/Employability/Enterpreneurship: Develop the skill to solve the various problem in the different field of mechanical engg.
UVPCE	B. Tech.- ME	Computer Aided Drawing2ES108	Activity: Create models using various drafting commands of software like AutoCAD – Mechanical, Civil and Electrical engineering etc. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering drawing standards as per industries requirements.
UVPCE	B. Tech.- ME	Solid Modeling2ME3101	Activity: Create 3D model using various modeling command of Solidworks modeling software-Mechanical. Skill/Employability/Enterpreneurship: Develop the skill for industrial part modeling and assambly.
UVPCE	B. Tech.- ME	Kinematics of Machines2ME3102	Activity: Construction of the velocity and acceleration diagrams for particular mechanism. construction of the cam profile of different types with their importance. Skill/Employability/Enterpreneurship: Problem solving, Drawing, Analytical skill
UVPCE	B. Tech.- ME	Engineering Thermodynamics2ME3103	Activity: calculations and problem solving techniques to deal with real life thermal associated problems. Skill/Employability/Enterpreneurship: develop the skill to solve various practical problems in context of thermal energy flow.
UVPCE	B. Tech.- ME	Fluid Mechanics2ME3104	Activity: Performe practical on various fluid mechanics apparatus like Bernoullie's, Reynold's, Buoyancy, venturimeter, viscometer, etc. to understand and verify the various principle of fluid mechanics. Skill/Employability/Enterpreneurship: Develope the skill to work with the fluid based equipments in various industries as well as in hydropower plant.
UVPCE	B. Tech.- ME	Industrial Electronics2MC4105	Activity: To learn about various electronic devices like thyristors, choppers, invertors, drives etc. using practicals. Develop circuit and do calculations by considering the circuit parameters. Also learn the concepts of microcontrollers and PLC. Skill/Employability/Enterpreneurship: To learn the skills of developing circuits and understanding the concepts.
UVPCE	B. Tech.- ME	Fundamentals of Machine Design2ME4101	Activity: Design of different basic machine components and preparation of drawing sheets of the same. Skill/Employability/Enterpreneurship:Problem solving, Analytical, Decision making, Drawing, Student learns use of different softwares to

			prepare models.
UVPCE	B. Tech.- ME	Dynamics of Machines2ME4102	Activity: The effect of static and dynamics force in machine elements. Creation of gear tooth profiles Skill/Employability/Enterpreneneurship: Problem solving, Drawing, Analytical skill,
UVPCE	B. Tech.- ME	Numerical Methods & Computer Programming2ME4103	Activity: Assignments and projects on solving numerical problems on static, dynamic, thermal and drafting using C/C++ problems Skill/Employability/Enterpreneurship: Write programs on CAD tools like ANSYS or SOLIDWORKS
UVPCE	B. Tech.- ME	Manufacturing Technology2ME4104	Activity: Hands on practices on different machine like conventional machining,metal casting Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different Machining and casting operations as per industries requirements.
UVPCE	B. Tech.- ME	Material Technology2ME5101	Activity: Hands on practices on different microstructure, properties, heat treatments and testing of different ferrous and non ferrous materials Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering materials and testing standards as per industries requirements.
UVPCE	B. Tech.- ME	Energy Conversion and Utilization System2ME5102	Activity: experimets, observations and analysis of various laboratory data from the field of refrigeration, air conditioning, IC engine and similer fields to grab actual functioning of these concepts. Skill/Employability/Enterpreneurship: develop the skill to design refrigeration, air-conditioning and IC engine systems for real problems.
UVPCE	B. Tech.- ME	Vibration and Balancing of Machines2ME5103	Activity: Perform practical on various vibration systems Skill/Employability/Enterpruership: Student are able to measure vibration signals from various types of machies or equipments
UVPCE	B. Tech.- ME	Fluid Power Engineering2ME5104	Activity: Performe practical on various apparatus like Bernoullie's, turbine, hydraulic machines etc. to understand and verify the various principle of fluid mechanics. Skill/Employability/Enterpreneurship: Develope the skill to work with the fluid based equipments in various industries as well as in hydropower plant.
UVPCE	B. Tech.- ME	Mechanical Measurement And Metrology2ME5105	Activity: Understand, learn and perform measurement on different instrument and Measuring standard.also devlope new teqnique for measuring different quantities Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different instrument as per industries requirements.

UVPCE	B. Tech.- ME	Aptitude Skill Building – I2HS501	Activity: Solve the aptitude and verbal reasoning problems Skill/Employability/Enterpreneurship: ability to solve mathematical and verbal reasoning problems in day to day life and develop overall attituide towards mathematica and basics of english laguage.
UVPCE	B. Tech.- ME	Control System Engineering2ME601	Activity: Understand, learn, mathematically model, analyse and implement the basic and modern control systems Skill/Employability/Enterpreneurship: Develop the analytical skill to solve the control systems problem related to modern mechanical control engineering
UVPCE	B. Tech.- ME	Metal Forming And Fabrication Technology2ME602	Activity: Hands on practices on different welding, forming and sheet metal operations. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different welding and forming operations as per industries requirements.
UVPCE	B. Tech.- ME	Heat And Mass Transfer2ME603	Activity: practicals performered on varuious phenomena of conduction, convection, radiattion and heat exchangers to understand thier behaviour and proper understanding of related concepts. Skill/Employability/Enterpreneurship: Develop the skills top solve practical problems of heat transfer in solids, liquid and gaseous phase substances and abily to design industrial heat exchangers.
UVPCE	B. Tech.- ME	Power Plant Engineering2ME604	Activity: gain knowlege principle of heat exchanger,high pressure boiler,and fuel handling systemgain knowlege principle of heat exchanger,high pressure boiler,and fuel handling system. Skill/Employability/Enterpreneurship: we have set up 1kw capacity of diesel power plant.and trained students over theire.
UVPCE	B. Tech.- ME	Design Of Machine Elements2ME605	Activity: Design of different machine components, assembly and preparation of drawing sheets of the same. Skill/Employability/Enterpreneneurship:Problem solving, Analytical, Decision making, Drawing, Student learns use of different softwares to prepare models.
UVPCE	B. Tech.- ME	Seminar2ME606	Activity:Power point presentation on various topics. Skill/Employability/Enterpreneurship: develop skill to present their idead and throught through presentations.
UVPCE	B. Tech.- ME	Aptitude Skill Building – II2HS601	Activity: Solve the aptitude and verbal reasoning problems Skill/Employability/Enterpreneurship: ability to solve mathematical and verbal reasoning problems in day to day life and develop overall attituide towards mathematica and basics of english laguage.
UVPCE	B. Tech.- ME	Turbomachinery2ME701	Activity:Understand subject objective and types of turbo machine

			important.provide training at gas turbine power plant.,To have knowledge of jet propulsion ,air craft,air compressor. Skill/Employability/Enterpreneurship: Ability of Practical understand Gas power plant equipment and problem solving in laboratory.
UVPCE	B. Tech.- ME	Design Of Mechanical System2ME702	Activity: Design of different machine components and preparation of drawing sheets of the same. Skill/Employability/Enterpreneneurship:Problem solving, Analytical, Decision making, Drawing, Student learns use of different softwares to prepare models.
UVPCE	B. Tech.- ME	Production Technology2ME703	Activity: Hands on Practices on machines to perform and understand the parametric studies. Employability: by details knowledge of machining parameters it helps to get the job in industries.
UVPCE	B. Tech.- ME	Computer Aided Design2ME704	Activity: Software like Ansys and other CAD software hands on practicals, Implimentation of programming on CAD applications Skill/Employability/Enterpreneurship: Skills related to above software developed which helps students in Industry
UVPCE	B. Tech.- ME	Foundry Technology2ME705/1	Activity:Hands on practices on different sand,permanent mold and advance casting operations. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different casting operations as per industries requirements.
UVPCE	B. Tech.- ME	Internal Combustion Engine2ME705/2	Activity: experiments related to Internal Combustion Engines and vehicles apart from Emission and engine related Tribological Investigations. Skill/Employability/Enterpreneurship: Students will understand and will be able to explain the procedures for:Performing a preliminary engine inspectionIdentifying and interpreting engine concernsThey will be able to deal successfully with present trends in automobile industry
UVPCE	B. Tech.- ME	Refrigeration Engineering2ME705/3	Activity: practical and experimental stuffs performed to understand various refrigeration cycle,psychometry process & charts ,RSHF ,GSHF, performance on VCR system and VAR system DBT, WBT throuth Sling sling , psychrometer Skill/Employability/Enterpreneurship: you could become a refrigeration engineer, designing cooling systems, or move into building services or plumbing. You could also set up your own business
UVPCE	B. Tech.- ME	Hydraulic and Pneumatic Systems2ME705/4	Activity: Making a circuit in Automotion studio sofatwer and Real experience with Industry 4.0 Skill/Employability/Enterpreneurship: Hydraulics and pneumatics circuit

			exercise may create employability in software industries. there is a scope of providing Vision based solution to aunomous systems.
UVPCE	B. Tech.- ME	Minor Project2ME706	Activity: Design, Manufacturing and preparing different working models. Analysis of mechanical systems. Critical review of state of art technology. Skill/Employability/Enterpreneurship: Drawing, Analytical, Soft skill development, Problem solving, learn different softwares, industry interaction, understanding real industrial problems and providing solutions.
UVPCE	B. Tech.- ME	Alternate Energy Sources2ME801	Activity: About sun's radiation,heat balance of radiation,solar geometry, experiment based on solar collector, biomass, geothermal ,Hydrogen and performance analysis,calculate weibull parameters Skill/Employability/Enterpreneurship: Design, develop, or evaluate energy-related projects or programs to reduce energy costs or improve energy efficiency./Green Construction Manager,Renewable Energy Consultant,Solar Project Manager,Wind Farm Site Manager, Renewable Energy Sales Representative.
UVPCE	B. Tech.- ME	Production & Operations Management2ME802	Activity: Learn the how to solve the real life problems of industries resource management. Skill: developed the mathematics skill to solve the real life problems of industries.
UVPCE	B. Tech.- ME	Computer Aided Manufacturing2ME803	Activity: Hands on practies on G and M code Progamming and operations of CNC Machines. Skill/Employability: Developed skill of CNC Progamming and this skill helps to getting the job in industries.
UVPCE	B. Tech.- ME	Major Project2ME804	"Activity: Design, Manufacturing and preparing different working models. Analysis of mechanical systems. Critical review of state of art technology. Skill/Employability/Enterpreneurship: Drawing, Analytical, Soft skill development, Problem solving, learn different softwares, industry interaction, understanding real industrial problems and providing solutions."
UVPCE	B. Tech.- ME	Welding Technology2ME805/1	Activity: Hands on Practices on different welding machines to perform and understand the parametric studies. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different welding operations and welding characterization as per industries requirements.
UVPCE	B. Tech.- ME	Automobile Engineering2ME805/2	Activity: demonstrations of observational practicals and visit to BAJA Club and JIm to understand the concepts of various sub-systems in automotives. Skill/Employability/Enterpreneurship: abilty to find the problems in automotives' sub-systems and their troublshoot.

UVPCE	B. Tech.- ME	Air Conditioning Engineering2ME805/3	Activity: calculations and practicals performed for refrigeration cycle,psychometry process & charts ,RSHF ,GSHF, DBT, WBT throuth Sling sling , psychrometer,window & Split air conditioning . Skill/Employability/Enterpreneurship: A refrigeration and air conditioning engineer works on all manner and size of commercial, residential, public and industrial projects, typically after construction and production is completed.
UVPCE	B. Tech.- ME	Industrial Automation2ME805/4	Activity: Conceptualise the advance controller (PLC), Understanding and learn programming of the various PLCs and languages of PLC. Interfacing of hardwares (input/output devices) with available PLC's. Skill/Employability/Enterpreneurship: Hardware interfacing , PLC programming with industry standards and HMI environment development
UVPCE	B. Tech.- MC	Computer Aided Drawing2ES108	Activity: Create models using various drafting commands of software like AutoCAD – Mechanical, Civil and Electrical engineering etc. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering drawing standards as per industries requirements.
UVPCE	B. Tech.- MC	Computer Aided Drafting2ME301	Activity: Create models using various drafting commands of software like AutoCAD – Mechanical, Civil and Electrical engineering etc. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering drawing standards as per industries requirements.
UVPCE	B. Tech.- MC	Kinematics of Machines2ME302	Activity: Construction of the velocity and acceleration diagrams for particular mechanism. construction of the cam profile of different types with their importance. Skill/Employability/Enterpreneneurship: Problem solving, Drawing, Analytical skill
UVPCE	B. Tech.- MC	Analog Circuits & Devices2MC301	Activity: Design electronics circuit using transistor,OPAMP, MOSFET, 555 times etc. Skill/Employability/Enterpreneurship: Develop the skill to trubleshoot electronics circuits.
UVPCE	B. Tech.- MC	Thermal Engineering2MC302	Activity: Study the various thermodynamic laws and principles to understand the energy and mass flow associates with various types of systems Skill/Employability/Enterpreneurship: develop the skill to solve various practical problems in context of thermal energy flow.

UVPCE	B. Tech.- MC	Fundamentals of Machine Design2ME401	Activity: Design of different basic machine components and preparation of drawing sheets of the same. Skill/Employability/Enterpreneneurship:Problem solving, Analytical, Decision making, Drawing, Student learns use of different softwares to prepare models.
UVPCE	B. Tech.- MC	Digital Circuits & Devices2MC401	Activity: Design digital electronics circuit using logic gates, decoder, encoder, MUX, DEMUX, latch etc. Skill/Employability/Enterpreneurship: Develop the skill to trubleshoot/design digital electronics circuits.
UVPCE	B. Tech.- MC	Dynamics of Machines2MC402	Activity: The effect of static and dynamics force in machine elements. Creation of gear tooth profiles, cam profiles, Perform practical on various vibration systems Skill/Employability/Enterpreneneurship: Problem solving, Drawing, Analytical skill, Student are able to measure vibration signals from various types of machies or equipments"
UVPCE	B. Tech.- MC	Fluid Mechanics & Machines2MC403	Activity: Performe practical on various fluid mechanics apparatus like Bernoullie's, Reynold's, Buoyancy, venturimeter, viscometer, turbine, hydraulic machines etc. to understand and verify the various principle of fluid mechanics. Skill/Employability/Enterpreneurship: Develope the skill to work with the fluid based equipments in various industries as well as in hydropower plant.
UVPCE	B. Tech.- MC	Mechatronics Workshop2MC404	Activity: Prepare a minor project based on Mechatronics concept. Skill/Employability/Enterpreneurship: Develop the skill to trubleshoot PCB's, and analyse basic electrical and electronics circuits.
UVPCE	B. Tech.- MC	Manufacturing Technology2ME404	Activity: Hands on practices on different machine like conventional machining,metal casting Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different Machining and casting operations as per industries requirements.
UVPCE	B. Tech.- MC	Material Technology2ME501	Activity: Understand, learn and perform microstructure, properties, heat treatments and testing of different ferrous and non ferrous materials Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering materials and testing standards as per industries requirements.
UVPCE	B. Tech.- MC	Design Of Machine Elements2MC501	Activity: Design of different machine components, assembly and preparation of drawing sheets of the same. Skill/Employability/Enterpreneneurship:Problem solving, Analytical,

			Decision making, Drawing, Student learns use of different softwares to prepare models.
UVPCE	B. Tech.- MC	Control Engineering2MC502	Activity: Develop mathematical model, analyse and implement the basic and modern control systems Skill/Employability/Enterpreneurship: Develop the analytical skill to solve the control systems problem related to modern control engineering and industrial control applications.
UVPCE	B. Tech.- MC	Microcontroller2MC503	Activity: Interface different diaplay devices, actuators, sensors with microcontroller and write programs for it Skill/Employability/Enterpreneurship: Activity may create employability in automation industries. there is a scope of providing microcontroller based solution to aunomous systems.
UVPCE	B. Tech.- MC	Solid Modeling2MC504	Activity: Create 3D model using various modeling command of Solidworks modeling software-Mechanical. Skill/Employability/Enterpreneneurship: Develop the skill for industrial part modeling and assambly.
UVPCE	B. Tech.- MC	Aptitude Skill Building - I2HS501	Activity: Solve the aptitude and verbal reasoning problems Skill/Employability/Enterpreneurship: ability to solve mathematical and verbal reasoning problems in day to day life and develop overall attituide towards mathematica and basics of english laguage.
UVPCE	B. Tech.- MC	Metal Forming and Fabrication Technology2ME602	Activity: Understand, learn and performing different welding, forming and sheet metal operations. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different welding and forming operations as per industries requirements.
UVPCE	B. Tech.- MC	Mechanical Measurement And Metrology2ME505	Activity: Understand, learn and perform measurement on different instrument and Measuring standard.also devlope new teqnique for measuring different quantities Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different instrument as per industries requirements.
UVPCE	B. Tech.- MC	Hydraulics & Pneumatics Systems2MC601	Activity: Making a circuit in Automotion studio sofatwer and Real experience with Industry 4.0 Skill/Employability/Enterpreneurship: Hydraulics and pneumatics circuit exercise may create employability in software industries. there is a scope of providing Vision based solution to aunomous systems.
UVPCE	B. Tech.- MC	Embedded	Activity: Design embedded systems using diaplay devices, actuators,

		Systems2MC602	sensors, some network protocol etc Skill/Employability/Enterpreneurship: Activity may create employability in automation industries. Also support to incubation activity.
UVPCE	B. Tech.- MC	Sensor Systems2MC603	Activity: To perform practicals related to various industrial sensors. Skill/Employability/Enterpreneurship: Ability to integrate sensors to various actuating devices and be able to use sensors in day to day life. Employment in automation industries where sensors are tested and then used into various equipments.
UVPCE	B. Tech.- MC	Computational Tool2MC604	Activity: To perform practicals in Matlab programming tool. To write a Script in it, looping and interfacing with microcontroller and other peripheral devices. Skill/Employability/Enterpreneurship: To be able to interface Matlab to various GUIs, to solve different equations using SIMULINK environment. To be able to do programming in Matlab programming tool.
UVPCE	B. Tech.- MC	Aptitude Skill Building - II2HS601	Activity: Solve the aptitude and verbal reasoning problems Skill/Employability/Enterpreneurship: ability to solve mathematical and verbal reasoning problems in day to day life and develop overall attituide towards mathematica and basics of english laguage.
UVPCE	B. Tech.- MC	Advance Controller2MC701	Activity: programming of the various PLCs and System design with Interfacing of hardwares (input/output devices) with available PLC's. Skill/Employability/Enterpreneurship: Hardware interfacing , PLC programming with industry standards and HMI environment development
UVPCE	B. Tech.- MC	Robotics2MC702	Activity: Students perform hands on experiments related to robotics fundamentals like forward kinematics and inverse kinematics. They prepare programmes in embedded C language to operate robot for various application. They also learn how to install the robotics programmes in IC. Skill/Employability/Enterpreneurship: The activities in lab develop skill in student to prpare their own embedded system. The hands on experiments by students develop confidence in students to creat robotics system as per the industry or societal need, that is helpful to them Employability and or Enterpreneurship.
UVPCE	B. Tech.- MC	Production Technology2ME703	Activity: Hands on Practices on machines to perform the parametric studies. Employability: by details knowledge of machining parameters it helps to get the job in industries.
UVPCE	B. Tech.- MC	Operation Management2MC704	Activity: Learn the how to solve the real life problems of industries resource management.

