## **II. TEACHING-LEARNING AND EVALUATION**

Our mandate at the time of establishment of this university was ‘upliftment of the society through education’. The education required was of the kind that would help shape character and conduct by empowering learners from rural areas to be self-reliant and capable of self-employment rather than employment-seeking citizens. Embedded in the mandate was a refined mixture of the traditional and the modern: a cross between the traditions of teaching-learning in our ancient seats of learning Nalanda and Takshashila and the western model of Oxford and Cambridge. Prof. P. I. Patel, our founder Vice Chancellor, was intent in translating this understanding of his vision into action.

Our effort has constantly been to ensure awakening and enlightenment in the process of teaching learning exchange both on the part of the teacher and the taught. We tend to perceive the process as an evolution of the whole from the whole, and have strived hard to trigger this further into lifelong learning. The result has been the creation of a transparent and accountable system of evaluation involving blind assessment using non-transparent flapping of their seat numbers by the examinees at the end of an examination; secure centralised process of evaluation and compilation of results; speedy and confidential reassessment by external examiners outside this university; stricter penalties for unethical methods used by the students or evaluators after a free and fair hearing by the Unfair Means Committee appointed by the Director; creation of grievance redressal committee etc voluntarily and as mandated by the UGC or the Education Department of the Government of Gujarat. All this has led to stress-free examinations and timely declaration of results.

### 2. SPOKEN TUTORIAL :

Our University has partnered with IIT Bombay, known as SPOKEN TUTORIAL, which is an NMEICT, Govt. of India initiative to enhance the skill set of students both UG and PG for promoting its mission of providing resources to its students to make them industry ready. Spoken Tutorial Project is an award winning MOOCs (from Google), running a successful IT training program in India since the past 5 years. Training is offered on Free and Open Source Software (FOSS). Exotic and lucrative courses like Python, Perl, BASH, GIMP, Blender for multimedia, can be learned effectively through Spoken Tutorials.

The courses are useful for both jobs (Skill focus courses) and academics (Syllabus focus courses). The program is funded by MHRD, Govt. of India. The training is on campus.

The tutorial is an asset to the students since learning becomes more effective when animation and narration are presented simultaneously. Audio-video demonstrations can illustrate features with maximum clarity.

Participation by students is mandatory and the appointed faculty Prof. Kunal Garud will batch the students and update on the same.