UVPCE	B. Tech.- MC		Skill: developed the mathematics skill to solve the real life problems of industries.
UVPCE	B. Tech.- MC	Digital Image Processing & Machine Vision2MC705	Activity: Write MATLAB programs for improving image quality and feature extraction Skill/Employability/Enterpreneurship: Programming exercise may create employability in software industries. there is a scope of providing Vision based solution to aunomous systems.
UVPCE	B. Tech.- MC	Minor Project2MC706	Activity: Hypothesis an industrial minor project applications, implement the mechatronics applications, Interfacing of various sensors-hardwares, Report writing Skill/Employability/Enterpreneurship:Minor project application development,Hardware interfacing skill, programming skill , Report writing and presentation skill development, model development skill
UVPCE	B. Tech.- MC	Computational Intelligence Techniques2MC801	Activity: Prepare logical programmes in MATLAB related to the intelligence. Build logical programmes for varias artificial intelligence concepts like various ANN networks. Prepare logical programmes related to fuzzy logic concepts. Also prepare logical programmes for optimizations. Skill/Employability/Enterpreneurship: Utilized the various programming logic in robotics and automation fields to solve smartness and intelligence related industrial or societal problems.
UVPCE	B. Tech.- MC	Computer Integrated Manufacturing2MC802	Activity: Software like Ansys and other CAD software hands on practicals, Implimentation of programming on CAD applications Skill/Employability/Enterpreneurship:Minor project application development,Hardware interfacing skill, programming skill , Report writing and presentation skill development, model development skill
UVPCE	B. Tech.- MC	Computer Aided Design2ME704	Activity: Software like Ansys and other CAD software hands on practicals, Implimentation of programming on CAD applications Skill/Employability/Enterpreneurship: Skills related to above software developed which helps students in Industry
UVPCE	B. Tech.- MC	Mechanical System Design2MC804	"Activity: Design of different machine components and preparation of drawing sheets of the same. Skill/Employability/Enterpreneneurship:Problem solving, Analytical, Decision making, Drawing, Student learns use of different softwares to prepare models."
UVPCE	B. Tech.- MC	Major Project2MC805	"Activity: Design, Manufacturing and preparing different working models. Analysis of mechatronics systems. Critical review of state of art technology. Skill/Employability/Enterpreneurship: Drawing, Analytical, Soft skill

			development, Problem solving, learn different softwares, industry interaction, understanding real industrial problems and providing solutions."
UVPCE	M.Tech.- AMS	Material Science3ME101	Activity: To learn about different microstructure, properties, heat treatments, corrosion and testing of different ferrous and non ferrous materials. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering materials and testing standards as per industries requirements.
UVPCE	M.Tech.- AMS	Production and operation management3ME102	Activity: Learn the how to solve the real life problems of industries resource management. Skill: developed the mathematics skill to solve the real life problems of industries.
UVPCE	M.Tech.- AMS	Analyses of Metal Forming & Machining Processes 3ME103	Activity: Hands on Practices on machines to perform and understand the parametric studies. Skill/Employability/Enterpreneurship: develop skill for the practical applications of various concepts of different welding and forming operations as per industries requirements and details knowledge of machining parameters it helps to get the job in industries, develop skill to convert any raw material into the desired share and functioning.
UVPCE	M.Tech.- AMS	Computer Aided Design 3ME104	Activity: Software like Ansys and other CAD software hands on practicals, Implimentation of programming on CAD applications Skill/Employability/Enterpreneurship: Skills related to above software developed which helps students in Industry
UVPCE	M.Tech.- AMS	Manufacturing Automation3ME105	Activity: To perform experiment related to microcontroller, PLC, sensors and actuators, hydraulic and pneumatic systems and the circuits for the applications. Skill/Employability/Enterpreneurship: Activity may create employability in automation industries.
UVPCE	M.Tech.- AMS	Advance manufacturing lab. 3ME106	Activity: Hands on practices on different machine like conventional machining,metal casting Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different Machining and casting operations as per industries requirements.
UVPCE	M.Tech.- AMS	Open Subject *3OS101	"Activity: Design, Manufacturing and preparing different working models. Analysis of mechanical systems. Critical review of state of art technology. Skill/Employability/Enterpreneurship: Drawing, Analytical, Soft skill development, Problem solving, learn different softwares, industry interaction, understanding real industrial problems and providing

		solutions."	
UVPCE	M.Tech.- AMS	Computer Integrated Manufacturing3ME201	Activity: Hands on practies on G and M code Progamming and operations of CNC Machines. How to integrat CNC machine and material handling systems. Skill/Employability: Developed skill of CNC Progamming and this skill helps to getting the job in industries.
UVPCE	M.Tech.- AMS	Advanced Metal Casting & Welding Technology 3ME202	Activity:Hands on practices on different sand,permanent mold and advance casting and welding operations. Learn the how to solve the real life problems of industries resource management. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different casting and welding operations as per industries requirements.
UVPCE	M.Tech.- AMS	Product Design3ME203	Activity: To solve different case studies for product developments, Practices for product development for different products, Case studies for value analysis of mechanical system and design for Manufacturing. Skill/Employability/Enterpreneurship: Critivativity skill developed for product design, analysis skill for product design, value analysis and Design for manufacturing. Selection ability can be developed for RP method for product development.
UVPCE	M.Tech.- AMS	Precision and Quality Engineering 3ME204	**Activity:** To study about precision machining, super finishing processes, to understand the concept of Quality control, Quality standard and Reliability, to know the different Design of Experiment technquies and to perform DOE for different case study from research papers, to undersatnt about use of tolerances and fits in manufacturing processes also calculation of machining allowances, surface roughness for diffferent machining process **Skill/Employability/Enterpreneurship:** Develop the skill for applying different DOE techniques also to develop the skill for finding out tolerances, fits and machining allowances in machining processes
UVPCE	M.Tech.- AMS	Robotics and Artificial Intelligence 3ME205	Activity:Hands on practices on different robotic configurations and to solve the real life problems of industrial robotics. Anlysis of various robotic configurations. Skill/Employability/Enterpreneurship: Develop the skill for the anlysis and design of various concepts of different robotic applications.
UVPCE	M.Tech.- AMS	Seminar 3ME206	Activity:Power point presentation on various topics and get the deeper knowledge of relavent topic. Skill/Employability/Enterpreneurship: develop skill to present their idead and throught through presentations.
UVPCE	M.Tech.- AMS	Research	Activity:Study about different types of research, to perform process of

		Methodology3ME301	research design for research work, To conduct literature review for their proposed research work, study different mathematical modeling methods, to perform DOE for their experimental work, To write report on their research work. Skill/Employability/Enterpreneurship: ability to distinguish between research methods and research methodology, Develop the ability to decode the research paper and conduct literature review for research gap findings, able to develop mathematical model, develop ablity of planning for experimental work based on design of experiments, to enhance their report writing skill and improve the quality of their report.
UVPCE	M.Tech.- AMS	World Class Manufacturing3ME302	Activity: get the recent knowledge of world class manufacturing systems. Skill/Employability/Enterpreneurship: Enterpreneure in manufactirng fields.
UVPCE	M.Tech.- AMS	Dissretation Part - 13ME303	Activity: worked on industries linkage problems and trouble shooting. Skill/Employbility: presentation and analitical skill, get the employment in industeries as well as in academic fields.
UVPCE	M.Tech.- AMS	Dissretation Part - 23ME401	Activity: worked on industries linkage problems and trouble shooting. Skill/Employbility: presentation and analitical skill, get the employment in industeries as well as in academic fields.
UVPCE	M.Tech.- CAD/CAM	Material Science & Technology3ME111	Activity: To learn about different microstructure, properties, heat treatments, corrosion and testing of different ferrous and non ferrous materials. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering materials and testing standards as per industries requirements.
UVPCE	M.Tech.- CAD/CAM	Advanced metal forming & machining processes3ME112	"Activity: Hands on Practices on machines to perform and understand the parametric studies.
UVPCE	M.Tech.- CAD/CAM	Computer Aided Design3ME113	Skill/Employability/Enterpreneurship: develop skill for the practical applications of various concepts of different forming operations as per industries requirements and details knowledge of machining parameters it helps to get the job in industries, develop skill to convert any raw material into the desired share and functioning. "
UVPCE	M.Tech.- CAD/CAM	Advanced machine design & dynamics3ME114	"""Activity: Software like Ansys and other CAD software hands on practicals, Implimentation of programming on CAD applications
UVPCE	M.Tech.- CAD/CAM	Computer Integrated	Skill/Employability/Enterpreneurship: Skills related to above software

		Manufacturing3ME115	developed which helps students in Industry""""
UVPCE	M.Tech.- CAD/CAM	Software Packges3ME116	"Activity: The effect of static and dynamics force in machine elements. Creation of gear tooth profiles
UVPCE	M.Tech.- CAD/CAM	Open Subject *3OS101	Skill/Employability/Enterpreneneurship: Problem solving, Drawing, Analytical skill, "
UVPCE	M.Tech.- CAD/CAM	Engineering Analysis & Optimization3ME211	Activity: Learn the how to solve the real life problems of industries resource management. Skill: developed the mathematics skill to solve the real life problems of industries.
UVPCE	M.Tech.- CAD/CAM	Advanced casting and welding processes3ME212	Activity:Hands on practices on different sand,permanent mold and advance casting and welding operations. Learn the how to solve the real life problems of industries resource management. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different casting and welding operations as per industries requirements.
UVPCE	M.Tech.- CAD/CAM	Computer Aided Production Management3ME213	Activity: Identify the problem associated with development of product from design to dispatch. also to forecast for the product sell by market survey,take necessary action from the data recieved from the feedback of customer review and customer requirement for new product. take action against the factors affecting the product life, planning of process for the product. Skill/Employability/Enterpreneurship: helps to be employed in Production department, also help to improove Process of manufacturing and so the profit of organisationand quality of product and reputation of organisation as well.
UVPCE	M.Tech.- CAD/CAM	Robotics & Intelligent Manufacturing 3ME214	Activity:Hands on practices on different robotic configurations and to solve the real life problems of industrial robotics. Anlysis of various robotic configurations. Skill/Employability/Enterpreneurship: Develop the skill for the anlysis and design of various concepts of different robotic applications.
UVPCE	M.Tech.- CAD/CAM	Automation in Production & Quality Engineering3ME215	Activity: Identify the problem associated with quality of product, and improove productivity , solving problems concern to quality by applying different techniques ot test.assighning quality to product. Skill/Employability/Enterpreneurship: helps to be employed in quality control department, also help to improve quality of product and reputation of organisation as well.
UVPCE	M.Tech.- CAD/CAM	Seminar on Advanced Topics 3ME216	Activity:Power point presentation on advance topics and get the deeper knowledge of relavent topic. Skill/Employability/Enterpreneurship: develop

			skill to present their idead and throught through presentations.
UVPCE	M.Tech.- CAD/CAM	Research Methodology3ME311	Activity:Study about different types of research, to perform process of research design for research work, To conduct literature review for their proposed research work, study different mathematical modeling methods, to perform DOE for their experimental work, To write report on their research work. UVPCE	M.Tech.- CAD/CAM	Dissretation Part - 23ME411	Activity: worked on industries linkage problems and trouble shooting. Skill/Employbility: presentation and analitical skill, get the employment in industeries as well as in academic fields.
UVPCE	B.Tech.- Automobile Engineering	Fundamentals of Automobile Engines2AE301	Perform Morse test and heat balance test on SI and CI engine test rigs. Understanding engine cooling and lubrication systems, their effects on engine performance and emission by studying animation videos as well as demonstration on engine working model. Develop skill for performing testing and validation of IC engines.
UVPCE	B. Tech Automobile	Automobile Electrical Systems and Electromobile2AE302	Demonstration of Motors, Battery packs, controller and throttle valves. Inspection and testing of battery, starter motor, alternator and electrical accessories of automobiles. Develop understanding of working of electric vehicles, develop skills for diagnosis and repair of automobile electrical systems.
UVPCE	B. Tech Automobile	Non Conventional Energy Sources2AE303	About sun's radiation,heat balance of radiation,solar geometry, experiment based on solar collector, biomass, geothermal ,Hydrogen and performance analysis,calculate weibull parameters. Design, develop, or evaluate energy-related projects or programs to reduce energy costs or improve energy efficiency.Green Construction Manager,Renewable Energy Consultant,Solar Project Manager,Wind Farm Site Manager, Renewable Energy Sales Representative.

UVPCE	B. Tech Automobile	Numerical Analysis2AE401	Software survey in Automobile Engineering, Assignments for solving problems using Numerical methods, Writing C Program for different applications. Developed skill of C Programming and solving complex problems using Numerical Methods.
UVPCE	B. Tech Automobile	Material Science and Metallurgy2AE402	Performance to analyse microstructure, properties, heat treatments and testing of different ferrous and non ferrous materials. Develop the skill for the practical applications of various concepts of engineering materials and testing standards as per industries requirements.
UVPCE	B. Tech Automobile	Automotive Electronics And Instrumentation2AE403	Performing diagnosis of vehicle problems using car scanner tool. Develop skills for diagnosis and repair of BS IV and BS VI vehicles.
UVPCE	B. Tech Automobile	Heat Transfer2AE501	Skill development: Students will be able to choose and analyse a cooling system for conventional vehicle as well as electric vehicle.
UVPCE	B. Tech Automobile	Vehicle Component Design2AE502	Employability/Skill:student get acquainted with to standardize the automobile part after designing the component like gear, gear box, piston, connecting rod, piston pin, crank shaft, valve mechanism, Cylinder liner, flywheel etc and to select the required bearing for same by considering the different design considerations.
UVPCE	B. Tech Automobile	Manufacturing Technology & Process2AE503	"Activity: Hands on practices on different machine like conventional machining,metal casting Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different Machining and casting operations as per industries requirements."
UVPCE	B. Tech Automobile	Electromobile Drives2AE504	Employability/Skill: Students will be developed for electric vehicle technologies like battery pack design, electric motor selection, battery management system which will make them employable in electrical vehicle manufacturing industries.
UVPCE	B. Tech Automobile	Automobile Systems and Mechanism2AE505	Activity: Hands on practice on various automobile systems, practicing assembly and disassembly of system components and operating the system mechanisms such as clutch, gearbox, suspension, steering, brakes, etc. Skill/Employability/Enterpreneurship: Develop the skills for practical applications of various automobile system types. Make career in the field of Design and Manufacturing of Automobile systems and components.
UVPCE	B. Tech Automobile	Transport Management and Laws2AE506	Activity: Preparing Fleet Operation related Schedule as well as Fare Matrix. Skill/Employability/Enterpreneurship: Develop the skills for practical

UVPCE	B. Tech Automobile	Industrial Engineering and Management2AE507	applications of motor vehicle act and transport laws while design, manufacturing and testing of vehicle. Career opportunity as a Regional Transport Officer and Motor Vehicle Inspector.
			Enterprenuership: Students will be able to manage their own business after learning management principles and organisational management. Employability: Students will be able to get employed in manager position after learning this subject about management principles and organisational analysis.
UVPCE	B. Tech Automobile	Vehicle Dynamics and Structure2AE601	Activity: Structural Dynamics is a Leading global brand in the area of vehicle and component development exercising State-of-the-art Technology ... friendly solutions to the Industry through validating the product or prototype ... The state of art facility is useful for performing a wide range of engine and vehicle
UVPCE	B. Tech Automobile	Automobile Chassis and Body Engineering2AE602	Activity: Hands on practices for making various body shapes of vehicle and testing them for aerodynamic analysis. Employability: Students will be able to get employed in automotive body industries like bus coach factory after learning this subject
UVPCE	B. Tech Automobile	Fundamental of Vehicle Noise and Vibration2AE603	Activity/ Skill : Vibration analysis training covers vital predictive maintenance skills for Tool Chip Conveyor Operation and Maintenance Skills	Mechanical Drives Training ... Learners will practice industry-relevant skills including how to use a vibration
UVPCE	B. Tech Automobile	Air Conditioning and Refrigeration2AE604	Activity: Hands on practice on operation and testing on various air conditioning and refrigeration units. Skill/Employability/Enterpreneurship: Students will develop skill in operation and maintenance of AC and Refrigerators. Employment scope in the HVAC industries and its applications in Automobile Air Conditioners.
UVPCE	B. Tech Automobile Engineering	Automotive Measurements and Metrology2AE605	Activity: Understand, learn and perform measurement on different instrument and Measuring standard.also devlope new teqnique for measuring different quantities Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of different instrument as per industries requirements.
UVPCE	B. Tech Automobile	Vehicle Maintenance and Garage Practices2AE606	Activity: Understand and learn various techniques for diagnosis of vehicle, perform regular maintenance and prepare case study on Minor and Major Overhauling of Engine and various systems of Automobiles. Skill/Employability/Enterpreneurship: Develop skill to carry out maintenance and repair of 2,3 and wheelers as well as commercial vehicles. Subject knowledge will provide opportunity to work as Manager at

			Authorized Service Station.
UVPCE	B. Tech Automobile	Solid Modelling2ME3101	"Activity: Create models using various drafting commands of software like AutoCAD – Mechanical, Civil and Electrical engineering etc. Skill/Employability/Enterpreneurship: Develop the skill for the practical applications of various concepts of engineering drawing standards as per industries requirements."

ICT	B.Tech.(CSE-CBA)	Game Theory 2CSE50E6	Fundamentals of various methods of game development
ICT	B.Tech.(CSE-CBA)	Enterprise Application Development for Cloud 2CSE60E1	Practice on various module of cloud based application development
ICT	B.Tech.(CSE-CBA)	Advanced Computer Network 2CSE60E2	Hands on session to configure different network components
ICT	B.Tech.(CSE-CBA)	Data Warehouse & Mining 2CSE60E3	Hands on session for implementing different data mining models for knowledge extraction
ICT	B.Tech.(CSE-CBA)	Image Processing 2CSE60E20	Various projects related to Image Processing
ICT	B.Tech.(CSE-CBA)	Parallel Programming 2CSE60E5	Discussion about various aspects of parallel computing and its methods
ICT	B.Tech.(CSE-CBA)	Graph Theory 2CSE60E6	Discussion about real-time applications of graphs and its hands on session
ICT	B.Tech.(CSE-CS)	Identity & Access Management 2CSE50E21	Apply information theory and linear algebra in source coding and channel coding and Analyse the performance of error control code
ICT	B.Tech.(CSE-CS)	Mathematical Foundation for Cyber Security 2CSE50E22	Apply various mathematical techniques used for cyber security

ICT	B.Tech.(CSE-CS)	Information Theory & Coding 2CSE50E23	Apply information theory and linear algebra in source coding and channel coding and Analyse the performance of error control code
ICT	B.Tech.(CSE-CS)	Cryptography 2CSE50E24	Apply appropriate security techniques to solve security problem.
ICT	B.Tech.(CSE-CS)	Ethical Hacking 2CSE50E25	Detect and prevent the security attacks in different environments
ICT	B.Tech.(CSE-CS)	R Programming 2CSE50E26	Able to appreciate and apply the R programming from a statistical perspective
ICT	B.Tech.(CSE-CS)	Network Security 2CSE603	Execute vulnerability assessment and penetration testing on of organization.
ICT	B.Tech.(CSE-CS)	Cyber Crime & Law 2CSE604	To identify appropriate law enforcement strategies to both, prevent and control cybercrime.
ICT	B.Tech.(CSE-CS)	Data Security Systems 2CSE60E21	To provide knowledge of various data security systems
ICT	B.Tech.(CSE-CS)	Advance Cryptography 2CSE60E22	Apply appropriate security techniques to solve security problems.
ICT	B.Tech.(CSE-CS)	Web and Mobile Application Security 2CSE60E23	Hands on with multiple applications used for web and mobile application security
ICT	B.Tech.(CSE-CS)	IoT Security 2CSE60E24	To get acquainted with various applications which can be used for IoT security
ICT	B.Tech.(CSE-BDA)	Business Intelligence 2CSE50E13	Generation of various reports with consideration of business aspects
ICT	B.Tech.(CSE-BDA)	Pattern Recognition 2CSE50E14	Design and development of recommendation systems
ICT	B.Tech.(CSE-BDA)	Data Science & Modeling 2CSE50E15	Modeling of statistical methods and its application
ICT	B.Tech.(CSE-BDA)	Soft Computing 2CSE50E16	Discussion about fundamentals neural network and its applications
ICT	B.Tech.(CSE-BDA)	Information Retrieval 2CSE50E17	Hands on session for designing various aspects of search engine
ICT	B.Tech.(CSE-BDA)	R Programming 2CSE50E18	Hands on session regarding different libraries of R programming
ICT	B.Tech.(CSE-BDA)	Big Data Analytics 2CSE60E13	Hands on session to use various components of hadoop ecosystem

ICT	B.Tech.(CSE-BDA/CS)	Artificial Intelligence 2CSE60E14	Detailed discussion and hands on session to understand fundamental concepts of AI
ICT	B.Tech.(CSE-BDA/CS)	Data Warehouse & Mining 2CSE60E15	Hands on session for implementing different data mining models for knowledge extraction
ICT	B.Tech.(CSE-BDA)	Image Processing 2CSE60E20	Detailed discussion about various algorithm of image processing
ICT	B.Tech.(CSE-BDA)	Natural Language Processing 2CSE60E19	Detailed discussion and hands on session to understand fundamental concepts of NLP
ICT	B.Tech.(CSE-BDA)	Discrete Mathematics 2CSE60E18	Discussion about graph theory and real-time applications
ICT	B.Tech.(ICT)	2HS101-CALCULUS	To make the students aware of calculus fundamentals.
ICT	B.Tech.(ICT)	2ICT101-Web Development	To build programming skill in the students in the domain of Web Design and development Technology
ICT	B.Tech.(ICT)	2ICT102-Computer Programming	Building logic and skill through concepts & Terminology
ICT	B.Tech.(ICT)	2ICT103-Elements of Electrical Engineering	Solving circuit problems and perform power calculation
ICT	B.Tech.(ICT)	2ICT104-Basic Electronics	Apply the knowledge of basic semi-conductor devices to realize the working of basic electronic circuits.
ICT	B.Tech.(ICT)	2HA102-LINEAR ALGEBRA	To make the students aware of linear algebra fundamentals.
ICT	B.Tech.(ICT)	2ICT201-Object Oriented Programming	Core concepts of OOP with advance topics threading, servelet & JSP
ICT	B.Tech.(ICT)	2ICT202-Basics of Operating System and Scripting	To prepare students in System , server and Network Administration using Open Source Technology like Redhat, Ubuntu and Fedora
ICT	B.Tech.(ICT)	2ICT203-Aptitude Skill Building	To prepare students for competitive examinations
ICT	B.Tech.(ICT)	2ICT204-Basics of communication Systems	To prepare students for basics of communications systems like modulation, data transfer etc.
ICT	B.Tech.(ICT)	2ICT205-Digital Electronics	To make students aware of digital electronics fundamentals like number systems, logic gates, sequential and combinational circuits etc.
ICT	B.Tech.(ICT)	2ICT206-Data Structures	Practical aspects of various data structure with real time application & implementation
ICT	B.Tech.(ICT)	2ICT301-Signals & systems	To make students able to get basics of various signals and various operations on signals.

ICT	B.Tech.(ICT)	2ICT302-Essential of software Foundation & Programming	Practical aspects of software tools like python, PHP etc.
ICT	B.Tech.(ICT)	2ICT303-Computer Organization	To prepare the students about organization of computer system.
ICT	B.Tech.(ICT)	2ICT305-Discrete Mathematics	To use formal methods for constructing mathematical proofs
ICT	B.Tech.(ICT)	2ICT401-Operating Systems	To prepare students with knowledge of process management, memory management etc.
ICT	B.Tech.(ICT)	2ICT402-Electromagnetic Theory	To apply concepts of Electric and Magnetic laws to solve examples.
ICT	B.Tech.(ICT)	2ICT403-Probability, Statistics and Information Theory	Understand the concepts of probability and statistics and apply the knowledge of random variable and random process to the information theory concepts.
ICT	B.Tech.(ICT)	2ICT404-Microprocessors and Microcontrollers	Building the programming skill with Microprocessors and Microcontrollers.
ICT	B.Tech.(ICT)	2ICT405-Application Development	Preparation of students to develop application.
ICT	B.Tech.(ICT)	2ICT501-Analog & Digital Communication	To prepare students for Analog & Digital Communication Techniques.
ICT	B.Tech.(ICT)	2ICT502-Database Management Systems	Design and build a simple database system.
ICT	B.Tech.(ICT)	2ICT503-Computer Networks	Students' awareness about different protocols and computer network design fundamentals.
ICT	B.Tech.(ICT)	2ICT504-Digital Design using HDL	Design, simulates, and synthesizes computer hardware using the Verilog Hardware Description Language.
ICT	B.Tech.(ICT)	2ICT506-Embedded System Design	To prepare students with concepts of architecture and code for embedded systems.
ICT	B.Tech.(ICT)	2ICT506-Software Engineering	To prepare students for software project management.
ICT	B.Tech.(ICT)	2ICT601-Digital Signal Processing	students will be able to design FIR and IIR filters, understand the use of efficient algorithms for computation of frequency response, understand the concept of DFT and FFT implementation, understand the realization of filter structure.
ICT	B.Tech.(ICT)	2ICT602-Theory of Computation	Students should be able to understand the basic concepts and application of Theory of Computation
ICT	B.Tech.(ICT)	2ICT603-Information	To prepare students with Information Security concept to maintain

			Security	confidentiality in message.
ICT	B.Tech.(ICT)	2ICT604-Artificial Intelligence	To prepare students with programming skills of Artificial Intelligence algorithms.
ICT	B.Tech.(ICT)	2ICT605-Application Development II	Preparation of students to develop application.
ICT	B.Tech.(ICT)	2ICT60E1-Advanced JAVA	Student will be able to understand the Client-Server architecture for Web Application Development, which core Java doesn't support.
ICT	B.Tech.(ICT)	2ICT60E2-Digital Image Processing	Student will be able to demonstrate knowledge of a broad range of fundamental image processing and image analysis techniques and concepts (linear and non-linear filtering, denoising, deblurring, edge detection, line finding, detection etc.)
ICT	B.Tech.(ICT)	2ICT60E3-VLSI System Design	Students will be able to know the history of VLSI and fabrication of chips, understand the concepts and characteristics of MOS and MOS based Inverters
ICT	B.Tech.(ICT)	2ICT701- Wireless Communication	Students will be able to know functioning of wireless communication system, compare recent technologies used for wireless communication and explain multiple access techniques for Wireless Communication.
ICT	B.Tech.(ICT)	2ICT702- Sensors and Internet of Things	student will be able to use devices, Gateways and Data Management in IoT and know Applications of IoT in Industrial Automation and Real World.
ICT	B.Tech.(ICT)	2ICT703- Machine Learning	student will be able to understand the fundamental issues, strengths and weaknesses, challenges, basic concepts and techniques of machine learning.
ICT	B.Tech.(ICT)	2ICT704- Cloud Computing	student will be able to understand the hardware, software concepts and architecture of cloud computing as well as they will realize the importance of Cloud Virtualization, Abstractions and Enabling Technologies and will be able to explore the Programming for Applications on Cloud.
ICT	B.Tech.(ICT)	2ICT70E1- Advanced DSP	students will be able to understand the multi rate signal processing, adaptive signal processing, Learn the concepts of speech generation and Design a small scale DSP based system.
ICT	B.Tech.(ICT)	2ICT70E2- Data Compression	students will be able to perform image and video compression and decompression
ICT	B.Tech.(ICT)	2ICT70E3- RTOS, Kernels and Device Drivers	Students will be able to learn about different types of operating systems, understanding of kernel level programming of Linux operating system and Know about the development of device drivers.

ICT	B.Tech.(ICT)	2ICT70E21- Analog Mixed Signal VLSI Design	students will be able to understand and Design different Analog circuits, Mixed circuits and operational amplifier circuits for various applications as per the user specifications.
ICT	B.Tech.(ICT)	2ICT70E22- Optical Communication & Networks	Students will be able to recognize and classify structures of Optical fibers, understand channel impairments like losses and dispersion as well as analyze and design long distance optical communication link for high speed optical network.
ICT	B.Tech.(ICT)	2ICT70E23- Compiler Design	Student should be able to perform lexical analysis and various parsing techniques as well as Construct compiler
ICT	B.Tech.(ICT)	2ICT801- Major Project	students will be able to get exposure of real time environment of the industry as well as Understand and full fill the requirements of industry.
IOT	Diploma in Automobile Engineering	1AU2301- AUTOMOBILE ENGINE	1.Students can learn overhauling of I.C. Engine. 2. From this subject students are able to service engines and able to find out Minor Troubles related to Engine
	Diploma in Automobile Engineering	1AU2302- AUTOMOBILE TRANSMISSION AND MECHANISM	1.Overhauling of Gear box 2.Clutch system overhauling and inspection 3.Students able to do Wheel Balancing and wheel alignments procedure
	Diploma in Automobile Engineering	1AU2303- AUTOMOBILE ELECTRICAL SYSTEM AND ELECTROMOBILE	1.Students able to do Battery test 2.Students may able to do ignition test and set ignition timing
	Diploma in Automobile Engineering	1AU2304-FUEL & LUBRICANTS	1.Students may learn about different Lubrication oils 2.Basic Viscosity test for different for Different liquids
	Diploma in Automobile Engineering	1AU2305- AUTOMOBILE COMPONENT DESIGN	1.Students may learn and analyse different design of engine and transmission Components

Diploma in Automobile Engineering	1AU2306-AUTOMOBILE POLLUTION CONTROL ENGINEERING	1.Students able to understand of various pollution norms. 2.Service and repair various emission control systems like EGR and Catalytic converter.
Diploma in Automobile Engineering	1AU2401-VEHICLE BODY ENGINEERING	1.Minor and major Automobile Body repair techniques like denting hammering with use of Dolly, dent pullers,hammers etc.
Diploma in Automobile Engineering	1AU2402-VEHICLE KINEMATICS &DYNAMICS	1.Students may identify vibration related problems for automobiles .
Diploma in Automobile Engineering	1AU2403-MODERN VEHICLE TECHNOLOGY	1.Students able to identify Different sensors location in the engine and their working. 2. Recently developed New technology implemented in Automobile.
Diploma in Automobile Engineering	1AU2404-AUTOMOBILE MANUFACTURING TECHNOLOGY	1.Various manufacturing systems used in making of Automobile components like casting and forging.
Diploma in Automobile Engineering	1AU2405-AUTOMOBILE INDUSTRIAL MANAGEMENT	1.Better understanding of different Motor vehicles rule and regulations 2.Registration process for motor vehicle 3.Preventive maintenance and material handling in automobile industry
Diploma in Automobile Engineering	1AU2406-THERMODYNAMICS & HYDRAULICS	1) Hydraulics systems working 2) working and solving simple problems of hydraulic Pumps
Diploma in Automobile Engineering	1AU2501-AUTOMOBILE INDUSTRIAL TRAINING	1)Students should be able to demonstrate these skills on the type of automobile on which they are trained, the following list is suggestive only, some more skills may be acquired by student depending upon the opportunities they get and in some cases some of the following skills may not be applicable for the automobile on which they have undergone training)

Diploma in Automobile Engineering	1AU2601-AUTOMOBILE ENGINE DIAGNOSIS AND TESTING	1).Identify and diagnose the causes of malfunctioning of an engine 2) Rectify engine troubles based on symptoms and causes 3).Use the suitable instrument and tools for diagnosis and testing of automotive engine systems 4).Remove engine from automobile, disassemble and rectify faults. 5).Develop an attitude of relying on systematic method of working using standard trouble shooting procedure rather than taking ad-hoc decisions
Diploma in Automobile Engineering	1AU2602-AUTOMOBILE TRANSMISSION AND MECHANISM DIAGNOSIS AND TESTING	1. Identify probable faults/troubles and their causes in automobile transmission systems. 2.Use suitable instruments, tools and service manuals for diagnosis and testing of automobile transmission systems. 3. Remove automobile units by using proper tools and procedures: gear box, brakes, suspension, final drive, etc. 4. Disassemble, inspect, and repair various automobile units by using proper tools and procedures: gear box, differential, brakes, suspension, steering, etc. 5. Follow safety rules for repair and maintenance of various transmission systems of automobile vehicle.
Diploma in Automobile Engineering	1AU2603-AUTOMOBILE ELECTRICAL SYSTEMS DIAGNOSIS AND TESTING	1. Identify various auto-electrical faults/troubles and their causes. 2. Analyse and rectify various auto-electrical troubles with the help of troubleshooting charts 3.Use standard acceptance test with the help of service manuals 4.Use suitable instrument and tools for diagnosis and testing of automotive electrical system. 5.Follow safety rules for repair and maintenance of various automotive electrical systems and units.
Diploma in Automobile Engineering	1AU2605 VEHICE AIR CONDITIOING	1.Identify various components of Vehicle Air conditioning and heating system.. 2. Apply various concepts related to Air conditioning and heating system. 3.Operate manually and automatic Air conditioning and heating system. 4.Diagnose various faults in air conditioning system by using suitable tools and instruments. 5.Follow safety rules while servicing of Air conditioning and heating system
Diploma in Civil Engineering	1CI2301-MECHANICS OF STRUCTURE - I	1. Increase ability of analysis of structure. 2. Comprehend material properties for different loading conditions. 3. Analyse the structural components with axial or eccentric loading conditions.

	Diploma in Civil Engineering	1CI2302-SURVEYING	1. By understanding drawings, scales and maps one can understand various geometrical parameters. 2. With the help of various surveying instruments students can understand various parameters like angle, distance, etc. 3. This subject will help students to become government surveyor and also help to become entrepreneur.
	Diploma in Civil Engineering	1CI2303-HYDRAULICS	1. Increase ability to perceive the behaviour of fluid flow in different conditions in pipes, channels, canals, notches, weirs etc. 2. Apply their basic knowledge to perceive the core concept of hydraulics. 3. Implement the theoretical and practical knowledge in the field of water resources / irrigation / PHE and environment engineering.
	Diploma in Civil Engineering	1CI2304-ENGINEERING MATERIALS	1. Identify various construction materials with their properties and cost. 2. Demonstrate an appropriate application of construction material. 3. Learn various tests to be performed for that material
	Diploma in Civil Engineering	1CI2305-BUILDING CONSTRUCTION	1. Learn different types of technology used in construction works 2. Develop knowledge of various types of construction machineries, formworks and safety measures involved in construction works
	Diploma in Civil Engineering	1CI2401-MECHANICS OF STRUCTURES - II	1. Comprehend static indeterminacy of structural components. 2. Analyse behavior of such structural components under certain loading conditions. 3. Perceive behavior of columns for different end conditions.
	Diploma in Civil Engineering	1CI2402-ADVANCE SURVEYING	1. Comprehend How to use theodolite for the measurement of horizontal and vertical angle as per industry requirements. 2. Calculate the height of objects through a trigonometrical levelling 3. Describe the principles and various methodologies involved in tacheometry.
	Diploma in Civil Engineering	1CI2403-WATER RESOURCES & MANAGEMENT	1. Learn this subject by applying fundamentals of management and knowing public behaviour. 2.Design and operation of various hydraulic structures like dam , weir ,barrage etc. 3. Knowledge of this subject will help students to prepare for competitive Exams.

	Diploma in Civil Engineering	1CI2404-TRANSPORTATION ENGINEERING	1. Learn various Modes of transportation with components, cross section road alignments. 2. Comprehend the concept of construction and maintenance of roads,railways and Bridges. 3. Perform the tests on the various materials used in the construction work of roads, Railways and bridges.
	Diploma in Civil Engineering	1CI2405-GEOTECH ENGINEERING	1. Comprehend the fundamentals of geology, Structural features of rocks & various geological investigations. 2. knowledge of essential features and requirements of site investigation with respect to soil. 3. Learn different laboratory tests for determining engineering properties parameters of a soil. 4. Ability to classify soils and to evaluate soil parameters such as permeability, compaction, shear strength etc. experimentally.
	Diploma in Civil Engineering	1CI2406-DRAFTING TOOLS	1. This subject will improve the imagination power of students and enhance their skills on drafting. 2. They will be able to read and interpret drawings by studying this subject.
	Diploma in Civil Engineering	1CI 2501-DESIGN OF STEEL STRUCTURE & MASONARY STRUCTURE	1. Understand the fundamentals of various design philosophies. 2.Explain essential features and requirements of design and detailing. 3.Acquire knowledge of basics of masonry structure. 4.Calculate all loads on panel points of a Roof Truss as per IS code requirements & analyze and design axially loaded tension member made up of angle section, strut made up of angle section, axially loaded column.
	Diploma in Civil Engineering	1CI 2502-CONCRETE TECHNOLOGY	1.Evaluate physical properties of cement sand and aggregates. 2. Describe proper method for making and curing of concrete. 3. Measure important properties of fresh and hardened cement concrete including NDT and Design concrete Mix as per IS method. 4. Explain properties of various types of Admixtures and their utility and Explain various types of special concrete and their use
	Diploma in Civil Engineering	1CI 2503-WATER SUPPLY & SANITARY ENGINEERING	1. To identify and recognize the potential sources of water. 2. To devise cost effective water collection and distribution systems. 3. To undertake the laboratory experiments for assessing water quality. 4. To understand the principles of water treatment and design treatment units and Prepare lay out plan and maintain water distribution and sewer-networks.

Diploma in Civil Engineering	1CI 2504-QUANTITY SURVEY & COSTING	1.Familiar with basic knowledge required for preparing an estimate. 2. Standard specifications for various Civil engineering items. 3. Types of approximate estimates and its methods. 4. Analyse the rates of civil engineering works of Civil engineering items and Prepare detailed estimates for civil works like one/two room Res. Building, S.T./ S.W. / Various roads & Steel roof truss etc.
Diploma in Civil Engineering	1CI 2505-ADVANCED CONSTRUCTION TECHNOLOGY	1.Students will be able to describe, analyze, compare and evaluate the technology of high-rise Construction. 2. Discuss purpose, types, materials, design issues, and erection of temporary structures for construction Activities. 3. Propose and evaluate alternative construction systems and methods in response to given building performance requirements. 4. Describe equipment and tackles used, problems encountered and their solutions in erection of steel Structures and compare alternative solutions in building construction technologies.
Diploma in Civil Engineering	1CI 2508-PROJECT - I (INDUSTRY BASED)	Solve the problem arise in field through site team effort. 2. Improve ability to collect survey data ref. to their technical grasping knowledge. 3. Planning and execute work with well managed scheduling and Get better responds to analyse real problem through their well experiences of executed work. 4. Regulate the lagging or delay of work with concept of subject CPM and Based on work experience, they become able to make decision to summarised actual problem.
Diploma in Civil Engineering	1CI 2601-DESIGN OF R.C.C. STRUCTURE	1.Application of different specifications of IS -456-2016 For design and ability to understand the design Philosophy. 2. Ability to analyze the design of RC Beams and slab based on guidelines given in IS 456 2016. 3. Analysis and design of slab and staircase for Different Support Conditions. 4. To Understand design flexure members for different Support Condition & Analyze and design RC Columns and footing.
Diploma in Civil Engineering	1CI 2602-QUALITY CONTROL & MONITORING	1.Learn the fundamentals of quality management for construction projects, including quality assurance, quality control, and quality function deployment through the development of a project quality management plan. 2. Learn to apply basic principles of quality management for construction projects. 3. Check the quality in civil construction works

	Diploma in Civil Engineering		4. Identify the variations in quality of civil works & Use of various standard codes in civil construction works.
	Diploma in Civil Engineering	1CI 2603-CONSTRUCTION PROJECT MANAGEMENT	1.Explain construction management functions, various organisation structures and duties Of various construction team. 2. Explain construction contracts and tendering process. 3. Develop the CPM and PERT network of various construction activities. 4. Develop skills to manage various construction resources like material, labour and equipment & show professional ethics and concern for safety during various construction works.
	Diploma in Civil Engineering	1CI 2604-QUANTITY SURVEY & VALUATION	1.Familiar with basic knowledge about rules for preparing approximate and detailed estimate. 2. Implements of Standard specifications for various Civil engineering items execution. 3. Important of Rate analysis, Task work, Market rate, and Labour rate to evaluate cost of various items. 4. Prepare detailed estimates for civil works like R.C.C. lintel -Chajja, Beam, Slab, Column, RW and Culvert & Evaluate present cost of existing structures and open land property.
	Diploma in Civil Engineering	1CI 2605-BUILDING SERVICES	1. Manage building services provisions in big construction sites 2. Identify the building services for the requisite functional requirement. 3. Synchronize the construction activities with installation of building services. 4. Ensure green building applications to the new constructions & execute the relevant system for lighting, ventilation and acoustics for building.
	Diploma in Civil Engineering	1CI 2608-PROJECT - II	1.Solve the problem arise in field through site team effort. 2. Develop the concept of minimizing cost consideration of the project. 3. Assess the financial implication and feasibility of the scheme 4. Capable to scrutinize significance of survey data and investigation of project.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2302PROGRAMMING IN C++	1.Developed programs relating object-oriented concepts to implement object oriented programs in C++,class, encapsulation,inheritance and polymorphism, Constructor, Destructor. 2. taking presentation on OOP concepts
	Diploma in Computer Engineering Diploma in Information Technology	DATABASE MANAGEMENT SYSTEM	1. Creating database using DDL and DML commands and performing various queries on it 2. Making database designs, database models 3. constructing the ER diagram.

	Diploma in Computer Engineering Diploma in Information Technology	1CE2303-DATA STRUCTURE	1. taking Presentation on stacks,queues,lists,trees and graphs. 2. creating programs to understand Linked list to demonstrate how data are stored. 3. group discussion on searching and sorting techniques
	Diploma in Computer Engineering Diploma in Information Technology	1CE2305-MICROPROCESSOR & ASSEMBLY LANGUAGE PROGRAMMING	1. Discussion concepts of microprocessor. 2. Presentation on microprocessor architecture. 3. creating programs related to assembly language instruction set. 4. To develop assembly language programming skill.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2301-OPERATING SYSTEM	1. discussion on various types of OS. 2. presentation on various concepts like process management, file management and memory management. 3. developing and executing t of Linux command and Shell script.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2401-ADVANCED DATABASE MANAGEMENT SYSTEM	1. discussion on normalization in database design. 2. creating PL/SQL Blocks and cursor. 3..Implement and create various database objects.
	Diploma in Computer Engineering	1CE2402-COMPUTER NETWORK	1.Discussion on computer network technology. 2. Discussion on OSI ref model. 3.Presentation on TCP/IP networking, addressing scheme and subnetting. 4. learning network troubleshooting procedure and perform troubleshooting commands.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2405-COMPUTER SYSTEM ARCHITECTURE	1. perform data transfer and micro-operation in computer systems. 2. draw flowchart of instruction and interrupt cycle. 3. Presentation on computer instruction set. 4. learn to Identify various types of memory in computers.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2406-WEB DESIGNING WITH CSS FRAMEWORK	1.design a website using various technologies. 2.learning process of applying Bootstrap to a webpage.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2403-FUNDAMENTAL OF SOFTWARE DESIGN	1. Discussion on Software development approach to manage software. 2. debate on SDLC to develop Software. 3. Creating a SRS for any software

	Diploma in Computer Engineering	1CE2404-GUI BASE APPLICATION DEVELOPMENT	1. Discussion on framework of .net. 2. development of console applications. 3. Development of basic forms and controls which is used for making windows applications.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2501 - Computer Peripherals & Troubleshooting	1 Install, configure and maintain various components in computer system and peripheral devices. 2 Diagnose faults, repair and maintain computer system and its peripherals. 3 Install, configure Operating Systems and device drivers.
	Diploma in Computer Engineering Diploma in Information Technology	1IT2501-NETWORK SECURITY	1. Identify and describe the common types of security threats and risks to the Computer Systems. 2. Identify the potential threats to Security Services like confidentiality, integrity and availability. 3. Describe the working of standard security mechanisms and applied to the external and internal network. 4. Define cryptography, describe the elements of the encryption process and select best algorithm to encrypt data and protocols to achieve Computer Security. 5. Apply accepted security policies; procedures are necessary to secure Operating Systems and applications.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2503- JAVA PROGRAMMING	1 Explain object-oriented programming concepts of java. 2 Comprehend building blocks of OOPs language, inheritance, package and interfaces. 3 Identify exception handling methods. 4 Develop multithreading object-oriented programs. 5 Develop an object-oriented program handling data file.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2504- DATA MINING AND WAREHOUSING	1. To understand the concept of Data Mining & its attributes 2. To apply the concept of data mining components and techniques in designing data mining systems 3.To Learn how to pre-process data before applying data mining techniques 4. Able to Choose the data-mining task (classification, regression, clustering, Association Rules etc.) 5. Install and Configure WEKA Tool

Diploma in Computer Engineering Diploma in Information Technology	1CE2505- Network Management & Administration	1 Analyse the requirements for a given organizational structure and select the most appropriate networking architecture and technologies. 2 Install, configure and manage enterprise systems/networks, including hardware/software. 3 Implement and configure active directory. 4 Create user/group accounts and configure server roles. 5 Administer permissions for users, files and network resources. 6 Use group policies to configure and secure the network. 7 Maintain and troubleshoot enterprise networks.
Diploma in Computer Engineering Diploma in Information Technology	1CE2506-PROJECT-1	1 Develop an application using different technology 2 Learn how to work in a team. 3 Think and apply new ideas in developing a project.
Diploma in Computer Engineering	1CE2502- Web programming Using PHP	1. To understand the concepts, structure and design of PHP. 2. To understand the Looping and Control structure of PHP 3. To understand the knowledge of user defined function and different form of array 4. To understand the flow of data between the pages and how to access the value of different form elements. 5. To understand different way to sto
Diploma in Information Technology	1IT2503 - Computer Graphics & Multimedia	1. To understand the basics of various inputs and output computer graphics hardware devices as well as the course will offers an in-depth exploration of fundamental concepts in 2D graphics. 2. To apply, implement and develop programs of transformations on various images. 3. To understand audio and video concepts.
Diploma in Computer Engineering Diploma in Information Technology	1IT2502- Python Programming	1 Describe the core syntax and semantics of Python programming language. 2 Students must be able to understand and write basic python program. 3 Apply a solution clearly and accurately in a program using Python. 4 Apply the best features of mathematics, engineering and natural sciences to program real life problems
Diploma in Computer Engineering Diploma in Information Technology	1CE2601- Digital Marketing	1 Illustrate the role and importance of digital marketing in a rapidly changing business landscape. 2 Discussed the key elements of a digital marketing strategy 3 Illustrate how the effectiveness of a digital marketing campaign can be measured. 4 Demonstrate advanced practical skills in common digital marketing tools such as SEO, SEM, Email Marketing and Mobile Marketing

Diploma in Computer Engineering Diploma in Information Technology	1CE2602 - Cloud Computing	1 Understand the hardware, software concepts and architecture of cloud computing. 2 Realize the importance of Cloud Virtualization, Abstractions and Enabling Technologies. 3 Explore the Programming for Applications on Cloud.	
Diploma in Computer Engineering Diploma in Information Technology	1CE2603 - Android Programming	1. To understand Android activities life cycle. 2. To develop operations on GUI objects. 3. To implement Event driven programming. 4. To apply various techniques on working with menu.	
Diploma in Computer Engineering Diploma in Information Technology	1CE2604 - Machine Learning	1 Basic knowledge about Artificial Neural Network. 2 Brief Knowledge about what is machine learning. 3 To know about machine learning algorithms and classifiers. 4 Knowledge about Python packages suitable for machine learning.	
Diploma in Computer Engineering Diploma in Information Technology	1CE2605 - Linux Administration	1. Access the command line and Manage files from command line 2 Create, view, and edit text files and Manage local users and groups 3 Monitor and manage Linux processes and Control services and daemons 4 Control access to files with file system permissions and Configure and secure the OpenSSH service 5 Manage Linux networking	
Diploma in Computer Engineering Diploma in Information Technology	1CE2606-PROJECT - II	1.Develop an application using different technology 2 Learn how to work in a team. 3 Think and apply new ideas in developing a project.	
Diploma in Computer Engineering Diploma in Information Technology	1IT2601 - INTERNET OF THINGS (IOT)	1. To understand IOT architectures, characteristics and design 2. To understand Arduino architecture and able to build devices using it 3. To build sensing device using Arduino architecture 4. To understand raspberry pi devices and its architecture 5. To build device using raspberry pi interface	
Diploma in Electrical Engineering	1EE2301-AC CIRCUITS	1. Activity to check the behaviour of basic parameters when they connected in series as well as parallel. 2. Activity to prepare three phase star and delta connection. 3. Activity to measure power in AC circuits.	
Diploma in Electrical Engineering	1EE2305-ELECTRONIC COMPONENTS AND CIRCUITS	1. Activity to test the electronic components. 2. Activity to use solid state devices. 3. Activity to prepare different electronic circuits as per requirement..	
Diploma in Electrical Engineering	1EE2304-ELECTRICAL INSTRUMENTS	1.Activity to use proper instruments for proper application. 2. Activity to calibrate and maintain different types of electrical instrumentation systems.	

	Diploma in Electrical Engineering	1EE2302-ELECTRICAL MACHINES - I	1. Activity to operate different electrical machines as per standard. . 2. Activity to prepare testing reports for electrical machines.
	Diploma in Electrical Engineering	1EE2303-ELECTRICAL POWER GENERATION	1. Activity to prepare the model of different power stations. 2. Activity to use modern technologies for renewable power generation. 3. Activity to check the effect of various power plants on ecology/environment.
	Diploma in Electrical Engineering	1EE2405-COMPUTER AIDED DRAFTING AND ELECTRICAL DRAWING	1. Use of latest technology in designing of electrical circuits. 2. Simulation using software.
	Diploma in Electrical Engineering	1EE2404-DIGITAL ELECTRONICS AND DIGITAL INSTRUMENTS	1. Activity to use number systems and inter conversion for particular application 2. Activity to prepare digital circuits using logic gates. 3. Activity to use the latest digital instruments for particular applications.
	Diploma in Electrical Engineering	1EE2403-ELECTRICAL ENERGY UTILIZATION	1. Development of energy saving equipments 2. Development in LED and their use in particular applications 3..Development domestic electrical appliances.
	Diploma in Electrical Engineering	1EE2401-ELECTRICAL MACHINES - II	1. Activity to operate different electrical machines as per standard. . 2. Activity to prepare testing reports for electrical machines.
	Diploma in Electrical Engineering	1EE2402-TRANSMISSION AND DISTRIBUTION OF ELECTRICAL POWER	1. Recent development in transmission and distribution system-O.H and U.G. 2. Modern technology for transmission and distribution of electrical power. 3. New skills to reduce T & D losses in power system.
	Diploma in Information Technology	1IT2401-DATA COMMUNICATION AND NETWORK	1. Understanding what data communication is and networking. 2. Understand OSI and TCP/IP model 3. Describe the different kinds of signals, frequency. 4. Identify the importance of ADC and DAC. 5. To understand the use of AM, FM, TDM and multiplexing application. 6. Importance of transmission media in data communication.

		Diploma in Information Technology	1IT2402-PHP & MYSQL	1. To understand the concepts, structure and design of PHP. 2. To understand the Looping and Control structure of PHP 3. To understand the knowledge of user defined function and different form of array 4. To understand the flow of data between the pages and how to access the value of different form elements. 5. To understand different way to store the user data by the server. 6. To understand MySQL database
		Diploma in Mechanical Engineering	1ME2301-METAL CASTING, FORMING & JOINING PROCESSES	1. Acquiring technical skills in foundry and welding shops. 2. Activities that create welding and soldering skills in Students . 3. Students create skills to understand, create and interpret production drawing. 4. Practices of metal forming processes like rolling, forging ,drawing ,extrusion 5. Develop production skills .
		Diploma in Mechanical Engineering	1ME2302– THERMODYNAMICS	1. Quiz, Viva-Voce, Presentation, CaseDiscussion, Simulation 2. Written Test,Academic Writing 3. Students may be given a few exercises to prepare models and charts of different thermodynamics Systems and cycles. 2. Students may be asked to collect photographs from the internet which is related to thermodynamic cycle,systems and laws.
		Diploma in Mechanical Engineering	1ME2303-FLUID MECHANICS AND MACHINERY	1.Quiz, Viva-Voce, Presentation, Case Discussion, Simulation to understand fluid properties, fluid flow patterns and flow through pipes in real flow situations. 2.Student perform laboratory experiments for understanding of dynamics of fluid in industrial application 2. To apply and explain fluid equations in simple industrial situations. 3. Academic Writing for understanding of hydraulic machines generally used in industries. 4. To implement with the aim to develop different types of skills to select, operate and maintain fluid machineries based on fluid laws and characteristics. students to develop skill at interpreting applying and explaining fluid equations in simple industrial situations. 5. Hydraulic engineering will help student to understand physical properties of fluid and it develop the understanding of Pressure-density-height relationships, Manometers ,Venturi-meter, orifices, mouth pieces, Pitot

			tubes, Sluice that would be helpful to hydraulic project.
	Diploma in Mechanical Engineering	1ME2304-STRENGTH OF MATERIALS	1. Employability enhancement by introducing students to fundamentals like Analysis of Stress and Strain. 2. Perform experiments that imparts practical knowledge including the different test like tensile test , hardness test etc. This also enable the student to determine the Tensile and compressive strength ultimate shear strength of structure. 3. This course imparts Problem Solving Skills in the students and is crafted to help the students in identifying the best solution for a given problem.(shear force and bending moment,stress,,material property related problems) 4. This course imparts Problem Solving Skills in the students and is crafted to help the students in identifying the best solution for a given problem related with finding safe dimension of machine component due to direct and lateral loading and deflection , haft under statics loads & Twisting moments,centroid and moment of inertia.
	Diploma in Mechanical Engineering	1ME2305-PLANT MAINTENANCE AND SAFETY	1. Activities that Develop skill related with fault finding in mechanical elements. 2. Practicals related with Assemble, dismantle and align mechanisms in sequential order. 3. Carry out activity related with plant maintenance using tribology, corrosion and preventive maintenance. 4. Students have to perform Laboratory experiments related with machine and machinery maintenance keeping in all kind safety and precautions.

Diploma in Mechanical Engineering	1ME2306-DRAFTING APPLICATION	1. Hands on practice on AutoCAD. 2. Students create skills to understand, create and interpret production drawings. 3. Creation and modification of production drawing using various CAD software drawing and modify commands. 4. Inspect drawing with dimension tools. 5. Exercise for practice to plot drawing on a standard paper sheet with scale.
Diploma in Mechanical Engineering	1ME2401-MANUFACTURING ENGINEERING - II	1. Acquiring technical skills in machine shops and shop floor related to production and measurement. 2. Perform practical that develop skill to Operate and maintain machining centers like lathes, milling machine, drilling machine, shaper, planer, grinding machine etc. 3. Prepare jobs that create the ability to convert the engineering drawing into production drawing and prepare a job as per drawing. 4. To implement with the aim to develop different types of skills to select tools and cutting parameters for given job.
Diploma in Mechanical Engineering	1ME2402-THERMAL ENGINEERING-I	1. Perform Activities and practical so Students are able to understand the Concept of Boiler and its types, Heat balance sheet, Condenser, Cooling Tower, Evaporator,Steam turbine Which is very very important for operating and maintaining Thermal Power plant. 2.Academic writing,quiz and discussion So Students also learnt Air compressor it's types, application which is useful for air compressor manufacturing. Industry 3.Students also learnt Modes of heat transfer, Types of Heat exchanger which is Very important for Thermal power plant, Refineries, oil and gas field etc.
Diploma in Mechanical Engineering	1ME2403-THEORY OF MACHINES	1. Activity to make the student conversant with commonly used mechanisms for industrial application and Identify mechanisms in real life applications. 2.This course imparts Problem Solving Skills in the students and is crafted to help the students in identifying the best solution for a given problem related with kinematic analysis of simple mechanisms like velocity and acceleration analysis. 3. Be proficient in the use of mathematical methods to analyse the forces and motion of simple systems of linkages, gears and cams.

			4.Activities and exercise that Develop skill related analytical competency in solving problems related with friction in bearing, clutch, brakes etc. and power transmission. 5.Students may be given a few exercises to prepare models and charts of different mechanisms and their inversion.
	Diploma in Mechanical Engineering	1ME2404-COMPUTER AIDED DESIGN	1.Hands of practice using CAD software so students can create 2D and 3D drawing. 2. Exercise which imparts modeling skills to create Assembly and detail drawing 3. Mechanism study (motion analysis) 4.Student develop skill to derive various mass properties like centre of gravity,density from 3D model. 5.students know how to create bill of material from parts and assembly modeling for further estimation and costing and production planning and control. 6. Activities and use of tools to make students understand the basics of information regarding selection of configuration of CAD workstation and type of modelling technique for given part.
	Diploma in Mechanical Engineering	1ME2405-METROLOGY & INSTRUMENTATION	1.Employblity enhancement by introducing students to fundamentals understanding of inspection and quality control. 2. The course emphasized on the Skill development by imparting Knowledge on Measurement of the given mechanical elements and assemblies using linear and angular analog/digital measuring instruments. 3. Activities like surface roughness checking,Check geometrical accuracy for a given application.measuring various important dimensions of thread forms and gears will help students acquire skills to boost their carrier in production and manufacturing industry. 4.Able to measure different mechanical quantities and parameters ,dimension by means of different approaches like non destructivetesting methods/ ways. and instruments like gauges ,sensors and transducers.
	Diploma in PetroChemical Technology	1PCT2304-ELECTRICAL AND ELECTRONICS ENGINEERING	1. Done practicalsof electric and magnetic circuits 2. various basic theories of transformer and its use in electrical and electronics instruments. 3. Measured current, voltage, watt with various measuring instruments
	Diploma in PetroChemical Technology	1PCT2305-ENVIRONMENTAL STUDIES	1. Activities done regarding reduce the atmospheric pollution. 2. Done plantation of trees.
	Diploma in PetroChemical	1PCT2302-GENERAL	1. Students prepared different types of solutions and also

	Diploma in PetroChemical Technology	CHEMICAL TECHNOLOGY-I	found unknown chemical compounds with different tests.
	Diploma in PetroChemical Technology	1PCT2303-HEAT TRANSFER OPERATION	1. Done practicals on Modes of heat transfer. 2. Derive equations of steady state heat transfer through wall, cylinder and sphere. 3. Also Calculate radiation based on radiation laws.
	Diploma in PetroChemical Technology	1PCT2301-PETROCHEMICAL TECHNOLOGY	1. Students prepared demo models of refinery plant. 2. Performed different practical tests of crude oil. 3. Done activities on Petroleum Products and made different products.
	Diploma in PetroChemical Technology	1PCT2403-DRILLING ENGINEERING	1 Got basic knowledge about drilling techniques for crude. 2. Students made a model of a drilling rig. 3. Understood the skill for waste management.
	Diploma in PetroChemical Technology	1PCT2405-FLUID FLOW OPERATION	1. Done practicals of hydrostatics, hydrodynamics and their applications in handling various fluids like gases, vapors, liquids and slurries are provided in this course which is required for smooth and proper operation of fluid transportations machineries. 2. Demonstrated pumps, blowers and compressors for determined and friction losses through pipes and fittings can also be calculated.
	Diploma in PetroChemical Technology	1PCT2404-GENERAL CHEMICAL TECHNOLOGY II	1. Got knowledge of Inorganic chemical industries. 2. Seen videos of Caustic soda & choler alkali industries, Industrial gases & Natural product industries. 3. Identified, formulated, and analyzed complex engineering problems reaching substantiated conclusions.
	Diploma in PetroChemical Technology	1PCT2402-NATURAL GAS PROCESSING	1. Understood the total process of natural gas with videos. 2. Got knowledge of the city gas distribution system with a model. 3. Got information on transportation and marketing of natural gas.
	Diploma in PetroChemical Technology	1PCT2401-PETROLEUM REFINING ENGINEERING	1. Seen different types of Distillation units with videos. 2. Got the knowledge of techniques used for fractionations. 3. Prepared model of Distillation column.
	Diploma in PetroChemical Technology	1PCT2406-SUMMER INTERNSHIP	1. addressed specific industry and research related problems. 2. Got knowledge for a practical job. 3. Done industrial work.
	Diploma in PetroChemical Technology	1PCT2501-Fertilizer Technology	1. made natural fertilizer 2. Got knowledge the Potassic Fertilizers and Bio Fertilizer
	Diploma in PetroChemical Technology	1PCT2502-Pipeline Engineering	1. 1.Got knowledge about Pipeline drawing and Pipeline specification 2. 2.Seen practical videos of cathodic protection of pipeline

	Diploma in PetroChemical Technology	1PCT2503- Stoichiometry	1. 1.Knew about Chemical and physical principles of Stoichiometric 2. 2.Understood of the Dalton's law, vapour composition in gas mixture 3. 3. Done calculations of Dimension
	Diploma in PetroChemical Technology	1PCT2504- Chemical Reaction Engineering & Kinetics	1.Knew about of kinetics and classification of chemical reactions 2.Done practicals of different types of reactors 3. Seen industrial reactors working videos
	Diploma in PetroChemical Technology	1PCT2505-Health Environment & Safety	1.Done practicals of turbidity of liquid 2.got practical knowledge of fire safety by live practicals 3.knew about pollutions.
	Diploma in PetroChemical Technology	1PCT2601-LNG Value Chain	1.knew about gas transportation 2.seen videos of liquefaction of gases 3.Got knowledge regarding storage vessels of gases
	Diploma in PetroChemical Technology	1PCT2602-Polymer Technology & Processing	1.Seen videos of manufacturing of different types of polymers 2.Done practicals of polymers products 3. Got knowledge of polymer uses and reuse
	Diploma in PetroChemical Technology	1PCT2603-Instrumentation & Process Control	1. Knew about Measurement of temperature, Viscosity, Static & dynamic characteristics, bimetallic, thermocouples 2.Seen videos of measuring instruments of these and Got knowledge of how can they use
	Diploma in PetroChemical Technology	1PCT2604-CHEMICAL ENGINEERING THERMODYNAMICS	1. 1.Knew about numerical on first law, First law of thermodynamics, Enthalpy & Heat capacity 2. 2.Done practicals of thermodynamics 3. 3.Got practical industrial knowledge of thermodynamics by watching videos.
	Diploma in PetroChemical Technology	1PCT2605-Entrepreneurship development and Management	1.Understood of Entrepreneurial Support System 2.Got knowledge regarding Managerial Aspects of Small Business 3. Got practical knowledge of Project Report Preparation
	Diploma Engineering (All)	1BS122 CHEMISTRY	1. Teacher guided self learning activities. 2. Course/topic based internet based assignments. 3. Library survey regarding Engineering Material used in different industries. 4. Industrial Visits of one or Two Industries. 5. Quiz & Brain storming session related to Polymeric materials. 6. Sampling & Testing of water collected from different places.

	Diploma in BioMedical Engineering	1ES212 - ANATOMY & PHYSIOLOGY-I	1. Students may be given few exercises to prepare model and charts of different Systems. 2. Student may be asked to collect photograph from the internet which is related to anatomical structures of different systems
	Diploma in Electrical Engineering	1ES108 BASIC ELECTRICAL & ELECTRONICS ENGINEERING	1. Measure different electric parameter through the multiparameter in surrounding components 2. Industrial visit 3. Find transformer in different electronic components
	Diploma in Electrical Engineering	1ES104 SOFTWARE TOOLS	1. Use Matlab as a calculator 2. Give some exercise for different arithmetic and logical operation
	Diploma in Mechanical Engineering	1ME2501-DESIGN OF MACHINE ELEMENTS	1.To know different failures and to determine the value of resisting areas of machine elements. 2. Able to use preferred numbers and standardization to select element/element dimension. 3.Design machine element subjected to various stress such as Direct stresses, Bending stresses, Twisting stresses and Combined bending and direct stress. 4. Design of various types of pressure vessel. 5.Awarefor selection of various bearing for different application and make calculation of important bearing characteristics.
	Diploma in Mechanical Engineering	1ME2502-MACHINE TOOL TECHNOLOGY	1.Explain working of grinding, super finishing, gear cutting, broaching, threading, nonconventional machining and advance machining methods with kinematics systems of each element. 2.Interpret designation system / method of cutting tools and tool holders used on machine tools. 3.Select appropriate cutting tools, work holding devices and cutting parameters for the given work piece. 4.Set the machine and mount the job, cutting tools and tool holders correctly. 5. Developing the skill of manufacturing. Ability to convert the engineering drawing into production drawing.
	Diploma in Mechanical Engineering	1ME2503-INDUSTRIAL ENGINEERING	1. Improve productivity using work study and method study techniques. 2. Analyze work content and calculate standard time in a given situation. 3. Apply Statistical Quality Control tools in a given situation. 4. Apply Ergonomics for human comfort at work place 5. Appreciate the emerging trends in industrial engineering

	Diploma in Mechanical Engineering	1ME2504-ESTIMATING COSTING AND CONTRACTING	1.Calculate material cost of given component/product. 2. Identify and estimate elements of cost in various processes. 3. Perform break even analysis to calculate break even quantity. 4.Investigate the problem of cost and suggest their solution using cost reduction techniques. 5.Interpret given model of balance sheet and profit loss account.
	Diploma in Mechanical Engineering	1ME2505-THERMAL ENGINEERING-II	1. To Understand the performance of ICEs by operating them and observing changes in thermodynamic properties during each stroke of ICEs. 2. Analyse the performance of Vapour Compression Refrigeration System (VCRS), by operating them and observing the changes in properties of refrigerant during each process on VCRS (and using thermodynamic charts/diagrams.) 3.Explain working of various air-conditioning equipments, ducts and fans. 4.Identify the elements of gas turbines.
	Diploma in Mechanical Engineering	1ME2506-PROJECT-1	1.Selection of project compatible to existing needs and market. Encourage innovativeness which leads to enhance creativity. To develop a think tank which fulfill the ecofriendly environment 2. Selection of economical material to build parts by various methods of manufacturing 3. Design the products using CAD software by deriving details and assembly drawings. 4. To formulate a project report using standard format and specification. 5. To develop entrepreneur skill at this level
	Diploma in Mechanical Engineering	1ME2601-COMPUTER AIDED MANUFACTURING	1. Identify different axes, machine zero, home position, controls and features of CNC machines. 2. Select, mount and set cutting tools and tool holders on CNC. 3. Prepare part programmes using ISO format for given simple components with and without use of MACRO, CANNED CYCLE and SUBROUTINE using ISO format. 4. Interface software application for auto part programming. 5. Students will select layouts of FMS for industrial applications.

	Diploma in Mechanical Engineering	1ME2602-TOOL ENGINEERING	1.To understand the importance of tool engineering as a link between design and manufacturing, its functioning and to select proper cutting tool/tool geometry as per need of operation and to re-sharpen it for long tool life. 2. To select and design appropriate and accurate location and restrict all degrees of freedom while machining operation to any component. 3. To provide devices to the manufacturing domain which leads to ease in performing various drilling and other machining operation in batch/mass production and fulfil other important aspects like maintaining interchangeability, accuracy, repeatability, quick set-ups and change over time and reduce operator's physical and mental fatigue in an economical domain. 4.To understands designing complexities and other important aspects of cutting dies through case study of a simple configured component. 5. To gain the knowledge of principles, working and design terminologies of various sheet metal forming dies, drawing dies, forging dies and other special forming dies for many industrial applications.
	Diploma in Mechanical Engineering	1ME2603-HYDRAULIC AND PNEUMATICS	1. Differentiate hydraulic and pneumatic fluid based systems. 2. Select and operate various hydraulic and pneumatic elements. 3. Operate and maintain hydraulic and pneumatic circuits. 4. Operate and maintain various devices based on hydraulic and/or pneumatics. 5. Operate and maintain hydro-pneumatics circuit diagrams for given applications
	Diploma in Mechanical Engineering	1ME2607-FABRICATION TECHNOLOGY	1. To understand need Welding Technology in mechanical engineering. 2. To apply the drawing skill to convert in to production drawing. 3. To develop Fabrication skill. 4. To implements theory skill in to production. 5. To Verify practical model with industrial machinery.

	Diploma in Mechanical Engineering	1ME2608-PROJECT-II	1. To learn selection and procurement of required material and choose appropriate manufacturing processes and techniques to actually fabricate the planned parts and assembly manufacturing 2. To enhance team work by sharing innovative ideas compatible to recent needs and technological advancement. 3. To create responsibility towards ecofriendly environment 4. To develop ability of manufacturing qualitative product 5. To manufacture all the components of subassemblies and assemble the product as per design and make proper presentation with necessary modification in project report.
	Diploma in Electrical Engineering	1EE2501 ENERGY MANAGEMENT & AUDIT	1.Implement energy conservation techniques in electrical machines. 2.Evaluate the techno economic feasibility of the energy conservation technique adopted. 3.Use Co-generation and relevant tariff for reducing losses in facilities.
	Diploma in Electrical Engineering	1EE2502 POWER ELECTRONICS	1. Use power semiconductor devices in different applications. 2. Maintain SCR Protection and Commutating Circuits. 3. Troubleshoot chopper circuits.
	Diploma in Electrical Engineering	1EE2503 MICROPROCESOR AND CONTROLLER APPLICATION	1.Distinguish Micro processors, microcontrollers and PLC based control systems. 2.Maintain microprocessor-based systems. 3.Maintain microcontroller-based systems.
	Diploma in Electrical Engineering	1EE2504 ELECTRIC TRACTION & CONTROL	1. Distinguish different traction systems and latest trends in traction systems. 2. Differentiate services of traction system based on speed time curve. 3. Control different types of traction motors
	Diploma in Electrical Engineering	1EE2506 PROJECT-I	1. Modelling and analysis of the proposed solution. 2. Simulate, Design and debugging of the circuit. 3.Develop program logic of the proposed solution
	Diploma in Electrical Engineering	1EE2601 SWITCHGEAR & PROTECTION	1. Identify various types of faults in Power system 2. Explain working of different types of circuit breakers in power system. 3. Explain working of different types of relays in power

			system.
	Diploma in Electrical Engineering	1EE2602 COMMISSIONING, TESTING AND MAINTENANCE	1.Unload the electrical equipment's/machines based on scientific procedure 2.Commission various electrical equipment/machines 3.Prepare maintenance schedule of different equipment and machines 4.Prepare trouble shooting chart for various electrical equipment, machines and domestic appliances
	Diploma in Electrical Engineering	1EE2603 ELECTRICAL WIRING, ESTIMATING, COASTING AND CONTRACTING	1. Prepare an estimate of quantity and cost of the material for a electrical project following IE Act-2003. 2. Prepare detail estimate and costing of Residential and commercial Electrical Installation following IE Act-2003. 3. Test Residential, commercial and Industrial Electrical Installation following IE Act-2003.
	Diploma in Electrical Engineering	1EE2606 WIND & SOLAR ENERGY	1.Maintain constant speed wind power plants. 2.Maintain variable speed wind power plants. 3.Maintain concentrated solar power (CSP) and solar photovoltaic (PV) wind power plants,
	Diploma in Electrical Engineering	1EE2607 PROJECT-II	1.Simulate, Design and debugging of the circuit. 2.Develop program logic of the proposedsolution 3.Locate the problem andtroubleshoot.
	Diploma in Biomedical Engineering	1BM2301-Analog Integrated Electronics	1. Understand the basics of IC's with its types. 2. Develop the understanding of Op-amp construction and different modes of working. 3. Use and understand Op-amp for different applications including medical field.
	Diploma in Biomedical Engineering	1BM2302- Anatomy & Physiology-II	1. Students will enable themselves for the investigative study of anatomical Structures and their functions required for Biomedical Engineers. 2. Develop the understanding of the human anatomy and physiology for biomedical engineering. 3. Students will understand the basics of system level organization of human body.

	Diploma in Biomedical Engineering	1BM2303- Basics of Transducers	1. Develop the understanding of the various Transducers. 2. Students will understand basic principle and working of Transducers. 3. The course contents will enable the students to understand and design biomedical Transducers. 4. Identify and describe various biomedical diagnostic instruments.
	Diploma in Biomedical Engineering	1BM2304-Biomaterials	1. Describe interactions between biomaterials, proteins and cells. 2. Describe material properties of metallic, polymer and ceramic materials used as implants. 3. Able to select a type of material for different medical applications.
	Diploma in Biomedical Engineering	1BM2305- Entrepreneurship Development	1. Appreciate role of intrapreneurs and entrepreneurs in society. 2. Develop passion, creativity, initiative, independent decision making, calculated risk taking, assertiveness, persuasion, persistence, information seeking, commitment to work contract. 3. Innovate, prototypes or ideas by applying theory into practice. 4. Explain process of setting up of service unit/industry. 5. Describe about support institutions and schemes. 6. Develop and complete a comprehensive business plan.
	Diploma in Biomedical Engineering	1BM2306-Software Simulation	1. Utilization of MATLAB effectively to analyze and visualize data. 2. Able to create and control simple plot and multiple plots. 3. Apply numeric techniques and computer simulations to solve problems.
	Diploma in Biomedical Engineering	1BM2401- Digital Circuit Theory	1. Convert from one code to other. 2. Write the Boolean expression for a logic circuit. 3. Design combinational and sequential digital circuit.
	Diploma in Biomedical Engineering	1BM2402-Electronic Instrumentation and Recorders	1. Understand the basics of Instrumentation and measurement system. 2. Develop the ability to use Multimeter, CRO and function generator for measurement of various electronic parameters. 3. Gain ability to select various types of Bridges and recorders for measurement purpose

	Diploma in Biomedical Engineering	1BM2403- Diagnostic Instrumentation	1. Identify and describe various biomedical diagnostic instruments. 2. Maintain different types of biomedical recorders. 3. Understand the patient monitoring instruments and patient safety. 4. Able to use pulmonary function analyzers.
	Diploma in Biomedical Engineering	1BM2404 - Analytical Instrumentation	1. Develop the understanding of the Analytical Instruments used in hospitals. 2. The course content will enable the students to understand pathophysiological analysis in clinical department of hospital. 3. Understanding basic principles and working of the colorimeter, spectrophotometers, and absorption instruments.
	Diploma in Biomedical Engineering	1BM2405-Hospital Management	1. Identify various areas of hospitals. 2. Discuss about critical care departments of hospital like ICCU, ICU and activities of Central Sterile Supply Department. 3. Discuss about effective hospital management
	Diploma in Biomedical Engineering	1BM2406-Seminar	1. Develop Communication skill 2. Students can learn Presentation skill.
BSPP	Diploma in Automobile Engineering	1AU2301-AUTOMOBILE ENGINE	1.Students can learn overhauling of I.C. Engine. 2. From this subject students are able to service engines and able to find out Minor Troubles related to Engine
	Diploma in Automobile Engineering	1AU2302-AUTOMOBILE TRANSMISSION AND MECHANISM	1.Overhauling of Gear box 2.Clutch system overhauling and inspection 3.Students able to do Wheel Balancing and wheel alignments procedure
	Diploma in Automobile Engineering	1AU2303-AUTOMOBILE ELECTRICAL SYSTEM AND ELECTROMOBILE	1.Students able to do Battery test 2.Students may able to do ignition test and set ignition timing
	Diploma in Automobile Engineering	1AU2304-FUEL & LUBRICANTS	1.Students may learn about different Lubrication oils 2.Basic Viscosity test for different for Different liquids
	Diploma in Automobile Engineering	1AU2305-AUTOMOBILE COMPONENT DESIGN	1.Students may learn and analyse different design of engine and transmission Components
	Diploma in Automobile Engineering	1AU2306-AUTOMOBILE POLLUTION CONTROL ENGINEERING	1.Students able to understand of various pollution norms. 2.Service and repair various emission control systems like EGR and Catalytic converter.
	Diploma in Automobile Engineering	1AU2401-VEHICLE BODY ENGINEERING	1.Minor and major Automobile Body repair techniques like denting hammering with use of Dolly, dent pullers,hammers etc.
	Diploma in Automobile Engineering	1AU2402-VEHICLE KINEMATICS &DYNAMICS	1.Students may identify vibration related problems for automobiles .

Diploma in Automobile Engineering	1AU2403-MODERN VEHICLE TECHNOLOGY	1.Students able to identify Different sensors location in the engine and their working. 2. Recently developed New technology implemented in Automobile.
Diploma in Automobile Engineering	1AU2404-AUTOMOBILE MANUFACTURING TECHNOLOGY	1.Various manufacturing systems used in making of Automobile components like casting and forging.
Diploma in Automobile Engineering	1AU2405-AUTOMOBILE INDUSTRIAL MANAGEMENT	1.Better understanding of different Motor vehicles rule and regulations 2.Registration process for motor vehicle 3.Preventive maintenance and material handling in automobile industry
Diploma in Automobile Engineering	1AU2406- THERMODYNAMICS & HYDRAULICS	3) Hydraulics systems working 4) working and solving simple problems of hydraulic Pumps
Diploma in Automobile Engineering	1AU2501- AUTOMOBILE INDUSTRIAL TRAINING	1)Students should be able to demonstrate these skills on the type of automobile on which they are trained, the following list is suggestive only, some more skills may be acquired by student depending upon the opportunities they get and in some cases some of the following skills may not be applicable for the automobile on which they have undergone training)
Diploma in Automobile Engineering	1AU2601- AUTOMOBILE ENGINE DIAGNOSIS AND TESTING	1).Identify and diagnose the causes of malfunctioning of an engine 2) Rectify engine troubles based on symptoms and causes 3).Use the suitable instrument and tools for diagnosis and testing of automotive engine systems 4).Remove engine from automobile, disassemble and rectify faults. 5).Develop an attitude of relying on systematic method of working using standard trouble shooting procedure rather than taking ad-hoc decisions
Diploma in Automobile Engineering	1AU2602- AUTOMOBILE TRANSMISSION AND MECHANISM DIAGNOSIS AND TESTING	1. Identify probable faults/troubles and their causes in automobile transmission systems. 2.Use suitable instruments, tools and service manuals for diagnosis and testing of automobile transmission systems. 3. Remove automobile units by using proper tools and procedures: gear box, brakes, suspension, final drive, etc. 4. Disassemble, inspect, and repair various automobile units by using proper tools and procedures: gear box, differential, brakes, suspension, steering, etc. 5. Follow safety rules for repair and maintenance of various transmission systems of automobile vehicle.
Diploma in Automobile Engineering	1AU2603-AUTOMOBILE ELECTRICAL SYSTEMS DIAGNOSIS AND TESTING	1. Identify various auto-electrical faults/troubles and their causes. 2. Analyse and rectify various auto-electrical troubles with the help of troubleshooting charts 3.Use standard acceptance test with the help of service manuals 4.Use suitable instrument and tools for diagnosis and testing of automotive electrical system.

			5.Follow safety rules for repair and maintenance of various automotive electrical systems and units.
	Diploma in Automobile Engineering	1AU2605 VEHICE AIR CONDITIOING	1.Identify various components of Vehicle Air conditioning and heating system.. 2. Apply various concepts related to Air conditioning and heating system. 3.Operate manually and automatic Air conditioning and heating system. 4.Diagnose various faults in air conditioning system by using suitable tools and instruments. 5.Follow safety rules while servicing of Air conditioning and heating system
	Diploma in Civil Engineering	1CI2301-MECHANICS OF STRUCTURE - I	1. Increase ability of analysis of structure. 2. Comprehend material properties for different loading conditions. 3. Analyse the structural components with axial or eccentric loading conditions.
	Diploma in Civil Engineering	1CI2302-SURVEYING	1. By understanding drawings, scales and maps one can understand various geometrical parameters. 2. With the help of various surveying instruments students can understand various parameters like angle, distance, etc. 3. This subject will help students to become government surveyor and also help to become entrepreneur.
	Diploma in Civil Engineering	1CI2303-HYDRAULICS	1. Increase ability to perceive the behaviour of fluid flow in different conditions in pipes, channels, canals, notches, weirs etc. 2. Apply their basic knowledge to perceive the core concept of hydraulics. 3. Implement the theoretical and practical knowledge in the field of water resources / irrigation / PHE and environment engineering.
	Diploma in Civil Engineering	1CI2304-ENGINEERING MATERIALS	1. Identify various construction materials with their properties and cost. 2. Demonstrate an appropriate application of construction material. 3. Learn various tests to be performed for that material
	Diploma in Civil Engineering	1CI2305-BUILDING CONSTRUCTION	1. Learn different types of technology used in construction works 2. Develop knowledge of various types of construction machineries, formworks and safety measures involved in construction works
	Diploma in Civil Engineering	1CI2401-MECHANICS OF STRUCTURES - II	1. Comprehend static indeterminacy of structural components. 2. Analyse behavior of such structural components under certain loading conditions. 3. Perceive behavior of columns for different end conditions.
	Diploma in Civil Engineering	1CI2402-ADVANCE SURVEYING	1. Comprehend How to use theodolite for the measurement of horizontal and vertical angle as per industry requirements. 2. Calculate the height of objects through a trigonometrical levelling 3. Describe the principles and various methodologies involved in tacheometry.

	Diploma in Civil Engineering	1CI2403-WATER RESOURCES & MANAGEMENT	1. Learn this subject by applying fundamentals of management and knowing public behaviour. 2.Design and operation of various hydraulic structures like dam , weir ,barrage etc. 3. Knowledge of this subject will help students to prepare for competitive Exams.
	Diploma in Civil Engineering	1CI2404-TRANSPORTATION ENGINEERING	1. Learn various Modes of transportation with components, cross section road alignments. 2. Comprehend the concept of construction and maintenance of roads,railways and Bridges. 3. Perform the tests on the various materials used in the construction work of roads, Railways and bridges.
	Diploma in Civil Engineering	1CI2405-GEOTECH ENGINEERING	1. Comprehend the fundamentals of geology, Structural features of rocks & various geological investigations. 2. knowledge of essential features and requirements of site investigation with respect to soil. 3. Learn different laboratory tests for determining engineering properties parameters of a soil. 4. Ability to classify soils and to evaluate soil parameters such as permeability, compaction, shear strength etc. experimentally.
	Diploma in Civil Engineering	1CI2406-DRAFTING TOOLS	1. This subject will improve the imagination power of students and enhance their skills on drafting. 2. They will be able to read and interpret drawings by studying this subject.
	Diploma in Civil Engineering	1CI 2501-DESIGN OF STEEL STRUCTURE & MASONARY STRUCTURE	1. Understand the fundamentals of various design philosophies. 2.Explain essential features and requirements of design and detailing. 3.Acquire knowledge of basics of masonry structure. 4.Calculate all loads on panel points of a Roof Truss as per IS code requirements & analyze and design axially loaded tension member made up of angle section, strut made up of angle section, axially loaded column.
	Diploma in Civil Engineering	1CI 2502-CONCRETE TECHNOLOGY	1.Evaluate physical properties of cement sand and aggregates. 2. Describe proper method for making and curing of concrete. 3. Measure important properties of fresh and hardened cement concrete including NDT and Design concrete Mix as per IS method. 4. Explain properties of various types of Admixtures and their utility and Explain various types of special concrete and their use
	Diploma in Civil Engineering	1CI 2503-WATER SUPPLY & SANITARY ENGINEERING	1. To identify and recognize the potential sources of water. 2. To devise cost effective water collection and distribution systems. 3. To undertake the laboratory experiments for assessing water quality. 4. To understand the principles of water treatment and design treatment units and Prepare lay out plan and maintain water distribution and sewer-networks.
	Diploma in Civil Engineering	1CI 2504-QUANTITY SURVEY & COSTING	1.Familiar with basic knowledge required for preparing an estimate. 2. Standard specifications for various Civil engineering items. 3. Types of approximate estimates and its methods. 4. Analyse the rates of civil engineering works of Civil engineering items and

			Prepare detailed estimates for civil works like one/two room Res. Building, S.T./ S.W. / Various roads & Steel roof truss etc.
	Diploma in Civil Engineering	1CI 2505-ADVANCED CONSTRUCTION TECHNOLOGY	1.Students will be able to describe, analyze, compare and evaluate the technology of high-rise Construction. 2. Discuss purpose, types, materials, design issues, and erection of temporary structures for construction Activities. 3. Propose and evaluate alternative construction systems and methods in response to given building performance requirements. 4. Describe equipment and tackles used, problems encountered and their solutions in erection of steel Structures and compare alternative solutions in building construction technologies.
	Diploma in Civil Engineering	1CI 2508-PROJECT - I (INDUSTRY BASED)	Solve the problem arise in field through site team effort. 2. Improve ability to collect survey data ref. to their technical grasping knowledge. 3. Planning and execute work with well managed scheduling and Get better responds to analyse real problem through their well experiences of executed work. 4. Regulate the lagging or delay of work with concept of subject CPM and Based on work experience, they become able to make decision to summarised actual problem.
	Diploma in Civil Engineering	1CI 2601-DESIGN OF R.C.C. STRUCTURE	1.Application of different specifications of IS -456-2016 For design and ability to understand the design Philosophy. 2. Ability to analyze the design of RC Beams and slab based on guidelines given in IS 456 2016. 3. Analysis and design of slab and staircase for Different Support Conditions. 4. To Understand design flexure members for different Support Condition & Analyze and design RC Columns and footing.
	Diploma in Civil Engineering	1CI 2602-QUALITY CONTROL & MONITORING	1.Learn the fundamentals of quality management for construction projects, including quality assurance, quality control, and quality function deployment through the development of a project quality management plan. 2. Learn to apply basic principles of quality management for construction projects. 3. Check the quality in civil construction works 4. Identify the variations in quality of civil works & Use of various standard codes in civil construction works.
	Diploma in Civil Engineering	1CI 2603-CONSTRUCTION PROJECT MANAGEMENT	1.Explain construction management functions, various organisation structures and duties Of various construction team. 2. Explain construction contracts and tendering process. 3. Develop the CPM and PERT network of various construction activities. 4. Develop skills to manage various construction resources like material, labour and equipment & show professional ethics and concern for safety during various construction works.

Diploma in Civil Engineering	1CI 2604-QUANTITY SURVEY & VALUATION	1.Familiar with basic knowledge about rules for preparing approximate and detailed estimate. 2. Implements of Standard specifications for various Civil engineering items execution. 3. Important of Rate analysis, Task work, Market rate, and Labour rate to evaluate cost of various items. 4. Prepare detailed estimates for civil works like R.C.C. lintel -Chajja, Beam, Slab, Column, RW and Culvert & Evaluate present cost of existing structures and open land property.	
Diploma in Civil Engineering	1CI 2605-BUILDING SERVICES	1. Manage building services provisions in big construction sites 2. Identify the building services for the requisite functional requirement. 3. Synchronize the construction activities with installation of building services. 4. Ensure green building applications to the new constructions & execute the relevant system for lighting, ventilation and acoustics for building.	
Diploma in Civil Engineering	1CI 2608-PROJECT - II	1.Solve the problem arise in field through site team effort. 2. Develop the concept of minimizing cost consideration of the project. 3. Assess the financial implication and feasibility of the scheme 4. Capable to scrutinize significance of survey data and investigation of project.	
Diploma in Computer Engineering Diploma in Information Technology	1CE2302PROGRAMMING IN C++	1.Developed programs relating object-oriented concepts to implement object oriented programs in C++,class, encapsulation,inheritance and polymorphism, Constructor, Destructor. 2. taking presentation on OOP concepts	
Diploma in Computer Engineering Diploma in Information Technology	DATABASE MANAGEMENT SYSTEM	1. Creating database using DDL and DML commands and performing various queries on it 2. Making database designs, database models 3. constructing the ER diagram.	
Diploma in Computer Engineering Diploma in Information Technology	1CE2303-DATA STRUCTURE	1. taking Presentation on stacks,queues,lists,trees and graphs. 2. creating programs to understand Linked list to demonstrate how data are stored. 3. group discussion on searching and sorting techniques	
Diploma in Computer Engineering Diploma in Information Technology	1CE2305-MICROPROCESSOR & ASSEMBLY LANGUAGE PROGRAMMING	1. Discussion concepts of microprocessor. 2. Presentation on microprocessor architecture. 3. creating programs related to assembly language instruction set. 4. To develop assembly language programming skill.	
Diploma in Computer Engineering Diploma in Information Technology	1CE2301-OPERATING SYSTEM	1. discussion on various types of OS. 2. presentation on various concepts like process management, file management and memory management. 3. developing and executing t of Linux command and Shell script.	
Diploma in Computer Engineering Diploma in Information Technology	1CE2401-ADVANCED DATABASE MANAGEMENT SYSTEM	1. discussion on normalization in database design. 2. creating PL/SQL Blocks and cursor. 3..Implement and create various database objects.	
Diploma in Computer Engineering	1CE2402-COMPUTER NETWORK	1.Discussion on computer network technology. 2. Discussion on OSI ref model.	

			3.Presentation on TCP/IP networking, addressing scheme and subnetting. 4. learning network troubleshooting procedure and perform troubleshooting commands.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2405-COMPUTER SYSTEM ARCHITECTURE	1. perform data transfer and micro-operation in computer systems. 2. draw flowchart of instruction and interrupt cycle. 3. Presentation on computer instruction set. 4. learn to Identify various types of memory in computers.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2406-WEB DESIGNING WITH CSS FRAMEWORK	1.design a website using various technologies. 2.learning process of applying Bootstrap to a webpage.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2403-FUNDAMENTAL OF SOFTWARE DESIGN	1. Discussion on Software development approach to manage software. 2. debate on SDLC to develop Software. 3. Creating a SRS for any software
	Diploma in Computer Engineering	1CE2404-GUI BASE APPLICATION DEVELOPMENT	1. Discussion on framework of .net. 2. development of console applications. 3. Development of basic forms and controls which is used for making windows applications.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2501 - Computer Peripherals & Troubleshooting	1 Install, configure and maintain various components in computer system and peripheral devices. 2 Diagnose faults, repair and maintain computer system and its peripherals. 3 Install, configure Operating Systems and device drivers.
	Diploma in Computer Engineering Diploma in Information Technology	1IT2501-NETWORK SECURITY	1. Identify and describe the common types of security threats and risks to the Computer Systems. 2. Identify the potential threats to Security Services like confidentiality, integrity and availability. 3. Describe the working of standard security mechanisms and applied to the external and internal network. 4. Define cryptography, describe the elements of the encryption process and select best algorithm to encrypt data and protocols to achieve Computer Security. 5. Apply accepted security policies; procedures are necessary to secure Operating Systems and applications.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2503- JAVA PROGRAMMING	1 Explain object-oriented programming concepts of java. 2 Comprehend building blocks of OOPs language, inheritance, package and interfaces. 3 Identify exception handling methods. 4 Develop multithreading object-oriented programs. 5 Develop an object-oriented program handling data file.

		Diploma in Computer Engineering Diploma in Information Technology	1CE2504- DATA MINING AND WAREHOUSING	1. To understand the concept of Data Mining & its attributes 2. To apply the concept of data mining components and techniques in designing data mining systems 3.To Learn how to pre-process data before applying data mining techniques 4. Able to Choose the data-mining task (classification, regression, clustering, Association Rules etc.) 5. Install and Configure WEKA Tool
		Diploma in Computer Engineering Diploma in Information Technology	1CE2505- Network Management & Administration	1 Analyse the requirements for a given organizational structure and select the most appropriate networking architecture and technologies. 2 Install, configure and manage enterprise systems/networks, including hardware/software. 3 Implement and configure active directory. 4 Create user/group accounts and configure server roles. 5 Administer permissions for users, files and network resources. 6 Use group policies to configure and secure the network. 7 Maintain and troubleshoot enterprise networks.
		Diploma in Computer Engineering Diploma in Information Technology	1CE2506-PROJECT-1	1 Develop an application using different technology 2 Learn how to work in a team. 3 Think and apply new ideas in developing a project.
		Diploma in Computer Engineering	1CE2502- Web programming Using PHP	1. To understand the concepts, structure and design of PHP. 2. To understand the Looping and Control structure of PHP 3. To understand the knowledge of user defined function and different form of array 4. To understand the flow of data between the pages and how to access the value of different form elements. 5. To understand different way to sto
		Diploma in Information Technology	1IT2503 - Computer Graphics & Multimedia	1. To understand the basics of various inputs and output computer graphics hardware devices as well as the course will offers an in-depth exploration of fundamental concepts in 2D graphics. 2. To apply, implement and develop programs of transformations on various images. 3. To understand audio and video concepts.
		Diploma in Computer Engineering Diploma in Information Technology	1IT2502- Python Programming	1 Describe the core syntax and semantics of Python programming language. 2 Students must be able to understand and write basic python program. 3 Apply a solution clearly and accurately in a program using Python. 4 Apply the best features of mathematics, engineering and natural sciences to program real life problems
		Diploma in Computer Engineering Diploma in Information Technology	1CE2601- Digital Marketing	1 Illustrate the role and importance of digital marketing in a rapidly changing business landscape. 2 Discussed the key elements of a digital marketing strategy 3 Illustrate how the effectiveness of a digital marketing campaign can be measured. 4 Demonstrate advanced practical skills in common digital marketing tools such as

			SEO, SEM, Email Marketing and Mobile Marketing
	Diploma in Computer Engineering Diploma in Information Technology	1CE2602 - Cloud Computing	1 Understand the hardware, software concepts and architecture of cloud computing. 2 Realize the importance of Cloud Virtualization, Abstractions and Enabling Technologies. 3 Explore the Programming for Applications on Cloud.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2603 - Android Programming	1. To understand Android activities life cycle. 2. To develop operations on GUI objects. 3. To implement Event driven programming. 4. To apply various techniques on working with menu.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2604 - Machine Learning	1 Basic knowledge about Artificial Neural Network. 2 Brief Knowledge about what is machine learning. 3 To know about machine learning algorithms and classifiers. 4 Knowledge about Python packages suitable for machine learning.
	Diploma in Computer Engineering Diploma in Information Technology	1CE2605 - Linux Administration	1. Access the command line and Manage files from command line 2 Create, view, and edit text files and Manage local users and groups 3 Monitor and manage Linux processes and Control services and daemons 4 Control access to files with file system permissions and Configure and secure the OpenSSH service 5 Manage Linux networking
	Diploma in Computer Engineering Diploma in Information Technology	1CE2606-PROJECT - II	1.Develop an application using different technology 2 Learn how to work in a team. 3 Think and apply new ideas in developing a project.
	Diploma in Computer Engineering Diploma in Information Technology	1IT2601 - INTERNET OF THINGS (IOT)	1. To understand IOT architectures, characteristics and design 2. To understand Arduino architecture and able to build devices using it 3. To build sensing device using Arduino architecture 4. To understand raspberry pi devices and its architecture 5. To build device using raspberry pi interface
	Diploma in Electrical Engineering	1EE2301-AC CIRCUITS	1. Activity to check the behaviour of basic parameters when they connected in series as well as parallel. 2. Activity to prepare three phase star and delta connection. 3. Activity to measure power in AC circuits.
	Diploma in Electrical Engineering	1EE2305-ELECTRONIC COMPONENTS AND CIRCUITS	1. Activity to test the electronic components. 2. Activity to use solid state devices. 3. Activity to prepare different electronic circuits as per requirement..
	Diploma in Electrical Engineering	1EE2304-ELECTRICAL INSTRUMENTS	1.Activity to use proper instruments for proper application. 2. Activity to calibrate and maintain different types of electrical instrumentation systems.

	Diploma in Electrical Engineering	1EE2302-ELECTRICAL MACHINES - I	1. Activity to operate different electrical machines as per standard. . 2. Activity to prepare testing reports for electrical machines.
	Diploma in Electrical Engineering	1EE2303-ELECTRICAL POWER GENERATION	1. Activity to prepare the model of different power stations. 2. Activity to use modern technologies for renewable power generation. 3. Activity to check the effect of various power plants on ecology/environment.
	Diploma in Electrical Engineering	1EE2405-COMPUTER AIDED DRAFTING AND ELECTRICAL DRAWING	1. Use of latest technology in designing of electrical circuits. 2. Simulation using software.
	Diploma in Electrical Engineering	1EE2404-DIGITAL ELECTRONICS AND DIGITAL INSTRUMENTS	1. Activity to use number systems and inter conversion for particular application 2. Activity to prepare digital circuits using logic gates. 3. Activity to use the latest digital instruments for particular applications.
	Diploma in Electrical Engineering	1EE2403-ELECTRICAL ENERGY UTILIZATION	1. Development of energy saving equipments 2. Development in LED and their use in particular applications 3..Development domestic electrical appliances.
	Diploma in Electrical Engineering	1EE2401-ELECTRICAL MACHINES - II	1. Activity to operate different electrical machines as per standard. . 2. Activity to prepare testing reports for electrical machines.
	Diploma in Electrical Engineering	1EE2402-TRANSMISSION AND DISTRIBUTION OF ELECTRICAL POWER	1. Recent development in transmission and distribution system-O.H and U.G. 2. Modern technology for transmission and distribution of electrical power. 3. New skills to reduce T & D losses in power system.
	Diploma in Information Technology	1IT2401-DATA COMMUNICATION AND NETWORK	1. Understanding what data communication is and networking. 2. Understand OSI and TCP/IP model 3. Describe the different kinds of signals, frequency. 4. Identify the importance of ADC and DAC. 5. To understand the use of AM, FM, TDM and multiplexing application. 6. Importance of transmission media in data communication.
	Diploma in Information Technology	1IT2402-PHP & MYSQL	1. To understand the concepts, structure and design of PHP. 2. To understand the Looping and Control structure of PHP 3. To understand the knowledge of user defined function and different form of array 4. To understand the flow of data between the pages and how to access the value of different form elements. 5. To understand different way to store the user data by the server. 6. To understand MySQL database
	Diploma in Mechanical Engineering	1ME2301-METAL CASTING, FORMING & JOINING PROCESSES	6. Acquiring technical skills in foundry and welding shops. 7. Activities that create welding and soldering skills in Students . 8. Students create skills to understand, create and interpret production drawing. 9. Practices of metal forming processes like rolling, forging ,drawing ,extrusion 10.Develop production skills .
	Diploma in Mechanical Engineering	1ME2302– THERMODYNAMICS	1. Quiz, Viva-Voce, Presentation, CaseDiscussion, Simulation 2. Written Test,Academic Writing 3. Students may be given a few exercises to prepare models and charts of different thermodynamics Systems and cycles. 2. Students may be asked to collect photographs from the internet which is related

			to thermodynamic cycle,systems and laws.
	Diploma in Mechanical Engineering	1ME2303-FLUID MECHANICS AND MACHINERY	1.Quiz, Viva-Voce, Presentation, Case Discussion, Simulation to understand fluid properties, fluid flow patterns and flow through pipes in real flow situations. 2.Student perform laboratory experiments for understanding of dynamics of fluid in industrial application 2. To apply and explain fluid equations in simple industrial situations. 3. Academic Writing for understanding of hydraulic machines generally used in industries. 4. To implement with the aim to develop different types of skills to select, operate and maintain fluid machineries based on fluid laws and characteristics. students to develop skill at interpreting applying and explaining fluid equations in simple industrial situations. 5. Hydraulic engineering will help student to understand physical properties of fluid and it develop the understanding of Pressure-density-height relationships, Manometers ,Venturi-meter, orifices, mouth pieces, Pitot tubes, Sluice that would be helpful to hydraulic project.
	Diploma in Mechanical Engineering	1ME2304-STRENGTH OF MATERIALS	5. Employability enhancement by introducing students to fundamentals like Analysis of Stress and Strain. 6. Perform experiments that imparts practical knowledge including the different test like tensile test , hardness test etc. This also enable the student to determine the Tensile and compressive strength ultimate shear strength of structure. 7. This course imparts Problem Solving Skills in the students and is crafted to help the students in identifying the best solution for a given problem.(shear force and bending moment,stress,,material property related problems) 8. This course imparts Problem Solving Skills in the students and is crafted to help the students in identifying the best solution for a given problem related with finding safe dimension of machine component due to direct and lateral loading and deflection , haft under statics loads & Twisting moments,centroid and moment of inertia.
	Diploma in Mechanical Engineering	1ME2305-PLANT MAINTENANCE AND SAFETY	5. Activities that Develop skill related with fault finding in mechanical elements. 6. Practicals related with Assemble, dismantle and align mechanisms in sequential order. 7. Carry out activity related with plant maintenance using tribology, corrosion and preventive maintenance. 8. Students have to perform Laboratory experiments related with machine and machinery maintenance keeping in all kind safety and precautions.

	Diploma in Mechanical Engineering	1ME2306-DRAFTING APPLICATION	6. Hands on practice on AutoCAD. 7. Students create skills to understand, create and interpret production drawings. 8. Creation and modification of production drawing using various CAD software drawing and modify commands. 9. Inspect drawing with dimension tools. 10. Exercise for practice to plot drawing on a standard paper sheet with scale.
	Diploma in Mechanical Engineering	1ME2401-MANUFACTURING ENGINEERING - II	1. Acquiring technical skills in machine shops and shop floor related to production and measurement. 2. Perform practical that develop skill to Operate and maintain machining centers like lathes, milling machine, drilling machine, shaper, planer, grinding machine etc. 3. Prepare jobs that create the ability to convert the engineering drawing into production drawing and prepare a job as per drawing. 4. To implement with the aim to develop different types of skills to select tools and cutting parameters for given job.
	Diploma in Mechanical Engineering	1ME2402-THERMAL ENGINEERING-I	1. Perform Activities and practical so Students are able to understand the Concept of Boiler and its types, Heat balance sheet, Condenser, Cooling Tower, Evaporator,Steam turbine Which is very very important for operating and maintaining Thermal Power plant. 2.Academic writing,quiz and discussion So Students also learnt Air compressor it's types, application which is useful for air compressor manufacturing. Industry 3.Students also learnt Modes of heat transfer, Types of Heat exchanger which is Very important for Thermal power plant, Refineries, oil and gas field etc.
	Diploma in Mechanical Engineering	1ME2403-THEORY OF MACHINES	1. Activity to make the student conversant with commonly used mechanisms for industrial application and Identify mechanisms in real life applications. 2.This course imparts Problem Solving Skills in the students and is crafted to help the students in identifying the best solution for a given problem related with kinematic analysis of simple mechanisms like velocity and acceleration analysis. 3. Be proficient in the use of mathematical methods to analyse the forces and motion of simple systems of linkages, gears and cams. 4.Activities and exercise that Develop skill related analytical competency in solving problems related with friction in bearing, clutch, brakes etc. and power transmission. 5.Students may be given a few exercises to prepare models and charts of different mechanisms and their inversion.

Diploma in Mechanical Engineering	1ME2404-COMPUTER AIDED DESIGN	1.Hands of practice using CAD software so students can create 2D and 3D drawing. 2. Exercise which imparts modeling skills to create Assembly and detail drawing 3. Mechanism study (motion analysis) 4.Student develop skill to derive various mass properties like centre of gravity,density from 3D model. 5.students know how to create bill of material from parts and assembly modeling for further estimation and costing and production planning and control. 6. Activities and use of tools to make students understand the basics of information regarding selection of configuration of CAD workstation and type of modelling technique for given part.
Diploma in Mechanical Engineering	1ME2405-METROLOGY & INSTRUMENTATION	1.Employblity enhancement by introducing students to fundamentals understanding of inspection and quality control. 2. The course emphasized on the Skill development by imparting Knowledge on Measurement of the given mechanical elements and assemblies using linear and angular analog/digital measuring instruments. 3. Activities like surface roughness checking,Check geometrical accuracy for a given application.measuring various important dimensions of thread forms and gears will help students acquire skills to boost their carrier in production and manufacturing industry. 4.Able to measure different mechanical quantities and parameters ,dimension by means of different approaches like non destructivetesting methods/ ways. and instruments like gauges ,sensors and transducers.
Diploma in PetroChemical Technology	1PCT2304-ELECTRICAL AND ELECTRONICS ENGINEERING	1. Done practicalsof electric and magnetic circuits 2. various basic theories of transformer and its use in electrical and electronics instruments. 3. Measured current, voltage, watt with various measuring instruments
Diploma in PetroChemical Technology	1PCT2305-ENVIRONMENTAL STUDIES	3. Activities done regarding reduce the atmospheric pollution. 4. Done plantation of trees.
Diploma in PetroChemical Technology	1PCT2302-GENERAL CHEMICAL TECHNOLOGY-I	2. Students prepared different types of solutions and also found unknown chemical compounds with different tests.
Diploma in PetroChemical Technology	1PCT2303-HEAT TRANSFER OPERATION	1. Done practicals on Modes of heat transfer. 2. Derive equations of steady state heat transfer through wall, cylinder and sphere. 3. Also Calculate radiation based on radiation laws.
Diploma in PetroChemical Technology	1PCT2301-PETROCHEMICAL TECHNOLOGY	2. Students prepared demo models of refinery plant. 2. Performed different practical tests of crude oil. 3. Done activities on Petroleum Products and made different products.
Diploma in PetroChemical Technology	1PCT2403-DRILLING ENGINEERING	1 Got basic knowledge about drilling techniques for crude. 2. Students made a model of a drilling rig. 3. Understood the skill for waste management.

	Diploma in PetroChemical Technology	1PCT2405-FLUID FLOW OPERATION	1. Done practicals of hydrostatics, hydrodynamics and their applications in handling various fluids like gases, vapors, liquids and slurries are provided in this course which is required for smooth and proper operation of fluid transportations machineries. 2. Demonstrated pumps, blowers and compressors for determined and friction losses through pipes and fittings can also be calculated.
	Diploma in PetroChemical Technology	1PCT2404-GENERAL CHEMICAL TECHNOLOGY II	1. Got knowledge of Inorganic chemical industries. 2. Seen videos of Caustic soda & choler alkali industries, Industrial gases & Natural product industries. 3. Identified, formulated, and analyzed complex engineering problems reaching substantiated conclusions.
	Diploma in PetroChemical Technology	1PCT2402-NATURAL GAS PROCESSING	1. Understood the total process of natural gas with videos. 2. Got knowledge of the city gas distribution system with a model. 3. Got information on transportation and marketing of natural gas.
	Diploma in PetroChemical Technology	1PCT2401-PETROLEUM REFINING ENGINEERING	1. Seen different types of Distillation units with videos. 2. Got the knowledge of techniques used for fractionations. 3. Prepared model of Distillation column.
	Diploma in PetroChemical Technology	1PCT2406-SUMMER INTERNSHIP	1. addressed specific industry and research related problems. 2. Got knowledge for a practical job. 3. Done industrial work.
	Diploma in PetroChemical Technology	1PCT2501-Fertilizer Technology	1. made natural fertilizer 2. Got knowledge the Potassic Fertilizers and Bio Fertilizer
	Diploma in PetroChemical Technology	1PCT2502-Pipeline Engineering	3. 1.Got knowledge about Pipeline drawing and Pipeline specification 4. 2.Seen practical videos of cathodic protection of pipeline
	Diploma in PetroChemical Technology	1PCT2503- Stoichiometry	4. 1.Knew about Chemical and physical principles of Stoichiometric 5. 2.Understood of the Dalton's law, vapour composition in gas mixture 6. 3. Done calculations of Dimension
	Diploma in PetroChemical Technology	1PCT2504- Chemical Reaction Engineering & Kinetics	1.Knew about of kinetics and classification of chemical reactions 2.Done practicals of different types of reactors 3. Seen industrial reactors working videos
	Diploma in PetroChemical Technology	1PCT2505-Health Environment & Safety	1.Done practicals of turbidity of liquid 2.got practical knowledge of fire safety by live practicals 3.knew about pollutions.
	Diploma in PetroChemical Technology	1PCT2601-LNG Value Chain	1.knew about gas transportation 2.seen videos of liquefaction of gases 3.Got knowledge regarding storage vessels of gases
	Diploma in PetroChemical Technology	1PCT2602-Polymer Technology & Processing	1.Seen videos of manufacturing of different types of polymers 2.Done practicals of polymers products 3. Got knowledge of polymer uses and reuse

	Diploma in PetroChemical Technology	1PCT2603-Instrumentation & Process Control	1. Knew about Measurement of temperature, Viscosity, Static & dynamic characteristics, bimetallic, thermocouples 2.Seen videos of measuring instruments of these and Got knowledge of how can they use
	Diploma in PetroChemical Technology	1PCT2604-CHEMICAL ENGINEERING THERMODYNAMICS	4. 1.Knew about numerical on first law, First law of thermodynamics, Enthalpy & Heat capacity 5. 2.Done practicals of thermodynamics 6. 3.Got practical industrial knowledge of thermodynamics by watching videos.
	Diploma in PetroChemical Technology	1PCT2605-Entrepreneurship development and Management	1.Understood of Entrepreneurial Support System 2.Got knowledge regarding Managerial Aspects of Small Business 3. Got practical knowledge of Project Report Preparation
	Diploma Engineering (All)	1BS122 CHEMISTRY	1. Teacher guided self learning activities. 2. Course/topic based internet based assignments. 3. Library survey regarding Engineering Material used in different industries. 4. Industrial Visits of one or Two Industries. 5. Quiz & Brain storming session related to Polymeric materials. 6. Sampling & Testing of water collected from different places.
	Diploma in Electrical Engineering	1ES108 BASIC ELECTRICAL & ELECTRONICS ENGINEERING	1. Measure different electric parameter through the multiparameter in surrounding components 2. Industrial visit 3. Find transformer in different electronic components
	Diploma in Electrical Engineering	1ES104 SOFTWARE TOOLS	1. Use Matlab as a calculator 2. Give some exercise for different arithmetic and logical operation
	Diploma in Mechanical Engineering	1ME2501-DESIGN OF MACHINE ELEMENTS	1.To know different failures and to determine the value of resisting areas of machine elements. 2. Able to use preferred numbers and standardization to select element/element dimension. 3.Design machine element subjected to various stress such as Direct stresses, Bending stresses, Twisting stresses and Combined bending and direct stress. 4. Design of various types of pressure vessel. 5.Awarefor selection of various bearing for different application and make calculation of important bearing characteristics.

	Diploma in Mechanical Engineering	1ME2502-MACHINE TOOL TECHNOLOGY	1.Explain working of grinding, super finishing, gear cutting, broaching, threading, nonconventional machining and advance machining methods with kinematics systems of each element. 2.Interpret designation system / method of cutting tools and tool holders used on machine tools. 3.Select appropriate cutting tools, work holding devices and cutting parameters for the given work piece. 4.Set the machine and mount the job, cutting tools and tool holders correctly. 5. Developing the skill of manufacturing. Ability to convert the engineering drawing into production drawing.
	Diploma in Mechanical Engineering	1ME2503-INDUSTRIAL ENGINEERING	1. Improve productivity using work study and method study techniques. 2. Analyze work content and calculate standard time in a given situation. 3. Apply Statistical Quality Control tools in a given situation. 4. Apply Ergonomics for human comfort at work place 5. Appreciate the emerging trends in industrial engineering
	Diploma in Mechanical Engineering	1ME2504-ESTIMATING COSTING AND CONTRACTING	1.Calculate material cost of given component/product. 2. Identify and estimate elements of cost in various processes. 3. Perform break even analysis to calculate break even quantity. 4.Investigate the problem of cost and suggest their solution using cost reduction techniques. 5.Interpret given model of balance sheet and profit loss account.
	Diploma in Mechanical Engineering	1ME2505-THERMAL ENGINEERING-II	1. To Understand the performance of ICEs by operating them and observing changes in thermodynamic properties during each stroke of ICEs. 2. Analyse the performance of Vapour Compression Refrigeration System (VCRS), by operating them and observing the changes in properties of refrigerant during each process on VCRS (and using thermodynamic charts/diagrams.) 3.Explain working of various air-conditioning equipments, ducts and fans. 4.Identify the elements of gas turbines.
	Diploma in Mechanical Engineering	1ME2506-PROJECT-1	1.Selection of project compatible to existing needs and market. Encourage innovativeness which leads to enhance creativity. To develop a think tank which fulfill the ecofriendly environment 2. Selection of economical material to build parts by various methods of manufacturing 3. Design the products using CAD software by deriving details and assembly drawings. 4. To formulate a project report using standard format and specification. 5. To develop entrepreneur skill at this level

	Diploma in Mechanical Engineering	1ME2601-COMPUTER AIDED MANUFACTURING	1. Identify different axes, machine zero, home position, controls and features of CNC machines. 2. Select, mount and set cutting tools and tool holders on CNC. 3. Prepare part programmes using ISO format for given simple components with and without use of MACRO, CANNED CYCLE and SUBROUTINE using ISO format. 4. Interface software application for auto part programming. 5. Students will select layouts of FMS for industrial applications.
	Diploma in Mechanical Engineering	1ME2602-TOOL ENGINEERING	1.To understand the importance of tool engineering as a link between design and manufacturing, its functioning and to select proper cutting tool/tool geometry as per need of operation and to re-sharpen it for long tool life. 2. To select and design appropriate and accurate location and restrict all degrees of freedom while machining operation to any component. 3. To provide devices to the manufacturing domain which leads to ease in performing various drilling and other machining operation in batch/mass production and fulfil other important aspects like maintaining interchangeability, accuracy, repeatability, quick set-ups and change over time and reduce operator's physical and mental fatigue in an economical domain. 4.To understands designing complexities and other important aspects of cutting dies through case study of a simple configured component. 5. To gain the knowledge of principles, working and design terminologies of various sheet metal forming dies, drawing dies, forging dies and other special forming dies for many industrial applications.
	Diploma in Mechanical Engineering	1ME2603-HYDRAULIC AND PNEUMATICS	1. Differentiate hydraulic and pneumatic fluid based systems. 2. Select and operate various hydraulic and pneumatic elements. 3. Operate and maintain hydraulic and pneumatic circuits. 4. Operate and maintain various devices based on hydraulic and/or pneumatics. 5. Operate and maintain hydro-pneumatics circuit diagrams for given applications
	Diploma in Mechanical Engineering	1ME2607-FABRICATION TECHNOLOGY	1. To understand need Welding Technology in mechanical engineering. 2. To apply the drawing skill to convert in to production drawing. 3. To develop Fabrication skill. 4. To implements theory skill in to production. 5. To Verify practical model with industrial machinery.

	Diploma in Mechanical Engineering	1ME2608-PROJECT-II	1. To learn selection and procurement of required material and choose appropriate manufacturing processes and techniques to actually fabricate the planned parts and assembly manufacturing 2. To enhance team work by sharing innovative ideas compatible to recent needs and technological advancement. 3. To create responsibility towards ecofriendly environment 4. To develop ability of manufacturing qualitative product 5. To manufacture all the components of subassemblies and assemble the product as per design and make proper presentation with necessary modification in project report.
	Diploma in Electrical Engineering	1EE2501 ENERGY MANAGEMENT & AUDIT	1.Implement energy conservation techniques in electrical machines. 2.Evaluate the techno economic feasibility of the energy conservation technique adopted. 3.Use Co-generation and relevant tariff for reducing losses in facilities.
	Diploma in Electrical Engineering	1EE2502 POWER ELECTRONICS	1. Use power semiconductor devices in different applications. 2. Maintain SCR Protection and Commutating Circuits. 3. Troubleshoot chopper circuits.
	Diploma in Electrical Engineering	1EE2503 MICROPROCESOR AND CONTROLLER APPLICATION	1.Distinguish Micro processors, microcontrollers and PLC based control systems. 2.Maintain microprocessor-based systems. 3.Maintain microcontroller-based systems.
	Diploma in Electrical Engineering	1EE2504 ELECTRIC TRACTION & CONTROL	1. Distinguish different traction systems and latest trends in traction systems. 2. Differentiate services of traction system based on speed time curve. 3. Control different types of traction motors
	Diploma in Electrical Engineering	1EE2506 PROJECT-I	1. Modelling and analysis of the proposed solution. 2. Simulate, Design and debugging of the circuit. 3.Develop program logic of the proposed solution
	Diploma in Electrical Engineering	1EE2601 SWITCHGEAR & PROTECTION	1. Identify various types of faults in Power system 2. Explain working of different types of circuit breakers in power system. 3. Explain working of different types of relays in power system.
	Diploma in Electrical Engineering	1EE2602 COMMISSIONING, TESTING AND MAINTENANCE	1.Unload the electrical equipment's/machines based on scientific procedure 2.Commission various electrical equipment/machines 3.Prepare maintenance schedule of different equipment and machines 4.Prepare trouble shooting chart for various electrical equipment, machines and domestic appliances

	Diploma in Electrical Engineering	1EE2603 ELECTRICAL WIRING, ESTIMATING, COASTING AND CONTRACTING	1. Prepare an estimate of quantity and cost of the material for a electrical project following IE Act-2003. 2. Prepare detail estimate and costing of Residential and commercial Electrical Installation following IE Act-2003. 3. Test Residential, commercial and Industrial Electrical Installation following IE Act-2003.
	Diploma in Electrical Engineering	1EE2606 WIND & SOLAR ENERGY	1.Maintain constant speed wind power plants. 2.Maintain variable speed wind power plants. 3.Maintain concentrated solar power (CSP) and solar photovoltaic (PV) wind power plants,
	Diploma in Electrical Engineering	1EE2607 PROJECT-II	1.Simulate, Design and debugging of the circuit. 2.Develop program logic of the proposedsolution 3.Locate the problem andtroubleshoot.
VMPIM	MBA/MMS	Principles of Management IA01POM/IA01PMO	Real life case discussions will be helpful in employability and Entrepreneurship
VMPIM	MBA	Quantitative Techniques in Management IA02QTM	Acquire the ability to apply statistics and management science theories and models for chosen management decision problem. It will result in skill development
VMPIM	MBA	Managerial Economics 2IA03MEC/IA03MEC	Students will be able to use economic theories to make decisions in environments with a small group of people or firms, including negotiation and price wars between two firms it will leads to employability and entrepreneurship.
VMPIM	MBA	Managerial Accounting IA04MAC	It enable students to understand information contained in published financial statements of companies so it will make student employable
VMPIM	MBA	Organizational Behaviour 2IA05OBE	To familiarize the students with the behavioural patterns of human beings at individual and group levels in the context of an Organization will make them employable
VMPIM	MBA	Managerial Communication IA06MCO	Enhance the communication skills required in different business contexts through various interactive activities so it make students employable
VMPIM	MBA	Research Design for Management 2IA07RDM	To acquire competence in reporting the statistics and report writing make student employable
VMPIM	MBA	Communicative English Laboratory – I	Developing students for multinational and international companies by giving insights for cross cultural communication will make them

			IB08CEL	employable
VMPIM	MBA	Business Environment IIA01BEN	The student should be able to meaningfully follow and interpret major economic and environmental trends government policy decisions.
VMPIM	MBA	Cost and Management Accounting 2IIA02CMA/IIA03CMA	The objective of this course is to acquaint students with various concepts of costs and process used to determine product costs. It make them employable and provides inputs for entrepreneurship and skill development.
VMPIM	MBA	Marketing Management 2IIA03MMA/IIA02MMA/PMM102	It aims to hone students' knowledge and understanding of Marketing theories and concepts and their applications in different industries it make students employable and promotes entrepreneurship
VMPIM	MBA	Financial Management 2IIA04FMA/PFM102	The subject will make students capable for financial decision making under different situations in industries that leads to employability and entrepreneurship.
VMPIM	MBA	Production and Operations Management 2IIA05POM/POM102	Learning the application of optimization techniques to improve the productivity will make student employable as well as it lead to entrepreneurship
VMPIM	MBA	Human Resource Management 2IIA06HRM/PHR102	To acquire knowledge about critical task & function of human resource management will make students employable
VMPIM	MBA	Business Research Methodology 2IIA07BRM//PRM101	Acquire the ability to apply statistical analysis using data analysis software for chosen research problem will make student employable
VMPIM	MBA	Strategic Management IIIA01SMA	Will help in detail understanding the strategies at corporate, business and functional levels that makes student employable as well as it lead to entrepreneurship
VMPIM	MBA	Management Information System IIIA02MIS	Students will able to understand MIS from business process stand points that makes him/her employable as well as they can use this skills helps in his/her own business also.
VMPIM	MBA	Management Research Project – I IIIA03MRP	Students enhance their report writing skills, presentation skills and ability to handle queries related to the industry that they selected makes him employable
VMPIM	MBA	Personality Growth Lab-I 2IIIB04PGL	PGL is an extraordinary and essential component of the management program focussing on the skill development of an individual under the pressure of structural changes in society & government from time to time that makes a student employable
VMPIM	MBA	International Marketing Management	Student will understand the impact of global and regional influences on products and services for consumers and businesses that makes him

		IIA05IMM	employable as well as provide input for entrepreneurship
VMPIM	MBA	Sales and Distribution Management IIIA06SDM	To acquaint the students with the various concepts, tools and techniques of sales and distribution management in Indian context makes him employable as well as promotes entrepreneurship
VMPIM	MBA	Consumer Behaviour IIIA07CBE	Students are able to understand concepts, theories and models of consumer decision-making process makes him employable as well as useful in entrepreneurship
VMPIM	MBA	Integrated Marketing Communications IIIA08IMC	Addressing the ability to describe and evaluate marketing campaign critically will make students employable and equip with skills of marketing and also promotes entrepreneurship
VMPIM	MBA	Corporate Tax Planning IIIA05CTP	students will be able to understand basic taxation procedure that make them employable as well as it will be help them to become entrepreneur
VMPIM	MBA	Indian Financial Systems IIIA06IFS	Students gain knowledge of different types of market for raising fund for different types of needs of business that makes them employable as well as it helps them to be entrepreneur
VMPIM	MBA	Security Analysis and portfolio Management IIIA07SAP	Students are able to demonstrate their understanding of how the Capital Markets plays a vital role in the conceptualization, development
VMPIM	MBA	Commodity Market and Futures IIIA08CMF	of an Financial plan using all asset mix that makes them employable
VMPIM	MBA	Organizational Development and Change IIIA05ODC	Students will acquire the ability to recognize needs for structural change, organizational development and change management in different organizations which makes them employable
VMPIM	MBA	Training and Development IIIA06TDE	Focuses on creating learning designs and delivery approaches to meet employee development needs and business priorities which make students employable
VMPIM	MBA	Compensation Management IIIA07CMA	The course will focus on the strategic use of compensation management to attract, motivate, retain and reward employee performance. It promotes entrepreneurship and makes student employable.
VMPIM	MBA	Staffing and Performance Management IIIA08SPM	Detailed understanding of performance management makes student employable as well as promotes entrepreneurship skills.
VMPIM	MBA	Export -Import Management IIIA06EIM	Applying payment methods and financing in the area of exports and Acquainting with documents and logistics system in export and import makes students employable, improve skill of export import and promotes entrepreneurship.

VMPIM	MBA	International Accounting and Taxation IIIA08IAT	students will have understanding on the accounting needs and taxation impact in International Business that makes them employable

CMSR	MMS-ERP/ MMS-BA	IA01ERP Enterprise Resource Planning System	The course makes students capable to deduce and analyze business information related to ERP system. This will increase their employability
CMSR	MMS-ERP/ MMS-BA	IA02BPE Business Process Engineering	Commentate upon and quantify salient issues in the changing business environment and critically reflect on how these modify the response of Business Process Engineering to achieve positive outcomes in such fluid environments;
CMSR	MMS-ERP/ MMS-BA	IA03MEC Mobile and Executive Computing	Debate and analyze business information requirements related to mobile computing; which will enhance their skills
CMSR	MMS-ERP/ MMS-BA	IA04BAN Business Analytics	student will understand critical role of business analytics in decision making. This will improve their skill and employability
CMSR	MMS-ERP/ MMS-BA	IA05CRM Customer Relationship Management	This subject will investigate and explore different aspects of the way that a firm can practice CRM with content potentially developed and drawn from topics that deal with marketing and planning, campaign management, e-marketing, lead management, analytics, customer segmentation, service order support and customer processing.
CMSR	MMS-ERP/ MMS-BA	IA06BRM Business Reserach Methods	Acquire the ability to apply statistical analysis using data analysis software for chosen research problem will make student employable
CMSR	MMS-ERP/ MMS-BA	IIA01ISP The Information Systems Professionals	This unit develops skills and capacities of an information and communications technology (ICT) professional including career development, ethical behaviour, communication and management skills within a variety of professional scenarios.
CMSR	MMS-ERP/ MMS-BA	IIA02BIS Business Intelligence Systems	This unit will provide students with a framework for analysing and interpreting the efficacy of business intelligence systems, from the provision of high quality, integrated data for decision support through to data warehousing.
CMSR	MMS-ERP/ MMS-BA	IIA03OCM Organization Change Management	This unit develops contemporary understanding of organisational design, organisational change and development through conceptualisation of common challenges for change in both traditional and new organisational forms.
CMSR	MMS-ERP/ MMS-BA	IIA04ESS Enterprise Systems Strategy	This unit of study critiques the role of information systems in underpinning an organisation's corporate strategy. The strategic

			application of various information systems are examined, including Enterprise systems and Business Intelligence.
CMSR	MMS-ERP/ MMS-BA	IIA05PAN Predictive Analysis	This unit will provide students with the knowledge and skills to utilise predictive analytics and data mining processes and technologies to gain greater insights into various business scenarios.
CMSR	MMS-ERP/ MMS-BA	IIA06BRP Business Research Projects	The project provides students with the opportunity, either individually or in teams to apply an advanced body of knowledge and skills to an approved, consultancy-based task.
CMSR	MMS-ERP/ MMS-BA	IIA04CAES Computerised Accounting in ERP system	The aims of this unit of study are to demonstrate the use of integrated information systems in medium to large size organizations and to demonstrate how these systems facilitate the production of accounting information.
CMSR	MMS-ERP/ MMS-BA	IIA05ESI ERP System Implementation	Students will critically review foundational methodologies, techniques and tools that underpin the successful implementation of enterprise resource planning (ERP) systems. An industry standard system, SAP, will illustrate this professional whole of enterprise integrated approach
CMSR	PGDHM	IA01HPE Health Economics, Policy and Environment	Students will learn the economic factors affecting the healthcare industry
CMSR	PGDHM	IA02HAF Hospital Accounting and Financial Management	In this course students will learn to apply accounting and financial management in hospitals
CMSR	PGDHM	IA03CEG Corporate Ethics and Governance	This course aims to inculcate the application of ethical principles in healthcare setting
CMSR	PGDHM	IA04ATH Analytics and Technology for Hospitals	In this course, students learn to apply analytical skills and technology for healthcare sector
CMSR	PGDHM	IA05MAH Marketing aspects of Healthcare ndustry	Students will learn the special features for marketing in hospital industry
CMSR	PGDHM	IB01BIMP Impression Project	In this subject, students individually need to prepare detail report on healthcare industry and also need to select one hospital and study the functioning of each and every department and their strategies and preparedness level for disaster management in detail. The project will

			be evaluated on the basis of written report, presentation and viva-voce.
CMSR	PGDHM	IIA01HRM Human Resources Management for Hospital	This course will train students in managing human resources, one of the most crucial elements in hospital industry
CMSR	PGDHM	IIA02BDS Business Development-strategies and process	In this course students will learn the techniques and methods for business development of healthcare firms.
CMSR	PGDHM	IIA03QMA Quality Management & Accreditation for Hospital	This course will give practical training to students to manage quality aspects as well as accreditation criteria for hospitals
CMSR	PGDHM	IIA04HOM Hospital Operation Management	In this course students will learn to manage overall operations of hospitals
CMSR	PGDHM	IIB01CAP Capstone Project	The group will identify the issue and will prepare detailed synopsis of the research project study. The research problem on the issue may be based on primary data or secondary data depending upon the nature of the topic and the research design. The project will be evaluated on the basis of written report, presentation and viva-voce.
VMPCMS	BBA GEN/FS/MM	VA01BRM	Knowledge of different techniques for research gives new dimensions with help of practical examples of recent published/ongoing papers will enhance doing business as well as development of existing business.
VMPCMS		VA02CMA	Methods of Cost Accounting help to reduce or control cost of product which are useful to sustain in a competitive environment as an entrepreneur or manager of any company.
VMPCMS		VA03BMA	The course will give an understanding and application of brand techniques in a business through case discussion which leads to employability.

VMPCMS	B.A. English		5A01HEL	It helps learning foreign language thoroughly and English language is a key factor for employment success and advancement and also for opening doors to economic opportunity. Proficiency is best practiced through reading and writing.
VMPCMS			5A02HL5	Study of History of English Literature is a great foundation for a career in the arts. Graduate employers also value the sophisticated analytical and presentational skills one can develop on this course. One can emerge with a skill set that's sought after for careers in the arts, publishing, media and as a historian. The critical thinking, reading and analytical abilities develop will also set up for postgraduate study or roles in areas like teaching and politics.
VMPCMS			5A03SOP	Study of Prose makes learners proficient in such area and acquire knowledge and skills pertaining to that particular area of literature. It helps in enhancing skills of prose writing.
VMPCMS			5A04IML	It improves critical literary analysis skills and helps in analyzing and criticizing any piece of art with various critical approaches. It opens opportunities of employment in the field of academics, Book reviewing, film reviewing critically.
VMPCMS			5A05IWE	Study of writing English makes acquaint students with fundamental English writing and to improve English proficiency of the students. It may help them to reading, writing and speaking.
VMPCMS			6A01ELT	ELT will help students to understand the background of English Language Teaching and students will get opportunity to teach in the courses like B.tech, ,Diploma,,BBA, B.Com, B.Sci. etc.
VMPCMS			6A02HL6	It enhances the ability to interpret and analyze the events socially-politically and psychologically by reading and understanding Chaucer's and Elizabethan Age Literature. It opens opportunities of employment in the field of academics, writing, reviewing and criticizing.

VMPCMS			6A04PFC	It will help the student to acquire professional skills which make them ready for

			future employability purposes. It will further make them master to draft professional documents and face interviews to secure employment.
VMPCMS		6A05AML	This study has the ability to find, select and manage large quantities of information. Study of American Literature develop oral and written communication. It enhances the ability to research, and go on to academic jobs. It opens opportunities in making careers in law, publishing and retailing, as well as into many other fields. It develops problem solving attitude through creative and critical thinking.
VMPCMS	BBA (Logistic)	1LB01ES1	It will help the student to acquire professional skills which make them ready for future employability purposes. It will further make them master to draft professional documents and face interviews to secure employment.
VMPCMS		1LB02ES2	It will help the student to acquire professional skills which make them ready for future employability purposes. It will further make them master to draft professional documents and face interviews to secure employment.
VMPCMS		1LA03FOL	It enhances the knowledge of logistics in the real-life situation and enable them to enhance their ability and professional skills in Logistics
VMPCMS		1LA04POM	It teaches managerial skills and make them learn how to manage the resource optimally
VMPCMS		1LA05BUS	It provides conceptual and working knowledge of Business Statistics and uses it in the applications of business. It also teaches the methods of solving problems on basic concepts and analytical business statistical models. Moreover, it enables you to learn the introductory level of Transportation and queuing theory.
VMPCMS		1LA06MSM	Study of Material Management helps to know how to manage material in production setup. It enhances skills of transportation and warehouse facilities of material handling techniques.
VMPCMS		1LA07WDO	This subject teaches warehouse functions. One can has expertise on warehouse execution operations
VMPCMS		3LB01FLS	French Language will help students to understand the background of French Language Teaching, Students can deals in International transactions and students will get opportunity to teach in courses like B.tech, Diploma,BBA, B.Com. B.Sc,etc
VMPCMS		3LB02BUS	Business English will help to improve commercial correspondence skills like drafting letters, emails, reports, press releases with careful thought. These skills are essential in securing employment.
VMPCMS		3LA03FRF	The study of this subject enhances the expertise in the field of EXIM, Freight forwarding and custom clearance, Operation Procedures of Freight Forwarding, Documentation of Freight Forwarding process as per customer timelines and requirements
VMPCMS		3LA04FIM	The study of forecasting and inventory management provides understanding of Sales and Operations Planning, Codification, and influence of production policy on inventory levels.
VMPCMS		3LA05SUT	This subject helps in gaining expertise in the surface transportation field. It enhances the knowledge in the area of Tracking of transport, Types of Trucks and

			Load capacity/Organization structure in a Transport organization/ Incident management systems & Processes.
VMPCMS		3LA06HRM	Human resource management teaches how to plan human resources, how to recruit, select, train and motivate them. It provides skill on employee remuneration and relationships.
VMPCMS		3LA07MCA	Cost is an important element in every activity of trading, commerce and business. Students can learn various methods of cost control and management.

MUIS	B.Sc. Microbiology	MICROBIAL BIOCHEMISTRY BMIC3BCM	Knowledge regarding biochemical pathways that are carried out in cell are required to create base of many more subjects. In addition, this subject is also important for competitive exams for various posts in government and private bodies after graduation.
MUIS	B.Sc. Microbiology	MICROBIAL PHYSIOLOGY AND METABOLISM BMIC3MPM	Understanding physiological aspects are vital for creation of foundation of many more subjects in upcoming semesters. Such knowledge becomes vital tool in various competitive examinations for recruitment after graduation and entrance examination for higher studies.
MUIS	B.Sc. Biotechnology	BIOCHEMISTRY AND METABOLISM BBIT3BCM	Study of Biochemistry has good scope 0pportunities in teaching in medical and dental college, clinical research, pharma industry, pathology labs, nutrition biochemistry
MUIS	B.Sc. Biotechnology	GENETICS BBIT3GNT	Genetics is a wide field and it has applicability in cancer research, assessing newborn defects, Nutrigenomics, DNA sample analysis, etc. The field of genetics allows you to work in medical as well as scientific research.
MUIS	B.Sc. Mathematics	Numerical Analysis – I BMAT3NAS	Enhancing capacity to solve mathematical models and applying the skill acquired though the subject to build atmospheric modeling and computational fluid mechenics
MUIS	B.Sc. Mathematics	Calculus BMAT3CAL	The basic knowledge of concepts of calculus trains them to solve problems of various competitive exams like UGC-CSIR NET, SET. Approximating

			statistical values in computations where gamma function is used. Process like stochastic urn heavily rely on using beta function.
MUIS	B.Sc. Chemistry	Inorganic and Physical Chemistry-I BCHE3IPC	After the successful completion of the course, students will be able to understand and apply knolwdge in the field of Inorganic and Physical Chemistry.
MUIS	B.Sc. Chemistry	Organic and Analytical Chemistry-I BCHE3OAC	After the successful completion of the course, students will be able to understand and apply knolwdge in the field of Organic research and development, Analytical Quality control labs in Chemistry.
MUIS	B.Sc. Physics	Optics and Spectroscopy BPHY3OAS	The acquired knowledge about Optics, Modern Physics and LASER can help them in jobs related to optical instrument designings and in Laser industries
MUIS	B.Sc. Physics	Solid State and Nuclear Physics BPHY3SSN	The knowledge of Nuclear Physics, Solid State Physics and Mathematical Physics will be useful in research and analysis activities in the related fields
MUIS	B.Sc. MT/PH/CH/MB/BT	PROFESSIONAL SKILLS BELE3PFS	The contents of the course bears a direct relevence on those skills that are required from students to easily sail through the choppy waters of professional world. With a newly acquired learning in the ins and outs of workplace civility, table manners, dining etiquettes, appropriate workplace attire, manners of interacting with coworkers and customers, office and meeting etiquettes, and becoming adroit at handlling telephonic conversations, students will build up and consolidte formal relationship. Skills like Debate and Interview will instill confidence in students and help them sell their expertise to the potential eployer more effectively during interviews.Students will also know how values, morals are inextricably tied together and will consier to uphold a high standards of ethics and human values in any environment (formal-informal). By doing this course students will get a chance to work as a trainer, coach, tutor, teacher, etc in the variours job sectors.
MUIS	B.Sc. MT/PH/CH/MB/BT	BASIC STATISTICS BELE3BST	The basic knowledge of statistical methods will be useful to get employment in agriculture, business, forestry, education, medical studies. Also it will be useful in programming languages like python, R
MUIS	B.Sc. BT/MB/BT/CH/MB	Disaster Management- I BELE3DMT	Raising Awareness of Key Messages Through Live tragedy Stories discussion, Risk and Resource Mapping, Risk Reduction Action Planning - Mind Map
MUIS	B.Sc. Microbiology	Food and Dairy Microbiology BMIC4FDM	Microbiologists has vital role in quality control and quality assurance department in food and dairy industries. This subject provides all the knowledge regarding such procedures that are carried out by microbiologists.

MUIS	B.Sc. Microbiology	SOIL AND WATER MICROBIOLOGY BMIC4SWM	Understanding of role of microbes in the practices related to soil, agriculture and water will be beneficial to students since these all are connected to soil fertility, water supply and treatments conducted in various government and private bodies.
MUIS	B.Sc. Biotechnology	BIOPHYSICS AND BIO ANALYTICAL TECHNIQUES BBIT4BBT	Bioanalytical Sciences opt for an excellent choice for students looking forward to making a career in bioanalysis, bioinformatics and nutraceuticals.
MUIS	B.Sc. Biotechnology	IMMUNOLOGY BBIT4IMN	Immunology is the study of the immune system and is a very important branch of the medical and biological sciences.
MUIS	B.Sc. Mathematics	Numerical Analysis: II BMAT4NAS	Drawing attention to one of the major requirements in modern businesses, which is using optimization method to decide how to allocate resources most effectively. Implementating the contents taught in computer programming (C, C++, and Java, Matlab)
MUIS	B.Sc. Mathematics	Linear Algebra BMAT4LIA	Gaining first hand understanding of processes like optimization through linear programming, error correcting codes, signal analysis, graphics that help develop video games, facial recognition through eigen vectors,prediction, quantum computing, cryptography, data science.
MUIS	B.Sc. Chemistry	Inorganic and Physical Chemistry – II BCHE4IPC	After the successful completion of the course, students will be able to understand and apply knolwdge in the area of Ionic solids, organic functional groups, Photochemistry etc.
MUIS	B.Sc. Chemistry	Organic and Analytic Chemistry - II BCHE4OAC	Students utilize their knowledge in chemical science filed by learning basic concept and theories of Bioorganic, Biochemistry, analytical chemistry and instrumentation techniques.
MUIS	B.Sc. Physics	Elctromagnetism, Electronics And Plasma Physics BPHY4EEP	The knowledge of Electromagnetism, Electronics & Plasma Physics shall be instrumental in carrying out future work or job at IPR.
MUIS	B.Sc. Physics	Modern Physics, Quantum Mechanics And Relativity BPHY4MQR	The knowledge of Modern Physics, Quantum Mechanics and Relativity gained shall be useful in qualifying exams like NET/GATE and pursuing research or advanced studies
MUIS	B.Sc. MT/CH/PH/BT/MB	SCIENTIFIC WRITING BELE4SCW	It wouldn't be an overstatement to say that this subject is inroduced just in the nick of time for students when they most need to hone their writing craft. As they move ahead with the course of their studies, they will be increasingly required to draft job application letters, resume, memos, reports, technical papers, Joining, Promotion or recommendation letters. These core writing skills taught here will boost their confidence and make

			them more employable and worthy of a potential employer's choice.
MUIS	B.Sc. MT/PH/CH/MB/BT	BASIC PROBABILITY THEORY BELE4BPT	The basic knowledge of statistical methods will be useful to get employment in agriculture, business, forestery, education, medical studies. Also it will be useful in programming languages like python, R
MUIS	B.Sc. MT/PH/CH/MB/BT	Disaster Management- II BELE4DMT	Guide to Campus Building Safety, Safety Skills and Rules, Family Disaster Planning, Planning for Educational Continuity, Make a chart of Hazard sign

IOA	B.Arch	ARCHITECTURE DESIGN STUDIO-I	Form and Space Making. Experiencing movement through space and time. Anthropometry and space.
IOA	B.Arch	BASICS OF DESIGN-I	Knowledge and skill of making models with the help of different materials in different scales architectural presentation. This type of presentation is essential to understand and comprehend the planning & designing of a building.
IOA	B.Arch	TECHNICAL REPRESNTATIVE DRAWING-I	Prepare basic architectural drawing with different views. Understanding of construction of various geometrical shapes.
IOA	B.Arch	COMMUNICATION SKILLS	Communicate verbally and in writing in English. Follow correct pronunciation, stress and intonation in everyday conversation.
IOA	B.Arch	WORKSHOP/ ELECTIVE-I	Apply basic design and sketching principles and practices while making sketch and supporting their construction. Imparts the knowledge of drawing and painting technology for design construction of buildings and related components; at an introductory level and get familiar with the functions and requirements of design components.
IOA	B.Arch	RELATED STUDY PROGRAMME-I*	This RSP aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built.
IOA	B.Arch	ARCHITECTURE DESIGN STUDIO-II	Mapping and analyzing human movement in small concept spaces. An Exercise for creating one space for a defined function considering human space and objects. Exercise for creating more than one space for prescribed users of a residential unit considering day to day activity in relation to the

			lifestyle.
IOA	B.Arch	BASICS OF DESIGN-II	Series of exercise for preparing the abstract compositions with textures and colors reflecting the principles of aesthetics. Preparing the 3D compositions using the different materials like wood, steel, POP to express in reflect of the perception.
IOA	B.Arch	SURVEY & LEVELING	Plotting of building, boundary and other physical details like trees, pole etc. by chain survey, compass survey, plain table survey. Area measurement by Activity mappings on planimeter& other methods. Study of contour map and earth work calculation. Site visit for setting out building on ground.
IOA	B.Arch	WORKSHOP/ ELECTIVE-II	Activities derived on Models from various above mentioned materials to explore and understand the basics of materials.
IOA	B.Arch	SUMMER PROGRAMME-I*	This summer workshop aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built.
IOA	B.Arch	ARCHITECTURE DESIGN STUDIO-III	Exercises on Bubble diagrams, using grid or standardized unit as design tools. Creating typical "interior layouts" for specific activity-spaces w.r.t. anthropometry & building materials (wall openings, thicknesses etc). Basic site development criteria. Margins, landscape, approaches, entry & any specific site features,very basic vehicular and pedestrian movement within the site. Usage of building material as generation of building language. Usage of building material w.r.t. climate, construction & technology available
IOA	B.Arch	BASICS OF DESIGN-III	Study of Nature and Manmade elements, Analysis in terms of geometry, structure, material, color, evolution and abstraction in Architecture, Products, Graphics etc with sketching, Drafting, Model making activities.
IOA	B.Arch	STRUCTURE-III	Analysis of Structures by model making and calculative structural systems.
IOA	B.Arch	ENVIRONMENT SCIENCE & SERVICES -I	Climate, constituent's elements, classification of tropical climate zone. Thermal comfort and principal of thermal design. Ventilation, air movement and fenestration, solar orientation, son path pattern & shading devices. Traditional house form & settlement patterns in various tropical climates. Design Tool, Mahony table, sun path diagram etc. Exercises to enhance understanding of above concepts. Application of concepts in design work. Time problem to address design issues from climatology point of view.
IOA	B.Arch	WORKSHOP/ ELECTIVE-III	Activities derived on Models from various above mentioned materials to explore and understand the basics of materials.
IOA	B.Arch	RELATED STUDY	This RSP aims at creating understanding of inherent form and order in the

IOA	B.Arch	PROGRAMME-II*	built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built.
IOA	B.Arch	ARCHITECTURE DESIGN STUDIO-IV	Case studies of similar examples (Live and Literature).Literature reviews, Analysis and conclusions with understanding .Site visits and interaction with various stake holders. Proposing an architectural solution of a group of residence and requisite amenities.
IOA	B.Arch	ADVANCE BASIC DESIGN	Exercises in tectonics, space making and place making based upon the theory of design. On hands exercise to understand the theory.
IOA	B.Arch	TECHNICAL REPRESNTATIVE DRAWING-IV	Perspective projections – use of one point and two point perspective for 3-D representation. Use of Sciography – methods to represent shade/shadow and depth of an object with reference to sun movements. Introduction 3-D representation software like 3-D Studio Max.
IOA	B.Arch	ENVIRONMENT SCIENCE & SERVICES-II	Electrification, Lighting and Telecommunication, Light and its sources, the visual field, day lighting and its types, day lighting criteria, Artificial lighting, kind of lighting, illumination, calculations for lighting levels. Types of electricity, terminology, lighting accessories, protective devices. Electric power supply system from generation to customer, single phase, three phase, and electrical distribution in a building from main distribution board to switch board. Lighting design of a residence.
IOA	B.Arch	WORKSHOP/ ELECTIVE-III	Carpentry – Introduction to the use of different types of tools used in carpentry. Joints – Different types of joints, joinery details (which are commonly used in timber construction and interiors). Application of veneers/laminates on different types of timber surfaces i.e., Teak and commercial woods via ply, block boards, particle boards. Engraving and carving, Polishing and painting, Clay Work, -Marking of geometrical forms on the ground.
IOA	B.Arch	SUMMER PROGRAMME-II*	This summer workshop aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built
IOA	B.Arch	ARCHITECTURE DESIGN STUDIO-V	Case studies of similar examples (Live and Literature). Literature reviews, analysis and conclusions with understanding. Site visits and interaction with various stake holders. Proposing an architectural solution of a small Institution of Commercial / Social / Educational / Public or other nature. Producing working drawings of an independent design project from the previous semester.

IOA	B.Arch	HISTORY OF ARCHITECTURE-V	History about (1900 – 2100 ad) Formative years of Modern Architecture.Drawings, Lectures, Presentations, Movies, Discussions and Debates based upon the above syllabus.
IOA	B.Arch	ESTIMATING COSTING & SPECIFICATION-I	Air conditioning Different systems in current use from chilled water cooling systems to air handling package unit etc; their installations requirements and demand in building layouts. Supply air, return air ducting systems, their layouts and requirements along with building systems.
IOA	B.Arch	WORKSHOP/ ELECTIVE-V	To develop basic understanding the importance of estimate and designing of specification to achieve the best in terms of cost efficiency and standards.Study through practical site visits, presentations, case studies, tutorial, study of BOQ & workshop based on the application of theory to construction field.
IOA	B.Arch	RELATED STUDY PROGRAMME-III*	Skill This RSP aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built.
IOA	B.Arch	ARCHITECTURE DESIGN STUDIO-VI	Synchronizing the entire building construction process for realization a conceptual built environment with respect to material & technology with the help of architectural working drawings, Understanding each aspect and stages of building and construction system and requirement of drawings for execution of the same at different stages. Understanding magnitude and relevance of details in construction, Exploration of building materials and technology in construction.
IOA	B.Arch	ENVIRONMENT SCIENCE SERVICES-IV	Building Security Systems Concept of Building security Systems; Design issues, Components, Integrated approach in design, maintenance and management, Current trend and innovation, Application.Site Visits & Case Studies of above topics.Presentations, Movies, Debates & Discussions related to the above syllabus.
IOA	B.Arch	WORKSHOP/ ELECTIVE-VI	Effect of Built spaces on human psyche; visual aspects, visual control, visual art appreciation. To bring out creativity, imagination, originality and innovations in design. Designing various products of day to day life, enhance its functional and aesthetic values.Case Study, Analysis & Design based upon the selected subject of choice.
IOA	B.Arch	SUMMER PROGRAMME-III*	This summer workshop aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built.
IOA	B.Arch	ARCHITECTURE	Study of History & Evolution of Urban Area, Study of Natural elements

IOA	B.Arch	DESIGN STUDIO-VII	like Climate, Topography, etc. for understanding the settlement pattern. Study of Demographic profile, Occupational Pattern, etc. for understanding its impact on the development trends.
IOA	B.Arch	PROFESSIONAL PRACTICE-I	To understand basic concepts of business practice of Architecture, Construction Execution, Management and Working methodology. The course is structured to allow students to have hands on practical practices and approach in the field of Architecture and Construction.Practical approach to successful project guidance, Entrepreneurial approaches. Theories, In class - interactions, case studies & final exam and final submission of project report.
IOA	B.Arch	ADV. BUILDING CONSTRUCTION	Building facades, Dry walls, special constructions, Glass Buildings &modern urban Architecture. To understand advanced Building Technology to accommodate Hi-tech & sustainable aspects.In class lectures, presentations, case studies, drawings, Audio-Video & submissions.
IOA	B.Arch	WORKSHOP/ ELECTIVE-VII	Effect of Built spaces on human psyche; visual aspects, visual control, visual art appreciation. To bring out creativity, imagination, originality and innovations in design. Designing various products of day to day life, enhance its functional and aesthetic values.
IOA	B.Arch	RELATED STUDY PROGRAMME-IV*	This RSP aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built.
IOA	B.Arch	DESIGN STUDIO-I	Introduction of basic fundamentals of design and design vocabulary.The course will introduce students to the design fundaments with respect to function and aesthetics.Anthropometrics.
IOA	B.Arch	BASICS OF DESIGN-I	Fundamentals of visual perception and the perception and principles of aesthetics. To create the sense of perception in relation to the nature and the principles of life and creating the forms, studying the rhythm or balance contrast and spaces in 2 dimensions.
IOA	B.Arch	GRAPHICAL TECHNIQUES-I	Learning drawing skill for design thinking, visualization and representation.Facilitate visualization and 3D perception and put them on paper in form of technical drawings (plans and sections).
IOA	B.Arch	COMMUNICATION SKILLS	Art of communicating in English in the professional world.Introduction to communication strategies and verbal /non-verbal communication. Development of communication skills to improve professional expertise. Empowering students to independently handle job applications, interviews and project presentations.

IOA	B.Arch	WORKSHOP/ ELECTIVE-I*	Learning the basic skills of sketching and drawing the given object or the place.
IOA	B.Arch	RELATED STUDY PROGRAMME-I*	This RSP aims at creating understanding of inherent form and order in the built environment by observing it and analysing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and language of the built.
IOA	B.Arch	DESIGN STUDIO-II	Developing visual perception of interior spaces through architectural elements (linear and planer).Space making in order to understand elements and organization.
IOA	B.Arch	BASICS OF DESIGN-II	To develop the perceptions towards using the basic principles of aesthetics which can be useful to create a built form. Developing basic design skills and understanding nature of spaces, scales and space planning.
IOA	B.Arch	GRAPHICAL TECHNIQUES-II	Drawing Skills as tools to Design thinking, visualization and representation. Major emphasis on Measure drawing of a building and Interior Elements. Advanced drawing techniques, developing of surface and models, their visualization and representation of ideas on a 2D surface.
IOA	B.Arch	COMMUNICATION SKILLS-II	Teaching and instruction will involve the use of lecture-cum-workshop mode most of the time. The focus in teaching and instruction will be learner-oriented and every effort will be made to maximize student participation with learners as partners in classroom explorations. Thus there will be oral and written presentations.
IOA	B.Arch	HUMANITIES-II	Study of humanity and his culture to form derivation for design – physical manifestation in the contemporary world.
IOA	B.Arch	WORKSHOP/ ELECTIVE-II*	Materials based workshops. Exploration of materials, presentation and model making techniques and Models from various abovementioned materials to explore and understand the basics of materials
IOA	B.Arch	SUMMER PROGRAMME-I*	This RSP aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and language of the built.
IOA	B.Arch	DESIGN STUDIO-III	Study of influence of traditional art and craft forms in various cultures in reference to dwelling. Study of dwellings in urban and modern societies. Awareness of social context and its influence in design.
IOA	B.Arch	FURNITURE DESIGN-I	Analyzing the function & form of furniture and designing furniture by applying ergonomics, material technology and visual perception in a given space or function or activity.
IOA	B.Arch	GRAPHIC DESIGN-I	Understanding fundamentals of visual perception in graphics

IOA	B.Arch	GRAPHICAL TECHNIQUES-III	Understanding graphics as space making element. Exploring graphics in interior spaces through existing/functional elements that make an interior space. Analysis of existing photographs of interiors as well as on-site photography to understand graphic nature of spaces and their elements
IOA	B.Arch	SPACE PERCEPTION & DISPLAY	Skill development
IOA	B.Arch	WORKSHOP/ ELECTIVE-III	Introduction of different types of photography. To get feel of various metals, to explore metal by working with it. Comparative analysis of various metals and their design parameters.
IOA	B.Arch	RELATED STUDY PROGRAMME-II*	Observation of form and order in built environment. This RSP aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and language of the built.
IOA	B.Arch	DESIGN STUDIO-IV	Design for commercial activities in semi-urban and urban areas. Study of contextual needs to establish a premise in evolving of commercial activity pockets and visual merchandising according to economic group it targets.
IOA	B.Arch	FURNITURE DESIGN-II	Mass production of Furniture forms for various classes of people with the parameters of economic culture. System design approach and space planning through furniture and products as elements design. The focus is on system thinking and futuristic approach for a system to sustain. Furniture is to look with a different perspective and new approaches to elements are established. Studio calls for validity of furniture in urban context with idea of time, economy, globalization, socio-cultural aspects.
IOA	B.Arch	GRAPHIC DESIGN-II	Understanding graphics not just as an image perceived but a tool for visual communication. Word Play: Selection of appropriate font and their composition to enhance communication of the word used. Understanding elimination of details to arrive at an abstraction retaining only the essence. Further understanding the minimal required for communication.
IOA	B.Arch	DIGITAL TECHNOLOGY-I	Auto cad as a drafting media. Basic drafting tools and commands: Draw tools, Modify tools, Inquiry tools, Selection techniques, Additional working support, Blocks, Layers, properties, line types, Text and dimensioning. Understanding Plotting and plot settings. Taking out prints on various scales and on various papers. Applications in the field and exercises towards the same.
IOA	B.Arch	WORKSHOP/ ELECTIVE-IV	Understanding fabrics as element of interior space making Understanding through observation and actually working out- weaving, printing of various types of fabrics.

IOA	B.Arch	SUMMER PROGRAMME-II*	Observation of form and order in built environment. This summer workshop aims at creating understanding of inherent form and order in the built environment by observing it and analyzing by sketching and measure drawing. Hand sketch also gives an opportunity to students for examining the systems, scale and architectural language of the built.
IOA	B.Arch	DESIGN STUDIO-V	Creating an interior environment of an institute in response to its functions, need of society and the nature of the institute.
IOA	B.Arch	FURNITURE DESIGN-III	System design approach and space planning through furniture as elements of design. Modular in furniture design, its relationship to human economics. Doing survey of various modular system available for different functions in market. Modular system of storage elements – closets, kitchen cabinets, displays, sitting systems etc. with reference to material and it's structure. Modular approach in setting elements styles and types of units available in market.
IOA	B.Arch	DIGITAL TECHNOLOGY-II	3D modelling and Rendering, Presentation and Advance power point.3D modeling and Rendering: Introduction related software (3D studio MAX / 3D studio WIZ). 3D modeling and editing in 3D studio MAX. Importing and working with CAD generated models. Material application, color and texture mapping Lighting and advanced lighting. Rendering for different types of output and printing options Application in the field and exercises towards the same.
IOA	B.Arch	PROFESSIONAL PRACTICE	Understanding Quantity Surveying & Estimate preparation. Specification : Specification of different building items - general specification and detailed specification. Rate Analysis: Meaning, Importance, Purpose and use, factors affecting rate analysis. Rate analysis of major items of building work. Factors affecting, cost of work task work general information regarding S.O.R.
IOA	B.Arch	WORKSHOP/ ELECTIVE-V	Understanding the details and composing them to form a whole. Learning compositional skills and colours. Weaving fabric manually. Screen Printing. Wood cut Printing.
IOA	B.Arch	RELATED STUDY PROGRAMME-III*	Live with craft. Visit and live with craft people of various countries to understand craft as way of life. Develop craft skill, develop craft product and possibly evolve or change craft technology to make product refined so that they are easily accepted into modern way of life.
IOA	B.Arch	DESIGN STUDIO-VI	This studio focuses on the design of spaces in urban, semi-urban, and rural contexts with an aim to explore and understand transformation and adaptive re-use as one of the important aspects in interior design.
IOA	B.Arch	DESIGN EXECUTION	Synchronizing the entire Interior execution process for realization a

		DRAWING	conceptual built environment with respect to material & technology with the help of interior working drawings. Understanding each aspect and stages of Interior construction system and requirement of drawings for execution of the same at different stages. Understanding magnitude and relevance of details in Interior construction. Exploration of building materials and technology in interior construction.
IOA	B.Arch	DESIGN MANAGEMENT	Understanding some of the key aspects in Interior planning and scheduling. Upon completion of the course students shall be able to draw bar charts and use other planning tools to schedule and plan a project with several complex activities along with important understanding of quality and safety during construction.
IOA	B.Arch	HISTORY OF INTERIOR DESIGNING-III	To provide the student of Interior Design knowledge on the works of leading interior designers and their Influence on design through ages.
IOA	B.Arch	WORKSHOP/ ELECTIVE-VI	Understanding plastic as a material and it's related products. Understanding glass as a material. Developing innovative forms , using these materials.
IOA	B.Arch	SUMMER PROGRAMME-III*	They have to choose a project by their own either it's a research base or documentation. Submission in form of documentation of work which is analyzed.
IOA	B.Arch	PROFFESIONAL TRAINING	OFFICE TRAINING (PRACTICAL TRAINING) State if Interior design Profession in today's' Business world and design world. " More Emphasis on site supervision ."Understanding" of " Professional Practice" methods of various interior designers - Design process from first client contacts to production documents, tender documents from various work involved, production drawings for various work , site supervision.
IOA	B.Arch	WORKSHOP/ ELECTIVE-VII	Exploration of different skills. Creative writing, Digital Graphics, Furniture & product design. Drawing base exercise which may converted in 3D forms. Conceptual analysis of design and its making.
IOA	B.Arch	RELATED STUDY PROGRAMME-IV*	To understand the institutional and public spaces. Documenting with doing measure drawings of important junctions. Analysis and its modification.
IOA	B.Arch	DESIGN STUDIO-VI	Individual design project set to aid a student in his understanding of the complexities and fundamentals of all design dimensions. Actual prototype sampling of space, furniture and product. Exploration of expressional skills in drawings, 3d views, walk through, and model making
IOA	B.Arch	WORKSHOP/ ELECTIVE-VIII	To enhance the advance material by creating objects. Class exercise of object/ product, and its model. Fabric, Metal, PVC sheets.
IOA	B.Arch	SUMMER PROGRAMME-IV*	Based on their design thesis. Model making exercise and its analysis.1:1 Model of products which they have designed in their interior design thesis.
